TO WHOMSOEVER IT MAY CONCERN

This is to certify that **Aditya VSM**, a student of B.M.S College of Engineering, department of Information Science **(1BM19IS012)** has successfully completed his 3 month internship between 10th of March 2022 and 25th of June 2022 with Unskramblr.ai as an Engineering Intern directly reporting to one of the co-founders.

During Aditya's tenure with us, Aditya worked on our Artificial Intelligence (AI) module and was a part of a 2 member team responsible for delivering our first AI module which is central to the product offering. Given the open-endedness of the requirement, the AI team did a stellar job in delivering what was necessary in a timely fashion. Their work involved feature engineering, data gathering, data cleaning and model building while exploring the best possible options to address the business use-case. There is a research paper being contributed as an added bonus with all the learnings derived from their work.

Aditya's development abilities and his endeavor to learn, combined with his research mentality made him one of our top-3 contributors both in terms of quality and quantity of code.

We were delighted to have Aditya on our team and hope that our paths cross again.

We wish Aditya all the very best in all his future endeavors and are rooting for Aditya's success!

Khoros

**RE: Internship Position**

Dear Pamulapati Supriya,

It is our pleasure to offer you the role of Intern at Khoros, ("Khoros" or the "Company"). We're a company sharply focused on building trust, setting the standard, continuous learning and teaching, and winning together – the same characteristics we look for in all of our team members. You reflect these values and we feel confident that you will have a richly rewarding internship with us.

This letter sets forth our offer to you to join Khoros as an intern for the period beginning Tuesday, October 12th, 2021, and scheduled to end Friday, July 29th, 2022. In this internship, you will report to Abhinn Gautam, our Manager – Software Engineering. Notwithstanding the above, you and Khoros acknowledge that unsatisfactory performance during the internship period will result in the internship's termination with a two-day notice period.

**Start Date.** Your first day with Khoros will be October 12th, 2021.

**Compensation.** You will be paid a monthly stipend of INR 25000 , less regular payroll deductions.

**Benefits.** As an intern, you are not eligible for Company benefits. However, you will be eligible to receive one (1) day of Paid Time Off each month during the internship period. You must request paid time off through your manager.

**Abide by Company Policies.** You agree that, as a Khoros intern, you will abide by the Company's policies, and acknowledge that you will read the Company's Employee Handbook within the first week of internship and will abide to all requirements therein. You agree that upon completion of your internship, you will promptly return any company-issued property and equipment. By accepting this offer, you acknowledge that your participation in this program is not an offer of employment, and successful completion of the program does not entitle you to an employment offer from Khoros.

**Offer Contingencies.** This offer is contingent upon the successful completion of successful reference checks, background checks, and the verification of your identity and ability to work in India.

**Summary.** Upon full execution, this letter and its exhibits will form the complete and exclusive statement of your internship agreement with Khoros. The terms in this letter supersede any other agreements or promises made to you by anyone, whether oral or written.

Supriya, we are delighted to extend this offer to you and look forward to welcoming you to Khoros. Please sign the letter by October 1st, 2021 if you wish to accept an internship with Khoros under the terms described above.

Best,

## Problem Statement & Solution

When every company comes to hire a student, the google form will be shared to the students to fill their details. This makes students to fill the same details again and again. The student placement coordinator has to share the google form, company details, job description as soon as he received the form but sometimes he may be busy due to his academics, he may not be able to share the details. Due to this some students may not be able to apply for the job within the deadline. These problems can be solved using the **"Campus Recruitment System".**

The **"Campus Recruitment System"** that consists of a student login, company login and an admin login. The project is beneficial for college students, various companies visiting the campus for recruitment and even the college placement officer. The software system will allows the students to create their profiles and upload all their documents related to academics. The admin can check each student details and company details. He will be able to review the documents of students and can send the details of the changes he wants. The system also consists of a company login where various companies visiting the college can view a list of students in that college and also their details. The software system allows students to view a list of companies who have posted for vacancy. The admin has overall rights over the system and can moderate and delete any details not pertaining to college placement rules. The system handles student as well as company data and efficiently displays all this data to respective sides.

So the **"Campus Recruitment System"** helps to reduce the workload of both student as well as student placement coordinator. The **"Campus Recruitment System"** itself takes care of sending notification to the students whenever new company visits the college for hiring process. Since **"Campus Recruitment System"** will be saving the details of each student , they do not need to fill the same details again and again.

ANNEXURE B – NON-DISCLOSURE AGREEMENT

**Agreement Regarding Confidential Information, Intellectual Property, and Other Matters**

Serial # :_____ Date Of Hire : __ __ / __ __ / __ __ __ __

In consideration of my internship with International Business Machines Corporation or one of its subsidiaries or affiliates (collectively, "IBM"), and the payment to me of a stipend or other compensation related to my internship, I agree as follows:

1. I will not, without IBM's prior written permission, disclose to anyone outside of IBM or use in other than IBM's business, either during or after my internship, any confidential information or material of IBM, or any information or material received by IBM in confidence from third parties, such as suppliers or customers. Once my IBM internship ends, or at the request of IBM, I will return to IBM all property in my possession belonging to IBM or received by IBM from any third party, whether or not containing confidential information and whether stored on an IBM owned asset or a personally owned asset, including, but not limited to, electronic data, electronic files, diskettes and other storage media, drawings, notebooks, reports, and any other hard copy or electronic documents or records. I understand I am not prohibited from reporting possible violations of law or regulation to a government agency, as protected by law.

Confidential information or material of IBM is any information or material: (a) generated or collected by or utilized in the operations of IBM; received from any third party; obtained from an entity IBM acquired or in which IBM purchased a controlling interest (including information or material received by that entity from a third party); or suggested by or resulting from any task assigned to me or work performed by me for or on behalf of IBM; and (b) which has not been made available generally to the public, whether or not expressed in a document or other medium and whether or not marked "IBM Confidential" or with any similar legend of IBM or any third party. Confidential information or material may include, but is not limited to, information and material related to past, present and future development, manufacturing activities, or personnel matters; marketing and business plans; pricing information; customer lists; technical specifications, drawings, and designs; prototypes; computer programs; and databases.

(a) During my internship with IBM and six months thereafter, I will not directly or indirectly solicit, or attempt to or participate or assist in any effort to solicit, any employee of IBM to be employed or perform services outside of IBM.

(b) I agree that during my internship with IBM and for six months thereafter, I will not directly or indirectly solicit for competitive business purposes any customer with which I was directly or indirectly involved as part of my responsibilities during my internship with IBM.

2. I acknowledge that IBM would suffer irreparable harm if I fail to comply with Paragraph 2(a) or (b), and that IBM would be entitled to any appropriate relief, including money damages, equitable relief and attorneys' fees.

3. I will not disclose to IBM, use in its business, or cause it to use, any information or material which is confidential to any third party unless authorized by IBM. In addition, I will not incorporate into any product used and/or sold by IBM, any copyrighted materials or patented inventions of any third party, unless authorized by IBM pursuant to Paragraph 5.

4. I will comply, and do all things necessary for IBM to comply, with (a) the laws and regulations of all governments under which IBM does business, (b) the provisions of contracts between any such government or its contractors and IBM that relate to intellectual property or to the safeguarding of information, and (c) IBM's corporate directives, including, without limitation, policies and information technology security standards issued from time to time as well as the IBM Business Conduct Guidelines as amended from time to time.

5. I hereby assign to IBM my entire right, title, and interest in any idea, concept, technique, invention, design (whether the design is ornamental or otherwise), computer programs and related documentation, other works of authorship, mask works, and the like (all hereinafter called "Developments"), hereafter made, conceived, written, or otherwise created solely or jointly by me, whether or not such Developments are patentable, subject to copyright or trademark protection or susceptible to any other form of protection which: (a) relate to the actual or anticipated business or research or development of IBM or its subsidiaries or (b) are suggested by or result from any task assigned to me or work performed by me for or on behalf of IBM or its subsidiaries.

If, by operation of law such right, title, and interest in Developments vest in IBM upon creation, I acknowledge that such right, title, and interest belong to IBM. Also, I hereby assign to IBM my entire right, title and interest in any such Developments that were or are suggested by or a result of any task assigned to me or work performed by me for or on behalf of any entity that IBM acquired or in which IBM purchased a controlling interest to the extent that any such right, title and interest is not already owned by said entity.

In the case of any "other works of authorship", such assignment or ownership shall be limited to those works of authorship which meet both conditions (a) and (b) above.

California Notice: For Developments subject to California law, notwithstanding anything above to the contrary, I understand that this assignment does not apply to a Development which qualifies fully under the provisions of Section 2870 of the California Labor Code. The above provisions concerning assignment or ownership of Developments apply to Developments created while employed by IBM in an executive, managerial, professional, product or technical planning, technical, research, programming, or engineering capacity (including development, product, manufacturing, systems, applied science, and field engineering) or otherwise.

The assignment of Developments in this Paragraph 5 shall exclude any Developments in which I have a right, title, or interest and that were, prior to my internship with IBM, (1) conceived and/or made solely or jointly by me; (2) written wholly or in part by me; or (3) expressly stated in an agreement that I executed with another party which precludes an assignment to IBM (collectively, these exceptions to assigned Developments hereunder shall be known as “Excluded Developments”). Further, I acknowledge that I will not use or cause to be used, any Excluded Developments in IBM’s business, research or development without a written or email authorization to do so from both my first and second line manager. For the avoidance of doubt, Excluded Developments shall not comprise any Developments that were or are suggested by or resulted from any task assigned to me or work performed by me for or on behalf of any entity that IBM acquired or in which IBM purchased a controlling interest, unless assignment of my right, title, and interest in the Development is governed by an agreement executed prior to my IBM internship.
I hereby identify any and all Excluded Developments which are not published in a searchable public database (e.g. United States Patent & Trademark Office). In the following table I have provided a brief non-confidential description that sufficiently identifies the Excluded Development (e.g. title of publication), the creation date of the Excluded Development, and to the extent my rights to the Excluded Development are governed by an agreement, the other named party to the agreement and the date the obligation terminates.

**If I do not have any Excluded Developments to declare I have left the following table blank or have written “None,” “Non/Applicable,” or a similar designation.**

| Description of Excluded Development | Date Created | Named Party/Termination Date |
|---|---|---|
| | | |
| | | |

Additional pages may be attached, as appropriate to identify other Excluded Developments, if any. IBM requires you to disclose Excluded Developments in this Paragraph 5. If you wish to interest IBM in any Excluded Development, you may contact the Intellectual Property and Licensing Department at Corporate Headquarters, which will provide you with instructions for submitting it to IBM.

6. In connection with any of the Developments assigned by Paragraph 5: (a) I will promptly disclose them in writing to the IBM Intellectual Property Law Department; and (b) I will, on IBM's request, promptly execute a specific assignment of title to IBM or its designee and do anything else reasonably necessary to enable IBM or such designee to secure a patent, copyright or other form of protection therefore in the United States and in other countries. In addition, I agree to promptly notify the IBM Intellectual Property Law Department in writing of any patent or patent application in which I am an inventor but which is not assigned by Paragraph 5 and which discloses or claims any Development made, conceived, or written while I am employed by IBM.I also agree to promptly notify the IBM Intellectual Property Law Department if, after my IBM internship ends, I am contacted by anyone or any entity outside of IBM regarding any transaction, legal or governmental proceeding, litigation or other legal dispute concerning or relating to any of the Developments assigned by Paragraph 5.

7. IBM and its licensees, successors, or assigns (direct or indirect) are not required to designate me as an author of any Development which is subject to Paragraph 5, when it is distributed, publicly or otherwise, or to secure my permission to change or otherwise alter its integrity. I hereby waive and release, to the extent permitted by law, all rights in and to such designation and any rights I may have concerning modifications of such Developments.

I understand that any rights, waivers, releases, and assignments herein granted and made by me are freely assignable by IBM and are for the benefit of IBM and its subsidiaries, licensees, successors, and assigns.

8. I agree that IBM, its services providers and other third parties authorized by IBM will collect, use, store, make available to those who have a need-to-know, and otherwise process my personal information to establish, maintain and terminate my internship relationship with IBM and for other legitimate business purposes, anywhere in the world. Such personal information, whether provided to IBM, its service providers, or third parties directly by me or otherwise gathered, includes my name, photo, contact information, skills, compensation, performance, usage of IBM assets, background check results, bank account information, and disability or medical information.

I will not use for unauthorized purposes nor share with any unauthorized parties, either during or after my internship, any personal information about others to which I may have access during my internship at IBM.

I agree to comply with all IBM policies and practices regarding use of social computing tools and I understand that I am personally responsible for the content I post on any social computing tools (whether on IBM's internal platforms or on third party sites) and that any information I post, including any of my personal information, may be made broadly available to others, potentially inside or outside IBM, who have access to these tools.

9. The term "subsidiaries," as used in this Agreement, includes any entity owned or controlled, directly or indirectly, by International Business Machines Corporation.

10. This Agreement supersedes all previous oral or written communications, representations, understandings, undertakings, or agreements relating to the subject matter hereof, except as expressly agreed otherwise by IBM in writing. Any waiver of a term in this Agreement and any amendment to this Agreement may only be made in a writing signed by the Senior Vice President of Human Resources for International Business Machines Corporation and myself.

11. This Agreement shall be governed by the laws of India. If any provision of this Agreement is unenforceable at law, the remainder shall remain in effect. # COVID-19: IBM Initiatives for Employees and Communities

As we navigate the COVID-19 pandemic, IBM has taken a series of initiatives to help and support our employees and their family members in this challenging environment. The health and safety of IBMers, partners, and clients is our top priority.

We have put together a comprehensive support plan for our employees and their families to tide through this pandemic.

***Employee Well-being and Safety***

- **Vaccination for all IBMers:** Vaccination camps will be opened (in line with Government regulations and availability of vaccines) in all major cities with IBMer populations. IBMers and their family members will have the option of getting vaccinated at hospital centers or camps at selected IBM locations. We are working closely with the concerned authorities on this
- **Dedicated 24X7 Medical Helpline with Portea:** IBM has launched a dedicated helpline through Portea Health Care Services - for a variety of services including doctor consultation, medical/home care services, and testing services. This helpline is the first point of contact for support for any medical help.
- **Access to Oxygen Concentrators**
  IBM has procured oxygen concentrators to support IBMers and their family members. We have partnered with Portea Health Care Service to deploy these oxygen concentrators across Bangalore, NCR (Delhi, Gurgaon, Noida), Kolkata, Chennai, and Hyderabad.
- **Eldercare Support with Samarth:** IBM has partnered with Samarth, one of India's leading organizations supporting the elderly by creating a COVID care system. Samarth will help the elders deal with the pandemic by providing 24/7 emergency assistance, home care resources, medicines, doctor tele-consultations, food services, oxygen, and requirement for other equipment as needed.
- **COVID Care Center:** We have worked with Apollo Hospital to offer medically supervised "step down" facilities at designated hotels in every major city where IBMers and immediate family members can quarantine in case it's not feasible at home.
- **Emergency Transport for Medical Needs:** We are offering an emergency transport facility 24x7 for medical requirements for both employees and their immediate family members who are COVID-19 positive (for transport to a medical facility) and those who are COVID-19 negative (for procuring medical supplies or attend to impacted family members).

**Mobilizing the collective power of the IBMers**

- **IBMer volunteer COVID squads :** We have organized squad groups staffed by IBMer volunteers to take service requests and match them to verified sources of available resources - Hospital Beds, ICUs, Oxygen requirements, ambulances, medicines, and more. With over 2000 volunteers already signed up, this is really making a difference to quickly triage requests and ensure that needs are matched to resources available nationally.
- While we do this, employee health and well-being remain a key priority for us. We have set up several **employee support groups across cities** to provide employees with a platform to discuss issues, challenges, concerns and coping mechanisms such as managing stress, staying active and promoting self-care. In consideration of my internship with International Business Machines Corporation or one of its subsidiaries or affiliates (collectively, "IBM"), and the payment to me of a stipend or other compensation related to my internship, I agree as follows:

1. I will not, without IBM's prior written permission, disclose to anyone outside of IBM or use in other than IBM's business, either during or after my internship, any confidential information or material of IBM, or any information or material received by IBM in confidence from third parties, such as suppliers or customers. Once my IBM internship ends, or at the request of IBM, I will return to IBM all property in my possession belonging to IBM or received by IBM from any third party, whether or not containing confidential information and whether stored on an IBM owned asset or a personally owned asset, including, but not limited to, electronic data, electronic files, diskettes and other storage media, drawings, notebooks, reports, and any other hard copy or electronic documents or records. I understand I am not prohibited from reporting possible violations of law or regulation to a government agency, as protected by law.

Confidential information or material of IBM is any information or material: (a) generated or collected by or utilized in the operations of IBM; received from any third party; obtained from an entity IBM acquired or in which IBM purchased a controlling interest (including information or material received by that entity from a third party); or suggested by or resulting from any task assigned to me or work performed by me for or on behalf of IBM; and (b) which has not been made available generally to the public, whether or not expressed in a document or other medium and whether or not marked "IBM Confidential" or with any similar legend of IBM or any third party. Confidential information or material may include, but is not limited to, information and material related to past, present and future development, manufacturing activities, or personnel matters; marketing and business plans; pricing information; customer lists; technical specifications, drawings, and designs; prototypes; computer programs; and databases.

(a) During my internship with IBM and six months thereafter, I will not directly or indirectly solicit, or attempt to or participate or assist in any effort to solicit, any employee of IBM to be employed or perform services outside of IBM.

(b) I agree that during my internship with IBM and for six months thereafter, I will not directly or indirectly solicit for competitive business purposes any customer with which I was directly or indirectly involved as part of my responsibilities during my internship with IBM.

2. I acknowledge that IBM would suffer irreparable harm if I fail to comply with Paragraph 2(a) or (b), and that IBM would be entitled to any appropriate relief, including money damages, equitable relief and attorneys' fees.

3. I will not disclose to IBM, use in its business, or cause it to use, any information or material which is confidential to any third party unless authorized by IBM. In addition, I will not incorporate into any product used and/or sold by IBM, any copyrighted materials or patented inventions of any third party, unless authorized by IBM pursuant to Paragraph 5.

4. I will comply, and do all things necessary for IBM to comply, with (a) the laws and regulations of all governments under which IBM does business, (b) the provisions of contracts between any such government or its contractors and IBM that relate to intellectual property or to the safeguarding of information, and (c) IBM's corporate directives, including, without limitation, policies and information technology security standards issued from time to time as well as the IBM Business Conduct Guidelines as amended from time to time.

5. I hereby assign to IBM my entire right, title, and interest in any idea, concept, technique, invention, design (whether the design is ornamental or otherwise), computer programs and related documentation, other works of authorship, mask works, and the like (all hereinafter called "Developments"), hereafter made, conceived, written, or otherwise created solely or jointly by me, whether or not such Developments are patentable, subject to copyright or trademark protection or susceptible to any other form of protection which: (a) relate to the actual or anticipated business or research or development of IBM or its subsidiaries or (b) are suggested by or result from any task assigned to me or work performed by me for or on behalf of IBM or its subsidiaries.

If, by operation of law such right, title, and interest in Developments vest in IBM upon creation, I acknowledge that such right, title, and interest belong to IBM. Also, I hereby assign to IBM my entire right, title and interest in any such Developments that were or are suggested by or a result of any task assigned to me or work performed by me for or on behalf of any entity that IBM acquired or in which IBM purchased a controlling interest to the extent that any such right, title and interest is not already owned by said entity.

In the case of any "other works of authorship", such assignment or ownership shall be limited to those works of authorship which meet both conditions (a) and (b) above.

California Notice: For Developments subject to California law, notwithstanding anything above to the contrary, I understand that this assignment does not apply to a Development which qualifies fully under the provisions of Section 2870 of the California Labor Code. The above provisions concerning assignment or ownership of Developments apply to Developments created while employed by IBM in an executive, managerial, professional, product or technical planning, technical, research, programming, or engineering capacity (including development, product, manufacturing, systems, applied science, and field engineering) or otherwise.

7. IBM and its licensees, successors, or assigns (direct or indirect) are not required to designate me as an author of any Development which is subject to Paragraph 5, when it is distributed, publicly or otherwise, or to secure my permission to change or otherwise alter its integrity. I hereby waive and release, to the extent permitted by law, all rights in and to such designation and any rights I may have concerning modifications of such Developments.

I understand that any rights, waivers, releases, and assignments herein granted and made by me are freely assignable by IBM and are for the benefit of IBM and its subsidiaries, licensees, successors, and assigns.

9. The term "subsidiaries," as used in this Agreement, includes any entity owned or controlled, directly or indirectly, by International Business Machines Corporation.

10. This Agreement supersedes all previous oral or written communications, representations, understandings, undertakings, or agreements relating to the subject matter hereof, except as expressly agreed otherwise by IBM in writing. Any waiver of a term in this Agreement and any amendment to this Agreement may only be made in a writing signed by the Senior Vice President of Human Resources for International Business Machines Corporation and myself.

(a) **Dispute Resolution**. Subject to the exceptions set forth below, I agree that any and all claims or disputes that I have with the Company, or any of its employees, which arise out of my employment or under the terms of my employment, shall be resolved through final and binding arbitration, as specified herein. Any subsequent change or changes in my duties, obligations, rights or compensation will not affect the validity or scope of this Agreement.

(c) **Severability.** If one or more of the provisions in this Agreement are deemed void by law, then the remaining provisions will continue in full force and effect.

(d) **Successors and Assigns.** This Agreement will be binding upon my heirs, executors, administrators and other legal representatives, and my successors and assigns, and will be for the benefit of the Company, its successors, and its assigns.

(e)**Survival.** The provisions of this Agreement shall survive the termination of the Relationship and the assignment of this Agreement by the Company to any successor in interest or other assignee.

(f) **ADVICE OF COUNSEL.** I ACKNOWLEDGE THAT, IN EXECUTING THIS AGREEMENT, I HAVE HAD THE OPPORTUNITY TO SEEK THE ADVICE OF INDEPENDENT LEGAL COUNSEL, AND I HAVE READ AND UNDERSTOOD ALL OF THE TERMS AND PROVISIONS OF THIS AGREEMENT. (a) **Employees.** In the event that I leave the employ of the Company, I hereby consent to notification by the Company to my new employer about my rights and obligations under this Agreement.

(b) **Consultants.** I hereby grant consent to notification by the Company to any other parties besides the Company with whom I maintain a consulting relationship, including parties with whom such relationship commences after the effective date of this Agreement, about my rights and obligations under this Agreement.

**6. Solicitation of Employees, Consultants and Other Parties.** I agree that during the term of my Relationship with the Company, and for a period of twenty-four (24) months immediately following the termination of my Relationship with the Company for any reason, whether with or without cause, I shall not either directly or indirectly solicit, induce, recruit or encourage any of the Company's employees or consultants to terminate their relationship with the Company, or take away, hire, or otherwise engage the services of such employees or consultants, or attempt to solicit, induce, recruit, encourage or take away employees or consultants of the Company, either for myself or for any other person or entity. Further, for a period of twenty-four (24) months following termination of my Relationship with the Company for any reason, with or without cause, I shall not solicit any licensor to or customer of the Company or licensee of the Company's products, in each case, that are known to me, with respect to any business, products or services that are competitive to the products or services offered by the Company or under development as of the date of termination of my Relationship with the Company.

**7. Representations and Covenants.**

(a) **Facilitation of Agreement.** I agree to execute promptly any proper oath or verify any proper document required to carry out the terms of this Agreement upon the Company's written request to do so.

(b) **Conflicts.** I represent that my performance of all the terms of this Agreement does not and will not breach any agreement I have entered into, or will enter into with any third party, including without limitation any agreement to keep in confidence proprietary information acquired by me in confidence or in trust prior to commencement of my Relationship with the Company and any restrictions on working with the Company as imposed by any previous employer or client.

(c) **Voluntary Execution.** I certify and acknowledge that I have carefully read all of the provisions of this Agreement and that I understand and will fully and faithfully comply with such provisions.

**8. General Provisions.**

(a) **Dispute Resolution**. Subject to the exceptions set forth below, I agree that any and all claims or disputes that I have with the Company, or any of its employees, which arise out of my employment or under the terms of my employment, shall be resolved through final and binding arbitration, as specified herein. This shall include, without limitation, disputes relating to this Agreement, my employment by the Company or the termination thereof, claims for breach of contract or breach of the covenant of good faith and fair dealing, and any claims of discrimination or other claims, state or local law or regulation now in existence or hereinafter enacted and as amended from time to time concerning in any way the subject of my employment with the Company or its termination. The only claims

DocuSign Envelope ID: 3BBE2756-925B-4B23-8499-F3907E871489

or disputes not covered by this paragraph are disputes related to (i) workers' compensation laws and (ii) issues affecting the validity, infringement or enforceability of any trade secret or patent rights held or sought by the Company or which the Company could otherwise seek; in both of the foregoing cases such claims or disputes shall not be subject to arbitration and will be resolved pursuant to applicable law. Binding arbitration will be conducted in Bangalore, India in accordance with the rules and regulations of the Indian Arbitration and Conciliation Act, 1996. If, at the time the dispute in question arose, I lived and worked outside Bangalore or India then I have the option of requesting that the arbitration take place in the jurisdiction in which the Company has an office that is nearest to my home. Each party will split the cost of the arbitration, filing and hearing fees, and the cost of the arbitrator. Each side also will bear its own attorneys' fees; that is, the arbitrator will not have authority to award attorneys' fees unless a statutory section at issue in the dispute authorizes the award of attorneys' fees to the prevailing party, in which case the arbitrator has authority to make such award as permitted by the statute in question. I understand and agree that the arbitration shall be instead of any trial in court and that the arbitrator's decision shall be final and binding to the fullest extent permitted by law and enforceable by any court having jurisdiction thereof.

(b) **Entire Agreement.** This Agreement sets forth the entire agreement and understanding between the Company and me relating to the subject matter herein and merges all prior discussions between us. No modification or amendment to this Agreement, nor any waiver of any rights under this Agreement, will be effective unless in writing signed by both parties. Any subsequent change or changes in my duties, obligations, rights or compensation will not affect the validity or scope of this Agreement.

(c) **Severability.** If one or more of the provisions in this Agreement are deemed void by law, then the remaining provisions will continue in full force and effect.

(d) **Successors and Assigns.** This Agreement will be binding upon my heirs, executors, administrators and other legal representatives, and my successors and assigns, and will be for the benefit of the Company, its successors, and its assigns.

(e)**Survival.** The provisions of this Agreement shall survive the termination of the Relationship and the assignment of this Agreement by the Company to any successor in interest or other assignee.

(f) **ADVICE OF COUNSEL.** I ACKNOWLEDGE THAT, IN EXECUTING THIS AGREEMENT, I HAVE HAD THE OPPORTUNITY TO SEEK THE ADVICE OF INDEPENDENT LEGAL COUNSEL, AND I HAVE READ AND UNDERSTOOD ALL OF THE TERMS AND PROVISIONS OF THIS AGREEMENT. THIS AGREEMENT SHALL NOT BE CONSTRUED AGAINST ANY PARTY BY REASON OF THE DRAFTING OR PREPARATION HEREOF.

Dear Madam,

**Sub: Internship of Ms.Ranjitha. S.G (1BF19MCA05) in Advanced Rail Controls Private Limited, Bangalore 560 092.**

Ref: Your letter dated 09-7-2021

With reference to your letter, we hereby confirm that **Ms.Ranjitha. S.G (1BF19MCA05),** IV Semester MCA Student of your Institution has reported for Internship in Advanced Rail Controls Private Limited on 12th July 2021. She was assigned with the work of "**FIFO Based Extended Data Storage for a Specified Time**".

During the course of the Internship, she has been assigned with a project in which Data is collected and stored in a file system in FIFO order. The data sample was collected at an interval of one second and was appended in a file. Once the data storage reaches a time interval of 5 minutes, the next 5 minutes data at an interval of one second is stored in a second file. This will enable retrieving the past data for 5 minutes from the previous file. After the expiry of the 5 minutes interval, data storage is again switched to the first file after erasing the previous 05 minutes data. This extended FIFO storage principle enables retention and retrieval of dynamic data for more time intervals which is required in many applications.

She was regular in attendance, obedient, sincere in her work and also observed to follow the Company rules and regulations.

She has been relieved on 24-9-2021 with instructions to report to you. We wish her a very successful career in future.
