## **ABOUT ME**

Myself right now and I'm from kundapur and currently studying in BMS College of engineering. I am a creative engineer. I possess a strong skill set in photography, videography, and editing, which allows me to create visually captivating content. With my artistic abilities, I can effectively tell stories and evoke emotions through my work.

Alongside my creative talents, I have also gained experience in various technology domains. I have worked on several projects related to web development, app development, machine learning, and IoT. This diverse range of experiences showcases my adaptability as an engineer and my ability to thrive in different technological fields.

One of my significant achievements is securing a placement at Cisco. This accomplishment highlights my skills, knowledge, and potential as an engineer. Joining a reputable company like Cisco provides me with exciting opportunities to contribute to cutting-edge technologies and make a substantial impact in the industry.

As I progress on my journey as a creative engineer, I will leverage my technical expertise, artistic talents, supportive friends, and dedicated teachers as sources of strength. I am eager to seize every opportunity that comes my way, expanding my horizons in both engineering and the creative field. With my passion and determination, I am confident that I will achieve great success and leave a lasting impact in the world

## **ABOUT ME**

---

As a dedicated engineering student who is soon to graduate, I have embraced the challenges that come with my academic journey. I have consistently displayed a strong work ethic, determination, and a genuine passion for engineering. Throughout my studies, I have gained a solid understanding of the fundamental principles and practical applications of engineering.

I have learned to approach problems with tenacity, leveraging my analytical skills to find innovative solutions. Despite encountering difficulties along the way, I have persevered, seeking help when needed and continuously striving to improve.

As I transition into the professional realm, I bring with me a valuable sense of resilience, adaptability, and a willingness to learn from every experience. I am excited to contribute my unique perspective and dedication to the field of engineering, eager to make meaningful contributions to the projects and teams I work with

## **ABOUT ME**

---

From a small village called Bellampalli, I embarked on a journey fueled by ambition and determination. I always dreamt of becoming an engineer, and with unwavering pride, I took the first step towards my goal by enrolling at BMS College of Engineering. My confidence, enthusiasm, and friendly nature have been my constant companions on this path of discovery and growth.

The world of web and Android development captivates me like no other, and I eagerly dive into new challenges to expand my skills in these fields. Curiosity drives me to explore the latest technologies, constantly seeking to deepen my knowledge and improve my craft.

But life is more than just books and screens. My true passion lies in traveling and trekking, an adventure-seeking spirit that finds its truest form when shared with friends. Together, we traverse breathtaking landscapes and create memories that will last a lifetime.

My journey from that small village has shaped me into a well-rounded individual, hungry for knowledge and eager to embrace every opportunity that comes my way. With each step forward, I strive to be a positive force in the world, making a mark as an engineer and as a person who values exploration, friendship, and the pursuit of dreams

## **ABOUT ME**

---

"Hello! I am Trisha H.N , an enthusiastic and dedicated engineering student pursuing my studies in the Information Science department at BMS College. I am passionate about exploring the vast field of technology and its applications to solve real-world problems. As an information science student, I possess a strong foundation in computer science and programming languages. I am well-versed in languages such as Java, C++, and Python, Go Lang and have hands-on experience with various software development tools and frameworks. I enjoy diving into data structures, algorithms, and database management systems, as they form the core of efficient software development. Apart from my academic pursuits, I actively engage in extracurricular activities. These experiences have helped me develop strong communication and interpersonal skills, as well as the ability to work effectively in teams. I am a self-motivated individual who takes initiative and thrives in fast-paced environments. I am comfortable with ambiguity and adapt quickly to change. I possess a strong work ethic and am committed to delivering high-quality results.

I Completed my schooling at New Horizon Public School, where I developed a solid foundation in various subjects, fostering a passion for technology and its applications. After completing my schooling, I pursued my pre-university education in the biology stream at Mount Carmel College in Bangalore. with a deep passion for the natural world and its intricacies. Throughout my academic journey, I have immersed myself in the field of biology, exploring various subjects and expanding my knowledge with a deep passion for the natural world and its intricacies. Throughout my academic journey, I have immersed myself in the field of biology, exploring various subjects and expanding my knowledge

## **ABOUT ME**

---

I Nidhi Prakash, I am an enthusiastic and dedicated engineering student specializing in Information Science and Engineering. With a passion for technology and a thirst for knowledge, who is always eager to explore new technologies and methodologies in the field. Whether it's the latest programming languages, data analysis techniques, or emerging trends in the industry, I approach every opportunity to learn with excitement .

One of my notable strengths is ability to handle challenging briefs with ease. I thrive under pressure and consistently deliver exceptional work, maintaining high standards even in demanding situations. My strong work ethic and dedication enables me to tackle complex problems efficiently and effectively. I excel in completing tasks, but they also make it a point to maintain a positive image and build excellent relationships with clients and colleagues alike.

As a fast and willing learner, I possess the remarkable ability to self-learn. I take initiative in expanding my knowledge beyond the boundaries of my coursework and actively seek out opportunities to grow my skill set. I embrace self-improvement and stay up-to-date with the latest advancements in the field.

In conclusion, I am a highly motivated and talented engineering student in the field of Information Science and Engineering. I am a self driven individual and my passion is to learn about new technologies with the ability to handle pressure.

## **ABOUT ME**

---

I am Rahul Anil Nayak, an ambitious and dynamic 8th-semester Information Science student at BMS College of Engineering. With a burning passion for leveraging technology to tackle real-world challenges, I possess a strong desire to make a meaningful impact through my skills and experience.

Currently serving as a developer intern at Fidelity Investments, I have garnered invaluable expertise in full-stack web development, with a particular focus on JavaScript and TypeScript-related frameworks and libraries. My proficiency in these areas enables me to craft efficient and elegant solutions that push the boundaries of what is possible.

In addition to my prowess in web development, I boast a comprehensive understanding of DevOps and cloud computing, driving enhanced efficiency and optimal system performance. My proficiency extends to database management, computer networks, and cybersecurity, empowering me to approach problem-solving from multiple angles and ensure robust and secure solutions.

I shine in the domains of API and backend design, data science, and data mining, which enable me to deliver innovative solutions for day-to-day challenges. My dedication to expanding my knowledge and staying abreast of the latest industry trends equips me with a deep understanding of the technical intricacies that underpin modern development and data management techniques.

## **ABOUT ME**

---

Hello, I'm Shashank S, an aspiring Information Science Engineer from BMSCE. I'm thrilled to share that I have recently been placed in Novonordisk, a company I've long admired for its innovation and expertise in the technology field.

I take immense pride in my problem-solving abilities, which have been honed through rigorous coursework and practical experiences. As a dedicated learner, I thrive on challenges that push the boundaries of my knowledge.

Every problem I encounter becomes an exciting opportunity for growth and exploration. I approach problem-solving with a meticulous mindset, breaking down complex issues into manageable components. This analytical approach enables me to devise innovative and effective solutions, delivering tangible results.

Moreover, I firmly believe in the power of collaboration and teamwork. I actively foster an inclusive and supportive environment, valuing the diverse perspectives and ideas that my colleagues bring to the table. By actively listening and engaging with others, I contribute to a harmonious and productive work atmosphere, where everyone's voices are heard and respected

## **ABOUT ME**

---

I am Aniruddha J, a native of Davangere, a beautiful city located in Karnataka, India. From a young age, I have been captivated by the world of technology, and my passion for software coding runs deep. I am dedicated to honing my skills in this field and keeping up with the latest advancements, always striving to solve complex problems and create innovative solutions. However, my interests extend beyond the realm of technology.

I have a strong inclination towards building innovative ideas in various sectors. Additionally, I am deeply passionate about dance, cultural activities, and chess. Throughout my life, I aim to strike a balance between these passions and incorporate them into my journey. One aspect of my personality is that I am quite talkative and extroverted.

I am able to adapt to new environments and connect with people effortlessly. This quality allows me to collaborate effectively with teams and build strong relationships in both my personal and professional life. Currently, I am working at Synopsys, a prestigious organization renowned for its expertise in technology. This opportunity has granted me the privilege of working alongside highly talented individuals, gaining invaluable hands-on experience, and expanding my industry knowledge.

I consider myself fortunate to learn and grow every day, continuously pushing myself to reach new heights in my career.

## **ABOUT ME**

---

My name is Aryan Verma, and I am an aspiring information science student with a passion for learning and acquiring new skills. I am a motivated and well-disciplined individual who takes joy in assisting others. I have a strong educational background, having graduated with a B-Tech in Information Science Engineering from BMS College of Engineering.

Throughout my academic journey, I have been actively involved in various clubs and organizations such as the ISE student club, Tech club, and Science forum. I have also achieved notable accomplishments, including securing a 7.5 GPA, graduating with a percentile of 77%, and receiving the state level 'Rajya Puraskar' award in Bharat Scouts and Guides.

Additionally, I have actively participated in extracurricular activities, such as being a part of the college gaming club, organizing college festivals like UTSAV, and contributing as a coordinator for merchandise during the annual tech symposium called Phase shift

. I believe in constantly expanding my knowledge and value, and I am eager to take on new challenges and opportunities in the field of information science.

## **ABOUT ME**

---

As an Information Science engineering student at BMSCE, I have always been captivated by the world of technology. I find great joy in exploring the intricacies of coding and have developed a strong command over languages like C, C++, Java, and Python. These languages have not only challenged me but also allowed me to create efficient and robust solutions to complex problems. With a commendable COMEDK rank of 1014, I have proven my dedication and aptitude for academic excellence.

Currently, I am interning at Sec Prism, a cybersecurity startup. This opportunity has been invaluable in broadening my understanding of cybersecurity concepts and practical applications. Working alongside experienced professionals in the field has exposed me to cutting-edge technologies and industry best practices. I am fortunate to be part of a team that actively contributes to enhancing the security landscape.

All these experiences have paved the way for an exciting future, as I have been offered a full-time job at Caterpillar. I am thrilled to join this esteemed company, renowned for its innovation and technological advancements. It is my goal to leverage my diverse skill set, including my impressive COMEDK rank of 1014, and passion for innovation to contribute meaningfully to the organization and make a difference in the technology sector.

In conclusion, my journey as an Information Science engineering student, my internship at Sec Prism, my involvement in AI and ML projects, my role as a coordinator at UTSAV, and my upcoming opportunity at Caterpillar, along with my notable COMEDK rank of 1014, have shaped me into a versatile and driven individual. I am excited to continue my growth in the technology field, constantly expanding my knowledge, and making a positive impact through my work

## **ABOUT ME**

---

I am a dedicated and passionate student, always seeking opportunities to learn, grow, and achieve. With a clear vision and a strong work ethic, I give my best in any situation to make the most out of every opportunity that comes my way. Currently pursuing my B.Tech in Information Science & Engineering at BMS College of Engineering, I have maintained a commendable academic record, with a GPA of 8.2. Coding is where I truly excel, and my commitment to excellence in this field has been recognized. During my pre-university years at EXPERT PU College, I secured an impressive 93.5% in the 12th final examinations and ranked 1575 in the KCET Examinations, showcasing my dedication to academic success. My schooling at OOEHS Sharjah provided a strong foundation, and I scored a perfect CGPA of 10/10 in the 10th final exams, earning the prestigious Straight Ace Scholar award for two consecutive years.

I have also undertaken several projects that highlight my skills and abilities. In 2022, I worked on an Image Captioning project using Bahdanau's Algorithm, combining my knowledge of deep learning and natural language processing. In 2021, I successfully developed a mobile app for a groceries store, showcasing my proficiency in mobile app development. The same year, I demonstrated my expertise in testing by conducting Cypress automation on angularjs.realworld.io. Furthermore, in 2020, I completed a Java project focused on Clinic Management, displaying my programming prowess. In addition to my academic and technical skills, I possess a range of other competencies. Leadership comes naturally to me, and I have gained valuable experience in leading and managing people. Effective communication is one of my strengths, enabling me to convey ideas and collaborate effectively. I also have a knack for product sales and possess strong problem-solving abilities.

## **ABOUT ME**

---

My name is Dhanush kumar, from an young age I am drawn to two things technology and sports especially cricket, I always wanted to play competitive cricket and make a name for myself, but due to financial constraints I couldn't afford the necessary training at an young age.

After school I decided to join diploma with the hope of playing competitive cricket along with my diploma, I made it possible by successfully representing various clubs in cricket when I was studying diploma and also being selected for reputed cricket clubs gave me immense joy, I was also a natural leadership personality having conducted and coordinated various events at my diploma college. After finishing my diploma in 2019 I had to make a big decision of my life whether to pursue Engineering or have a crack at my passion that is cricket. I decided to drop education and went on to pursue cricket for the next year, the year I took off taught me how to think positive when nothing is going your way, and how to face the challenges of life either on the cricket field or off of it, I always looked forward to be the person who stood up for the challenges.

The hardship I had to face was intense being from a lower middle class family, I couldn't afford many things that were necessary for a cricket career, this made me work for what I wanted and that holds good even today. As pandemic hit our lives, again i faced the challenge of whether to continue my passion or to choose an alternating career that supports my family, with immense support from my family, a diploma teacher and close friends, I decided to join engineering after a year gap in education, These experiences taught me the importance being able to balance things in life and teaching me that there are no shortcuts to success.

## **ABOUT ME**

---

I'm Dhanya J M, a dedicated and aspiring student at BMS College of Engineering working towards a degree in Information Science and Engineering. My ambition is to make use of my knowledge of technology and zeal for it to contribute to a better society.

I absolutely think that with the proper use of technology, we can achieve enormous advancements and transform the world. I'm passionate about an array of interests beyond my education that makes me cheerful. By taking part in arts and crafts activities, I am able to exhibit my creativity and give life to my ideas. Either listening to music or reading inspirational literature may be enjoyable and inspiring activities.

I love to travel since it helps me to discover new cultures and places. I'm also really interested in staying updated with technology because it offers so many opportunities. Overall, my interests generally show my passion for creativity and adventure. I pursued a diploma in computer science and engineering after finishing my tenth grade. My interpersonal skills have improved as a result of these experiences, which have also highlighted the value of community involvement.

My confidence, optimism, and helping attitude distinguish me. I believe in my abilities to overcome obstacles and positively affect people. Being compassionate and assisting people in need makes me proud. Through mutual assistance, I hope to foster a helpful and empathetic community

## **ABOUT ME**

---

I'm Santhoshi M J, a committed and aspirational student at BMS College of Engineering pursuing a degree in information science and engineering. I have a great desire to use my skills to advance society and a deep passion for technology. I think that with the appropriate use of technology, we can make a positive impact on the world. I have many hobbies aside from my academic endeavors.

I have a passion for singing, In free time I listen songs, expressing my thoughts writing, playfully teasing my younger sibling, I find joy in experimenting with baking and cooking, I enjoy my time while watching the k drama or some short movie, capturing visually appealing and captivating images.

I possess a spirit of adventure and relish traveling to immerse myself in new cultures, gaining fresh perspectives. Staying abreast of the latest technological advancements is another passion of mine as it allows me to explore the myriad of virtually limitless opportunities they offer.

One of my defining characteristics is my confidence. I approach problems with an optimistic outlook, confident in my capacity to get beyond difficulties and affect change. I take pride in being a kind person who constantly tries to assist out those who are in need. I think we can build a stronger and more caring community by helping one another.

My ultimate objective is to use technology to influence society for the better. In the future, I see key problems being solved creatively in order to better people's lives and communities. I'm committed to supporting this vision by choosing a profession that enables me to provide useful and significant technology solutions. I aim to change people's lives in a real way by applying my expertise, abilities, and passion.

## **ABOUT ME**

---

I'm Nihal T N, a dedicated and aspiring student at BMS College of Engineering working towards a degree in Information Science and Engineering. My ambition is to make use of my knowledge of technology and zeal for it to contribute to a better society.

I absolutely think that with the proper use of technology, we can achieve enormous advancements and transform the world. I'm passionate about an array of interests beyond my education that makes me cheerful. By taking part in arts and crafts activities, I can exhibit my creativity and give life to my ideas. Either listening to music or reading inspirational literature may be enjoyable and inspiring activities.

I love to travel since it helps me to discover new cultures and places. I'm also really interested in staying updated with technology because it offers so many opportunities. Overall, my interests generally show my passion for creativity and adventure.

I am a hardworking, honest individual. I am a good timekeeper, always willing to learn new skills. I am friendly, helpful, and polite, and have a good sense of humor. I can work independently in busy environments and also within a team setting.

My confidence, optimism, and helping attitude distinguish me. I believe in my abilities to overcome obstacles and positively affect people. Being compassionate and assisting people in need makes me proud. Through mutual assistance, I hope to foster a helpful and empathetic community

## **ABOUT ME**

---

My name is Likith D M, and I am currently pursuing engineering from BMS College of Engineering in the Information Science branch. With a strong curiosity about how things work and a natural inclination towards problem-solving, engineering has become the perfect field for me to explore my interests and contribute to the world around me.

My journey as a student of engineering has been both challenging and rewarding. I have been exposed to a wide range of subjects, including mathematics, physics, and computer science, which have helped me develop a solid foundation in the principles of engineering.

Through hands-on projects and collaborations with fellow students, I have gained practical knowledge and honed my analytical and critical thinking skills. Outside of academics, I like to challenge myself in other areas of interest, by partaking in activities such as reading books, gymming rigorously, and following my curiosity and documenting about them.

As I progress in my engineering studies, I aspire to make a positive impact by designing innovative solutions that address societal challenges. I believe that engineering has the power to transform lives and contribute to sustainable development. With dedication, perseverance, and a commitment to lifelong learning, I am confident that I can make a meaningful contribution in the field of engineering and create a better future for myself and others.

## **ABOUT ME**

---

I'm Chaitali S Shekar- 1BM19IS039, information science and engineering student at BMSCE college of engineering. I have been born and raised in Bangalore since my childhood. I am passionate about Python and data science and have met inspiring people throughout my journey.

I've met some great professors that have widened my knowledge in the same, and always helped me throughout my engineering. I want to work on my skills in these fields more and be involved in real time projects.

I have done my internship at Cyware labs as a Devops intern, I've learnt a lot, been introduced to new tools. Entering into corporate has taught me real-life skills for which I am very thankful and I would like to broaden my knowledge in all domains.

I am driven by a relentless desire to stay at the forefront of these rapidly evolving fields. I am committed to continuous learning, embracing emerging technologies, and staying updated with the latest industry trends. Can't wait for the upcoming stories that are awaiting. Thank you !

## **ABOUT ME**

---

My name is Shreehari, and I am a fourth-year student pursuing Engineering in the Department of Information Science.

I am delighted to share that I have recently secured a position as an analyst at Deloitte India. With a strong foundation in programming, my skills encompass C, C++, Java, and Python.

I am particularly enthusiastic about machine learning and its applications. Outside of my academic and professional pursuits, I enjoy engaging in various hobbies such as going to the gym, swimming, and reading books. Born and raised in Bangalore,

I have completed my schooling here as well. I take great pleasure in communication and find fulfillment in helping others. I am known for my dedication and commitment, which I bring to every aspect of my life.

**NAME : SHREEHARI**

**DEPARTMENT OF INFORMATION SCIENCE AND ENGINEERING**

## **ABOUT ME**

---

My name is Baba Salman, Father Name is Baba Kasim, and Mother Name is Shamshad. I am pursuing BE degree in BMS College of Engineering. My current CGPA is 7.5. I did my diploma in Computer Science and Engineering in Sri Jayachamarajendra (govt) Polytechnic College near Vidhana Soudha with 71 percentage. I completed my 10th in Narayana e-techno school in CBSE with 9.8 CGPA.

I have developed a knack for approaching problems from different angles and finding innovative solutions. One of my notable skills is making friends effortlessly, as I enjoy connecting with people and building meaningful relationships. I take pride in my achievement of securing the 14th rank nationwide in a prestigious math scholarship exam.

Beyond academics, I am deeply passionate about the field of Cyber Security, constantly exploring ways to enhance digital safety and protect against emerging threats. In my free time, I indulge in gaming, which not only entertains me but also fuels my creativity and strategic thinking. I'm eager to leverage my skills, qualifications, and passions to make a positive impact in the world.

I volunteered as a primary school teacher for a month, fostering a love for learning and providing guidance to young minds. I also took part in an initiative where I collaborated with an organization to organize various activities for children at an orphanage, spreading joy and creating memorable experiences. Moreover, I'm proud to have implemented the concept of NFTs (Non-Fungible Tokens) into trademarks and copyright alternatives as part of my final year project. This innovative approach aimed to revolutionize the intellectual property landscape. With a strong commitment to cybersecurity, a passion for education, and a drive to make a difference, I am eager to contribute my skills and knowledge to create a safer and more connected digital world.

## **ABOUT ME**

---

Hello! I'm B G Vinayaka, a passionate individual with a strong interest in the field of Engineering, specifically in Information Science.

I am driven by curiosity and have a deep desire to learn and contribute to the technological advancements in this domain.

I believe in the power of innovation and enjoy exploring new ideas and solving complex problems.

Education: 2017-2020 Diploma in computer science and engineering

2019 - 2023: Bachelor of Engineering in Information Science

Skills:

Programming languages: Java, Python, C++,C#

Web development: HTML, CSS, JavaScript

Database management: SQL

Data analysis and visualization: POWER BI, Tableau

Projects:

NFT Bases secure platform copyright images Ticket booking system In DBMS

## **ABOUT ME**

---

I am a sociable and adventurous individual who finds joy in exploring new things and embracing the wonders of the world around me. With an insatiable curiosity, I eagerly seek out novel experiences, relishing the opportunity to expand my horizons and embark on transformative journeys.

Whether it's immersing myself in different cultures, delving into unexplored subject areas, or engaging in thrilling adventures, I am constantly fueled by a desire for personal growth and self-discovery. Travel is not just a hobby but a true passion of mine. The allure of visiting new destinations, experiencing diverse landscapes, and connecting with people from different walks of life is something that captivates my spirit. I believe that travel is an enriching experience that broadens perspectives, fosters cultural appreciation, and teaches invaluable life lessons.

Through my adventures, I have developed a profound appreciation for the beauty and diversity that our world has to offer. In addition to my love for exploration, I possess a keen interest in the field of cyber security. The ever-evolving landscape of technology and its vulnerabilities fascinate me, prompting me to delve deeper into the intricate world of digital security.

I am driven by a desire to understand the complexities of cyber threats, develop innovative strategies, and contribute to creating a safer digital environment for individuals and organizations alike. With an inquisitive mind and a passion for staying abreast of technological advancements, I aspire to make a meaningful impact in the realm of cyber security.

In conclusion, my sociability, love for exploration, passion for travel, and interest in cyber security have all played significant roles in shaping my identity. They have not only brought me great joy and fulfillment but have also fostered personal growth, broadened my perspective, and instilled in me a desire to make a positive impact on the world around me. I am excited to embark on new adventures, continuously expand my knowledge, and contribute to the ever-evolving fields that ignite my passion.

## **ABOUT ME**

---

My name is Shreyam Pandey, and I am currently pursuing my bachelor's degree in Information Science and Engineering at B.M.S College of Engineering. During my time in college, I have completed several projects in different domains, including Web Development, C++, and machine learning.

I have also actively participated and volunteered in various competitions organized by different clubs for events like UTSAV and Phase Shift. During my 5th semester, I had the opportunity to work as a summer intern at BMC Software, where I was involved in a project that utilized Java, JavaScript, and APIs. Last year, I received an on-campus placement offer from Synopsys, and I am currently working there as an R&D Intern.

In Synopsys, I am gaining experience in various technologies such as C++, VHDL, Perforce, and shell scripting. During my free time, I enjoy engaging in activities like swimming, playing badminton, and cycling.

I am an enthusiastic cricket fan and actively follow the sport. Gaming is one of my passions, and I love spending time exploring different PC games. In my spare time, I also play the Tabla. I have a keen interest in watching TV shows and sci-fi movies. Moreover, I have a profound fascination for traveling and exploring new place

## **ABOUT ME**

---

Allow me to introduce myself - Vandit Agarwal, an aspiring Information Science and Engineering student pursuing my B.E. degree at the esteemed B.M.S College of Engineering. Hailing from the vibrant capital city of New Delhi, I've been fortunate to embark on an incredible journey.

Along the way, I secured a coveted summer internship at Fidelity Investments, which further paved the way for a full-time placement at Math Works.

My college years have been an extraordinary blend of academic excellence and personal growth. They have nurtured not only a profound understanding of my chosen field but also honed my critical thinking skills, resilience, and adaptability.

Now, armed with a solid education and a fervent desire to make a positive impact, I am eagerly stepping into the next chapter of my life.

## **ABOUT ME**

---

My name is Mohona Bhattacharya and I'm a 21-year-old student currently in my final year of engineering at BMS College of Engineering, specializing in Information Science.

Throughout my academic journey, I have developed a keen interest in various aspects of the IT field. In my final semester, I had the opportunity to intern at Tektronix, which provided me with valuable real-world experience.

I am thrilled to be joining Tektronix full time after completing my degree. My primary interests lie in web development and design, where I find joy in creating aesthetically pleasing and functional websites.

Additionally, I am fascinated by the realms of cybersecurity and ethical hacking, as they present exciting challenges and opportunities for growth.

Apart from my technical pursuits, I consider myself to be a creative individual who finds solace in reading books and expressing my thoughts through writing poems.

As I continue to explore the vast field of IT, I look forward to discovering my passions and determining my future path for higher studies.

## **ABOUT ME**

---

My name is Lekhana K Raj, and I am an AI/ML enthusiast. As a curious developer, I am always seeking innovative and creative approaches to tackle global challenges. With a deep passion for technology and its potential to make a positive impact, I am determined to contribute to making the world a better place.

Currently in my 8th semester of Information Science and Engineering at BMS College of Engineering in Bangalore, I have dedicated myself to academic excellence throughout my educational journey. I completed my Matriculation from Carmel School, where I achieved an impressive 83% in the ICSE examinations. Building on this foundation, I pursued my Pre-University education at Sri Kumaran PU College, where I obtained an outstanding score of 93.2%.

To further enhance my knowledge and skills, I have actively sought out experiences and projects in the field of Computer Networks , AI and ML. I have worked as a Software engineer intern at Juniper Networks and also as a Computer Vision Intern at Invento Robotics.

I have also pursued various certifications to deepen my understanding of AI and ML. I have completed courses such as "Introduction to HTML5," "Neural Network and DL" from DeepLearning.AI, and "Data Analysis with Python." These certifications have expanded my skill set and equipped me with a strong foundation in programming languages such as C, C++, JAVA, and Python.

**NAME : LEKHANA K RAJ**

## **ABOUT ME**

---

I am Chirag S Bijapur, a focused, ambitious individual with a keen interest in software development. I pride myself on my interpersonal, time-management, and problem-solving skills, which I believe are integral to the role of a software developer. My drive stems from the belief that we have the power to create our own future, and I am eager to explore opportunities where I can contribute towards shaping that future.. My journey in this field started at the Jain Heritage School, where I nurtured a solid foundation in the sciences and developed a keen interest in technology, graduating with an 8.6 CGPA in the CBSE curriculum in 2017. After high school, I attended Narayana PU College, where I delved deeper into the field of computer science and graduated with 84% from the Karnataka Board in 2019. Next, my academic journey took me to BMS College Of Engineering, where I pursued a Bachelor of Engineering degree in Information Science and Engineering. I graduated with a CGPA of 8.4, equipped with theoretical knowledge and an eagerness to apply these principles in the real world. The theoretical knowledge I acquired during my academic journey served as a strong foundation that I built upon with practical experience.

In the realm of professional experience, I was an AI/ML Intern at Invento Robotics, where I was honing my skills in Computer Vision and Deep Learning. I actively worked on computer vision models for senior care, developing robots to assist the elderly with their daily activities. This experience has significantly expanded my knowledge and practical understanding of these domains. Prior to this, I spent time learning web development, where I was part of a team creating dynamic websites using HTML, CSS, PHP, and JS. This equipped me with a strong understanding of full-stack development.

## **ABOUT ME**

---

Hello, everyone! My name is Aryan Goel, and I'm delighted to share a little about myself as I reflect on my journey here at BMSCE Bangalore. As a final-year student in the Information Science and Engineering department, I've had an incredible time exploring various facets of both technology and the world around us.

One of my primary passions lies in understanding global affairs. The interconnectedness of our world fascinates me, and I always strive to stay informed about international events and their impact. Additionally, I have a deep appreciation for sports, both in terms of analysis and the scientific aspects behind athletic performance. Sports have always provided me with a unique lens to observe teamwork, strategy, and the potential of a human being. Alongside my academic pursuits, I've dedicated myself to exploring different cultures and expanding my horizons.

The diverse experiences and perspectives that come from immersing oneself in different cultures have broadened my understanding and enriched my personal growth. In the realm of technology, I've found my passion lies in backend development, full-stack development, system design, and system architecture. These areas have allowed me to merge my creativity with technical expertise, building robust and efficient solutions. I pride myself on being organized, which has helped me tackle complex projects and deliver high-quality results.

As I prepare to embark on the next chapter of my life, I am grateful for the incredible experiences, knowledge, and skills I have gained during my time at BMSCE. I am eager to continue my journey of growth, learning, and making a positive impact in the world.

Thank you for being part of my college journey, and I look forward to the exciting adventures that lie ahead

## **ABOUT ME**

---

Hello I'm P Yatish Sriram. As a student of Information Science and Engineering, I stand at the threshold of an exhilarating new chapter in my life. I possess an insatiable curiosity and an unwavering commitment to exploring the intricacies of the world around me.

My interests lie in the fields of Deep Learning (DL) and Networks, where I am driven to unlock the potential of these technologies and their impact on society. The intersection of technology and human ingenuity deeply fascinates me, as I believe it holds the key to shaping a better future. Beyond my academic pursuits and professional ambitions, I am driven by a set of core values that include empathy, collaboration, and making a positive impact on the lives of others. I thrive in environments that encourage teamwork and cooperation.

I actively seek opportunities to collaborate with diverse teams, leveraging collective expertise to create innovative and impactful solutions. By embracing collaboration, I am able to learn from others, broaden my perspectives, and make a greater positive impact on those I work with. With an open heart and a steadfast commitment to personal and professional growth, I am prepared to embrace new opportunities and forge meaningful connections with individuals who share my passion and values.

My name is Daivik Rao, and I am currently pursuing a Bachelor's degree in Information Science from BMS College of Engineering. I am a dedicated and enthusiastic individual with a passion for technology and its potential to shape the future. Throughout my academic journey, I have developed a keen interest in subjects related to data analysis, software development, and information security.

I am constantly seeking opportunities to expand my knowledge and stay updated with the latest advancements in the field. Aside from academics, one of my greatest passions is playing cricket. I find joy in being part of a team, strategizing, and competing in this dynamic sport. Cricket has taught me valuable lessons about teamwork, discipline, and perseverance. It also serves as a stress-reliever and allows me to stay active and maintain a healthy lifestyle.

In addition to cricket, I enjoy exploring new technologies, reading books on personal development, and engaging in meaningful conversations. I believe in the power of continuous learning and personal growth to unlock one's true potential. I am a dedicated and hardworking individual who is always ready to take on new challenges and contribute to the betterment of society through my knowledge and skills in the field of information science.

## **ABOUT ME**

---

I'm Ashwini Sriram, and my experience at B.M.S. The College of Engineering's Information Science and Engineering (ISE) department has been amazing and life-changing. I have studied several aspects of information science throughout my academic career, giving me a broad skill set and a thorough understanding of the subject.

I now possess a broad basis of knowledge that goes beyond what I learned in the classroom. Furthermore, the ISE branch has given me a lot of possibilities to work on actual projects and put the ideas I've learnt into practice. Working on practical projects with my peers has given me the opportunity to put my academic understanding to use in solving challenging issues and coming up with creative solutions.

My problem-solving and critical thinking skills have been strengthened by these experiences, but they have also sharpened my teamwork and adaptability qualities, which are essential in today's dynamic technology environment. Beyond the academic realm, I have actively sought to immerse myself in the college sports department throughout my undergraduate years and have made a significant impact on the athletic community. I practiced Yoga and was a key member on the college team. My relentless team work allowed my team to achieve several victories and accolades. My commitment to sport and my team earned the respect and admiration of fellow athletes and coaches.

As I prepare to embark on my professional journey, I am confident in my ability to make a significant impact in the field of information science and engineering. Ashwini Sriram Ashwini Sriram

## **ABOUT ME**

---

I am Diya S, and my journey through the Information Science and Engineering (ISE) branch at B.M.S. College of Engineering has been an incredible and transformative experience. Throughout my academic pursuits, I have delved into various facets of information science, equipping myself with a diverse skill set and a deep understanding of the field.

I have gained a comprehensive knowledge base that extends beyond the confines of the classroom. Furthermore, my time in the ISE branch has provided me with numerous opportunities to engage in hands-on projects and practical applications of the concepts I have learned. Collaborating with my peers I have worked on real-world projects that have allowed me to apply theoretical knowledge to solve complex problems and develop innovative solutions.

These experiences have not only enhanced my problem-solving and critical thinking abilities but also honed my adaptability and teamwork skills, which are crucial in today's dynamic technological landscape. Beyond the academic realm, I have actively sought to immerse myself in the broader ISE community at the college. The ISE Student Club played a pivotal role in my development, as I actively contributed as a member of both the organizing and core committees. This involvement allowed me to organize and execute engaging events, fostering a sense of community within the department.

As I prepare to embark on my professional journey, I am confident in my ability to make a significant impact in the field of information science and engineering.

## **ABOUT ME**

---

As a passionate individual specializing in Information Science and Engineering, my name is Saipriya M N, and I constantly strive to hone my skills in this fast-growing IT landscape, to ensure that I harness the power of technology to solve complex problems.

Throughout the course of my education, I have investigated the subtleties of a spectrum of prevalent problems and applied my technical know-how in domains such as web development, mobile application development, and the cloud domain in an effort to discover solutions to them, endeavoring to keep up with cutting edge technologies. While my academic pursuits are essential to me, I also nurture a diverse range of interests and hobbies.

I find solace in the melodies of music and channel my creativity through blog writing for a mental health non-profit organization. Exploring new places and traveling captivate my curiosity. As a dog lover, spending time with these faithful companions brings immense joy to my life. I also indulge in occasional singing, although not professionally. In all aspects of my life, my aim is to learn and grow continually.

I believe in the power of gratitude and conscious appreciation for everything I have, which fuels my motivation to work hard and strive for progress. Overall, I am an enthusiastic learner and proactive individual, driven by a deep-rooted desire to make a positive impact in the world. With a blend of technical expertise, interpersonal skills, and a passion for personal growth, I am ready to embrace new challenges and contribute to innovative solutions in my domain.

## **ABOUT ME**

---

I'm excited to tell you about my journey in engineering and the exciting projects I've been involved in. I discovered a profound interest in artificial intelligence in my second year of engineering.

This fascination led me to work closely with my teachers and the government of Karnataka on a remarkable project to aid the state police department in their Beat Management System. During this project, I focused on developing a face recognition feature using deep metric learning.

I dedicated my efforts to optimizing the Beat Management System, and my work was recognized through the publication of a paper titled "Optimizing Beat Management System using Soft Biometrics" in Springer. It was truly a rewarding experience to contribute to the advancement of AI technology for law enforcement. In addition to my technical achievements, I have also honed my leadership skills.

I had the privilege of serving in the sponsorship team for the UTSAV cultural event. Through my efforts, I successfully secured a sponsorship of 75 thousand rupees from an EdTech company.

I received positive feedback on my communication skills, as they played a vital role in closing the deal. This experience taught me the value of effective communication and its impact on achieving desired outcomes.

## **ABOUT ME**

---

I am a Bachelor of Information Science and Engineering graduate with a deep-rooted passion for dance, finance, and making a positive impact in society.

Since my early years, the world of dance has held me captivated. It serves as a powerful medium for self-expression, enabling me to channel my creativity, emotions, and energy.

As the captain of the esteemed Paramvah Dance Team, I have the privilege of leading and inspiring a group of exceptionally talented dancers. Together, we continually strive to push our boundaries, mesmerize audiences, and spread the sheer joy of dance.

This role has not only cultivated my own skills but also honed my leadership abilities, fostering teamwork, discipline, and a keen sense of artistry.

In conclusion, my journey weaves together my love for dance, my passion for finance, and my unwavering commitment to making a positive impact. I am dedicated to continuous learning, personal growth, and contributing meaningfully to the world around me.

## **ABOUT ME**

---

Hi, I'm Likhith, a passionate software developer who is currently studying in my final year of Information Science & Engineering at BMS College of Engineering. I've been a regular member of the organizing committee for all the major central technical and cultural fests in our college. I've been particularly involved as the Head of the Marketing team, and I've also been a regular emcee for most of the major events during the fests, such as Utsav and Phase shift.

In addition to my studies and extracurricular activities, I also work as an IT Software Developer at Qualcomm. I'm really excited to be a part of this community, and I'm looking forward to learning from and collaborating with other software developers. I'm also passionate about sharing my knowledge and experience with others.

## **ABOUT ME**

---

My name is Nidhi Uday, and I am a passionate individual determined to make a significant impact in the world. Throughout my academic journey, I have showcased my leadership qualities and teamwork skills as the Vice Captain of my school. This experience has instilled in me the importance of collaboration and effective communication. Besides my leadership roles, I have completed the Junior level in the Karnataka Government Karnatic Music Exam, which has nurtured my love for singing and allowed me to explore the depths of classical music.

Music is my soul's expression, and it brings me immense joy and fulfillment. In addition to my musical pursuits, I find solace and artistic expression in drawing portraits and sketching. This hobby has become my escape and a way to convey emotions. I take immense pride in securing a distinction in the Karnataka Senior Drawing Exam, which has further fueled my passion for art. It is through my sketches that I can capture the essence of a person or scene, immersing myself in the details and intricacies. Moreover, my love for exploration has taken me on countless adventures, allowing me to embrace diverse cultures, traditions, and experiences. Each journey fuels my curiosity and broadens my perspective on the world.

Driven by a desire to excel academically, I pursued my engineering studies in Information Science and Engineering from the prestigious BMS College of Engineering. During my time there, I not only focused on my education but also dedicated myself to teaching. As a part-time endeavor, I taught Java programming to 10th-grade ICSE students at SMS Classes. This experience not only deepened my understanding of the subject but also allowed me to inspire and guide aspiring young minds.

I am passionate about making a positive impact through my skills and knowledge, and I look forward to the exciting opportunities that lie ahead.

## **ABOUT ME**

---

From a small town called Kadur, I embarked on a journey fueled by ambition and determination. I always dreamt of becoming an engineer, and with unwavering pride, I took the first step towards my goal by enrolling at BMS College of Engineering.

My confidence, enthusiasm, and friendly nature have been my constant companions on this path of discovery and growth. The world of web development and cloud concepts captivates me like no other, and I eagerly dive into new challenges to expand my skills in these fields.

Curiosity drives me to explore the latest technologies, constantly seeking to deepen my knowledge and improve my craft. My academic achievements, combined with my hands-on experience through internships at IIT Delhi – FSM and Sival Devops, have honed my technical proficiency and equipped me with a solid foundation to excel in my professional career. But life is more than just books and screens.

My true passion lies in traveling and trekking, an adventure-seeking spirit that finds its truest form when shared with friends. Together, we traverse breathtaking landscapes and create memories that will last a lifetime.

My journey from that small town and education at the central government residential system called Jawahar Navodaya Vidyalaya, Hassan has shaped me into a well-rounded individual, hungry for knowledge and eager to embrace every opportunity that comes my way. With each step forward, I strive to be a positive force in the world, making a mark as an engineer and as a person who values exploration, friendship, and the pursuit of dreams.

## **ABOUT ME**

---

My name is Anjali, and I possess an unwavering determination to achieve excellence along with a profound enthusiasm for my chosen field. Throughout my academic journey, I have acquired a comprehensive understanding of engineering principles and practical skills, allowing me to tackle complex problems and develop innovative solutions.

I have consistently demonstrated my ability to work effectively in teams, adapt to challenging environments, and deliver results under tight deadlines. My academic achievements, combined with my hands-on experience through internships at IIT Delhi – FSM and Sival Devops, have honed my technical proficiency and equipped me with a solid foundation to excel in my professional career. In addition to my academic pursuits, one of my greatest passions is dance, which allows me to express myself creatively and connect with others through movement.

Through my travels too, I have gained a broader perspective and developed a sense of adaptability that complements my engineering education. These extracurricular interests not only provide me with balance and personal growth, but also enhance my ability to collaborate effectively and think creatively in both professional and personal contexts. With a combination of hard work and dedication, I am happy to have successfully completed my internship at Cisco and excited to join as full-time employee at Cisco that aligns perfectly with my career aspirations.

I am excited about the opportunities that lie ahead and look forward to applying my knowledge and skills to contribute to the advancement of the engineering industry

## **ABOUT ME**

---

I am Anirudh Raj. As a student who has completed four enriching years in Information Science and Engineering, I stand at the threshold of an exciting new chapter in my life, ready to embark on even greater endeavors.

My passion for technology, combined with the knowledge and skills acquired during my academic journey, has equipped me with a solid foundation in various aspects of information science.

From programming languages to data analysis, software development to artificial intelligence, I have honed my abilities and expanded my horizons. With each project, assignment, and collaboration, I have grown not only as a student but also as an individual, becoming more adaptable, creative, and resilient. Now, as I step forward into the professional world, I am eager to apply my expertise to tackle real-world challenges, contribute to innovative solutions, and make a meaningful impact.

The future holds endless possibilities, and I am excited to embrace the opportunities that lie ahead, ready to explore, learn, and live

## **ABOUT ME**

---

My name is Prateek Gummarajua and I will be graduating from the Department of Information Science and Engineering, B.M.S. College of Engineering in a few days. Throughout my college life, I got to explore a variety of courses, along with many extra curricular activities.

I had the opportunity to meet some wonderful people, students and teachers, who impacted me and my life views in profound ways. Maintaining a good CGPA alongside all the other activities is something I pride myself upon, and is something that will help me in the future for sure. As fate may have it, I interned in 2 startups who were building products for the sports industry.

In both cases, I worked in the data domain, first as a Data Analyst and then as a Data Scientist. On the flip side, I also got to learn a lot about the business side of things like marketing the product, pitching it, managing a team, etc. Courses such as Machine Learning, Deep Learning, Advanced Python Programming along with a few management electives such as Operations Research, Supply Chain Management and Organizational Behavior gave me a good taste of Technology and Management working in tandem.

It helped me realize that my interests lay in leveraging data to ideate, build and grow businesses and products. Apart from all this, college gave me memories and experiences for a lifetime.

## **ABOUT ME**

---

As I stand on the threshold of my college life's culmination, filled with a mix of emotions, I am ready to embark on a new chapter in the vast world that awaits me.

The years spent as an engineering student have molded me into a resilient, adaptable, and resourceful individual. The knowledge and skills I have acquired during my time in college have prepared me to face the challenges that lie ahead.

While I am grateful for the rigorous academic curriculum, it is the friendships forged, the late-night study sessions, and the unforgettable moments of camaraderie that will forever hold a special place in my heart. Armed with a sense of purpose and a burning desire to make a meaningful impact, I am eager to apply my engineering expertise in real-world scenarios.

As I bid farewell to the familiar campus, I am filled with anticipation, knowing that I have the potential to shape the world and contribute to the betterment of society. With a blend of humility and confidence, I embrace the unknown, ready to seize opportunities, learn from failures, and carve my own path in this vast and dynamic world.

## **ABOUT ME**

---

I'm Samartha S, a dedicated and ambitious student pursuing a degree in Information Science and Engineering at BMS College of Engineering. I have a deep passion for technology and a strong desire to utilize my skills for the betterment of society.

I believe that with the right application of technology, we can bring about positive change in the world. Beyond my academic pursuits, I have a diverse range of interests. I am an avid sports enthusiast and derive inspiration from the dedication and teamwork displayed by athletes.

I thoroughly enjoy watching various sports. I also have an adventurous spirit and love to travel, immersing myself in different cultures and gaining new perspectives. Additionally, I am passionate about staying up-to-date with the latest technological advancements, as it allows me to explore the endless possibilities that technology offers.

My ultimate goal is to leverage technology to bring about positive changes in society. I envision a future where innovative solutions address critical issues and improve the lives of individuals and communities. I am determined to contribute to this vision by pursuing a career that allows me to create meaningful and impactful technological solutions. I want to use my knowledge, skills, and passion to make a tangible difference in people's lives.

## **ABOUT ME**

---

I am Aanchal Shah, final year student at BMS College of Engineering, currently pursuing my studies in the Information Science and Engineering (ISE) branch. Alongside my academic journey, I have been fortunate to work as an intern at GE Appliances, serving as a Customer Onboarding Project Leader for the past six months.

This role has allowed me to gain invaluable experience in facilitating seamless transitions for new customers, honing my communication skills and meticulous planning abilities. In addition to my work as a project leader, I have also had the opportunity to work on various machine learning projects in the medical field. I am passionate about leveraging data and technology to make a positive impact on healthcare. These projects have given me a deeper understanding of the intersection between artificial intelligence, data analysis, and medical research. Currently, I am working on a paper focused on breast cancer detection and prediction using machine learning. Beyond my academic and professional pursuits, I actively contribute to the community through my involvement in various activities organized by the Rotary Club. In addition to community service, I find immense joy and fulfillment in being a member of the Insanity, Literary and Debating Society at BMSCE.

Through this association, I have the opportunity to explore my passion for literature, and foster critical thinking skills. My journey as a student, intern, active community member, and machine learning enthusiast has shaped me into a well-rounded individual. I am driven by a desire for personal growth, academic excellence, and making a meaningful impact in the world around me. I look forward to embracing new opportunities, continuing to learn, and contributing to advancements in healthcare through technology and innovation.

## **ABOUT ME**

---

My name is Siri, and I am an enthusiastic individual with a passion for technology and information science. Currently pursuing a Bachelor's degree in Information Science at BMS College of Engineering in Bengaluru, I am dedicated to expanding my knowledge and skills in this ever-evolving field. I have consistently demonstrated strong academic performance throughout my college journey. Before my undergraduate studies, I completed my Pre-University education with a specialization in Computer Science at Vaishnavi Chetana College in Davangere, Karnataka.

My educational foundation began at BHPM CBSE School in Davangere, Karnataka, where I completed my X grade education. Combining my academic achievements and passion for technology, I am eager to contribute to the field of Information Science and utilize my skills to tackle real-world challenges. In addition to my academic pursuits, I have a diverse range of hobbies that contribute to my well-rounded personality. One of my passions is graphic design, where I can unleash my creativity and bring ideas to life through visual expressions. Sketching is another artistic outlet that allows me to capture the beauty of the world around me and express my observations. I have a deep love for travel and exploring new places, as it broadens my horizons and exposes me to different cultures and perspectives. Singing and dancing are also significant parts of my life, allowing me to connect with my emotions and express myself through music and movement.

My ultimate objective is to use technology to influence society for the better. In the future, I see key problems being solved creatively in order to better people's lives and communities. I'm committed to supporting this vision by choosing a profession that enables me to provide useful and significant technology solutions. I aim to change people's lives in a real way by applying my expertise, abilities, and passion

## **ABOUT ME**

---

I am Abhinav Panjiyar, a dedicated full-stack software developer with a passion for creating digital products that solve real-world problems. My expertise spans a wide range of programming utilities and languages, which allows me to work on various aspects of software development. My approach to work is quietly confident and naturally curious;

I am always seeking ways to improve the tasks I take on. As a software developer, my focus is currently on Mobile and Web Development. I am open to collaboration on JavaScript Libraries or Frameworks and always ready to discuss any aspect of software development. I am excited about the opportunity to engage with others in the tech community, as I believe that collaboration is a key to innovation and growth in the software industry.

My project portfolio includes a diverse range of applications designed to meet both business and consumer needs. Notable among these are the "MORPH" project, a React and Electron-based app that executes the Freedom GPT LLM locally on Mac and Windows using a chat-based interface; and a meditation app, which I developed with React Native for the frontend and Nest.js for the backend, providing users with a tool to meditate for a set amount of time

## **ABOUT ME**

---

I am a naturally curious individual with a passion for technology and digital devices. Throughout my studies in Information Technology and Engineering,

I have developed a strong understanding of methodologies behind applications and websites. Internships in diverse organizations exposed me to the importance of non-technical aspects in business success. I have interned with Nanjil Anand Foundation which is a non-profit organization, Accenture as a data engineer analyst and currently interning with Hewlett Packard Enterprise as a cloud module intern.

I also have a full time placement offer letter with HPE. I am looking forward to pursuing my higher education in the field of management. I have acceptance letters from the prestigious Durham Business School and University of Sussex.

## **ABOUT ME**

---

My name is Madhusudhan M, and I am currently pursuing my engineering degree at BMS College of Engineering. I am currently in my 8th semester, where I have been actively immersing myself in various technical subjects and honing my skills in the field. Engineering has always fascinated me due to its ability to combine creativity, problem-solving, and innovation.

Throughout my academic journey, I have acquired a strong foundation in subjects such as computer science. Apart from my academic pursuits, I have also engaged in extracurricular activities and taken part in several projects and competitions.

These experiences have allowed me to develop not only my technical abilities but also my leadership and teamwork skills. Working collaboratively with my peers on challenging projects has taught me the value of effective communication, adaptability, and perseverance. In addition to my studies, I am also passionate about staying updated with the latest advancements in technology and engineering.

I enjoy reading research papers, attending workshops, and participating in seminars to expand my knowledge and explore new areas within the field.

## **ABOUT ME**

---

I Aditya Bhardwaj a determined and enthusiastic student pursuing my engineering degree at BMS College of Engineering. With a strong passion for engineering and a drive for academic excellence, I aim to make a meaningful impact in the field.

**Academic Background:** I have consistently achieved outstanding academic performance. Graduating with distinction, I was accepted into BMS College of Engineering, known for its excellence in technical education.

**Skills and Interests:** I possess a diverse range of skills, including proficiency in programming languages such as C++,JAVA,TYPESCRIPT. I am also interested in MACHINE LEARNING AND AI ML, staying updated with industry trends.

**Extracurricular Activities:** I actively engage in extracurricular activities, participating in clubs and societies that foster personal growth, teamwork, and leadership skills. I am also involved in volunteering and social initiatives.

**Future Goals:** I aspire to pursue higher studies and gain practical experience through internships and research opportunities. I aim to bridge the gap between academia and industry and have a successful professional career.

**Conclusion:** I am a dedicated student with a strong academic foundation, technical skills, and a genuine passion for my field. My commitment to learning, involvement in extracurricular activities, and dedication to community service make me a well-rounded individual.

## **ABOUT ME**

---

My name is Akash Tiwari, and I am currently pursuing my bachelor's degree in Information Science and Engineering from BMS College of Engineering in Bangalore. I have always been passionate about technology and its ability to shape our lives and society.

Throughout my academic journey, I have gained a strong foundation in various aspects of information science, including programming, database management, network security, and data analytics. I am a dedicated and diligent student, always seeking opportunities to expand my knowledge and skills. I believe in the power of collaboration and have actively participated in group projects and workshops, enhancing my ability to work effectively in a team. Apart from my academic pursuits, I am also involved in extracurricular activities, such as organizing tech events and volunteering for community service initiatives.

I am eager to leverage my education, skills, and passion to contribute to the ever-evolving field of information science and make a positive impact on society. In addition to my academic pursuits, I have also developed a keen interest in exploring emerging technologies and their potential applications. I constantly strive to stay updated with the latest industry trends and advancements in information science. This curiosity has led me to engage in self-learning and personal projects, where I have honed my skills in areas such as artificial intelligence, machine learning, and cloud computing. I believe that a combination of theoretical knowledge and hands-on experience is crucial for a well-rounded education.

As I approach the end of my bachelor's degree, I am excited about the prospects of applying my skills and knowledge in the professional world. I am eager to contribute to innovative projects, tackle complex problems, and make a meaningful impact. With a strong foundation in information science and a passion for lifelong learning, I am confident in my ability to embark on a successful and fulfilling career in this dynamic field.

## **ABOUT ME**

---

I am Injeel Fatima, a student of BMS College of Engineering. I have done my engineering in Information Science Engineering, a degree lasting 4 years, and I can tell you that these 4 years were the most memorable in my life. It helped me not just with my professional growth, but personal growth as well.

I have learnt time management, team work, courage, resilience and hard work. I've learnt about a vast range of subjects, from DSA, Operating systems, computer architecture, Database management, and web development as a whole

. I have learnt how to juggle work and fun and this is a skill that comes very handy to me in the outside world as well. In my free time, I enjoy baking, cooking, dancing, singing and playing the guitar.

I love watching and analyzing TV shows. I also like binge watching TV shows. On a professional side, I am very much interested in deep learning and computer vision.

I also enjoy frontend development. Overall, I am grateful that I was a part of this amazing institute that made me a better person in all aspects of life.

## **ABOUT ME**

---

My name is Laasya A and I will be graduating from the Department of Information Science and Engineering, B.M.S. College of Engineering this month.

Throughout my college life, I got to explore multiple domains, a wide variety of courses, along with many extracurricular activities. I was lucky enough to meet some amazing people, students and teachers, who influenced my life positively in various ways. In my 3rd year, I got to work with Hewlett Packard Enterprise which gave me an insight into research and the industry.

Over the last 6 months, I have been interning at Cisco Systems where I got to experience the corporate culture for the first time. These experiences have helped me improve my technical and interpersonal skills and will definitely help me in the coming days in my professional life. Courses such as Machine Learning, Deep Learning, Advanced Python Programming along with a few management electives such as Operations Research, Supply Chain Management and Financial Management gave me a good taste of Technology and Management working in tandem. I intend to study further in the field of Data Science, and I'm elated to be accepted into the Data Science program at North eastern University! My experiences at BMSCE have impacted me profoundly, and the learnings are something I'll carry with me for the rest of my life!

## **ABOUT ME**

---

I'm Meghana Rathanraj, a developer hailing from Bangalore. Currently, I am in the 8th semester of my Bachelor's degree in Engineering from the branch of Information Science and Engineering. With a strong inclination towards web3 technology, I strive to explore its applications further.

My journey thus far boasts notable accomplishments, including a prestigious Fellowship at TiH IoT IIT Bombay, where I actively contributed to a precision Irrigation project for a period of 10 months. Furthermore, I had the privilege of being selected for a State Level Seminar for KSCST, allowing me to showcase my capstone project titled "Pedestrian Navigation based on navigation for smart cities".

Presently, I am employed as a full stack developer at Sival Devops, utilizing my expertise to craft cutting-edge web solutions. Looking ahead, my vision encompasses making substantial contributions in the realm of tech, as I remain driven and enthusiastic about the limitless possibilities that lie ahead.

## **ABOUT ME**

---

I am a dedicated and passionate individual pursuing a degree in Information Technology at BMS College of Engineering. Throughout my academic journey, I have gained a comprehensive understanding of various computer languages and technologies. I possess a diverse range of experiences, both as an enthusiast and as a professional, which have contributed to my growth and proficiency in the field. My technical expertise includes programming languages like Python, C/C++, and familiarity with technologies such as AWS, ML/AI, Windows, CI/CD, and Git. Alongside my studies, I have actively engaged in teaching, web development, and start-up projects, further expanding my skill set and shaping me into a reliable performer in any scenario.

Professional Experience:

- 1) Project Intern, Oracle Financial Services Software Limited.
- 2) Research Intern, Indian Institute of Science (IISc).
- 3) System Engineering Intern, Subconscious Compute.

As a final year engineering student pursuing Information Technology, I have acquired a strong foundation in programming languages, technologies, and web development. My diverse experiences, including teaching, web development, and start-up projects, have allowed me to grow both personally and professionally. I am a reliable performer who can effectively leverage my technical skills and problem-solving abilities to contribute to challenging projects. With a passion for continuous learning and a commitment to delivering high-quality results, I am poised to make a positive impact in the field of Information Technology

## **ABOUT ME**

---

Allow me to introduce myself! I'm Somdyuti Sarkar, a passionate and enthusiastic final-year B.Tech student from West Bengal. Currently, I am pursuing my studies at the prestigious BMS College of Engineering. As a tech enthusiast, I have always been fascinated by the world of software development and its endless possibilities. I

It is my dream to embark on a fulfilling career in this field. However, my interests extend beyond the realm of technology. I have a deep love for singing, and whenever I get the chance, I find solace and joy in belting out my favorite tunes. Cooking is another passion of mine. There's something magical about creating delicious dishes from scratch and experimenting with flavors.

I consider myself a true foodie, always on the lookout for new and exciting culinary experiences. In my journey so far, I have been fortunate enough to intern at some prominent companies, which has given me invaluable practical experience. I have had the opportunity to work with industry giants like Samsung, Unisys, Apptio, Amazon, and Akamai Technologies. These internships have not only sharpened my technical skills but also provided me with insights into real-world problem-solving and collaboration. It has been an incredible learning experience, and I am grateful for every opportunity that has come my way. Despite my passion for technology and career aspirations, I hold my family close to my heart.

I come from a nuclear family, consisting of my loving parents and myself. Their unwavering support and encouragement have been the driving force behind my accomplishments. I am truly blessed to have them by my side, cheering me on as I pursue my dreams.

## **ABOUT ME**

---

I am writing to provide a brief description of myself as an engineering student in the Department of Information Science and Engineering at BMS College of Engineering (batch 2019-2023). I believe that my experiences and achievements during my time at the college showcase my dedication to academic excellence and my active involvement in various extracurricular activities.

First and foremost, I am proud to mention that I secured a ranking of 932 in the Karnataka Common Entrance Test (KCET), which granted me admission to BMS College. This accomplishment reflects my passion for engineering and my determination to pursue a successful career in this field. Throughout my college journey, I actively participated in several activities that allowed me to broaden my horizons and contribute to the college community. One of my significant involvements was being a core member of the Pentagram Club, where I played a crucial role in organizing and managing events.

Working alongside my peers, I cultivated teamwork and leadership skills, fostering a sense of unity and enthusiasm within the club. Additionally, I represented the college as a member of the Chess Team, competing in various tournaments and sharpening my strategic thinking abilities. Being part of the College Chess Team allowed me to demonstrate my commitment to both academics and extracurricular pursuits.

In conclusion, I believe that my experiences and achievements throughout my time at BMS College of Engineering demonstrate my commitment to excellence in both academics and extracurricular activities. I am grateful for the opportunities provided by the college and the support of the faculty and staff. I am confident that the skills and knowledge I have acquired will enable me to make meaningful contributions to the engineering field and beyond.

## **ABOUT ME**

---

An inventive Engineering student with a strong commitment to innovation and exceptional creativity. Currently pursuing a B.E. in Information Science and Engineering at BMS College of Engineering in Bengaluru, India, I possess a remarkable CGPA in my Engineering. Throughout my academic journey, I have consistently demonstrated outstanding performance, achieving exceptional scores in my pre-university education and SSLC.

In terms of industry-oriented projects, I have had the opportunity to work on impactful projects with renowned companies. As a Project Intern at Samsung Prism, I contributed to the development of a machine learning-based model for audio classification.

My dedication and achievements have been recognized through various accolades, including winning the Best Project Award in IEEE YESIST 2023. I have also been honored with the TiH IoT Chana Kya Fellowship and the Regional Winner of IET India Seminar. Furthermore, I achieved the runner-up position at LGM Heist, an online coding contest.

Apart from my technical prowess and achievements, my passion for badminton has taught me valuable lessons in discipline, teamwork, and resilience. As a professional badminton player, I have competed at a high level and developed skills such as focus, perseverance, and strategic thinking. With a diverse range of skills, a relentless passion for innovation, and a strong educational background, I am well-equipped to tackle complex challenges and make a significant impact in the field of engineering.

My internship at Ansys and the subsequent full-time offer have further solidified my commitment to excellence. I look forward to leveraging my skills, experience, and enthusiasm to contribute to the growth and success of Ansys and the engineering industry as a whole.

## **ABOUT ME**

---

A decade ago, I faced a challenging period in my life when my parents went through a separation. This situation brought immense pressure, leaving me feeling overwhelmed and even depressed. However, with the guidance and support of my mother, I learned to take control of my circumstances and became a self-sufficient individual. Unlike my peers, I had to shoulder numerous responsibilities at a young age, which ultimately fostered a sense of self-reliance and independence.

I acquired essential life skills, such as managing my finances and mastering the art of cooking. During a particularly difficult time, when my mother was hospitalized for over two months, I had to navigate through challenges both at home and in school. Balancing my academic commitments with family responsibilities demanded determination and resilience. Despite these obstacles, I embraced the challenges with unwavering determination. Unfortunately, I faced one of the most profound hardships in my life when my mother passed away. To grieve and heal, I took a gap year before college, and subsequently, another year to prepare for the college entrance exam. These experiences taught me the importance of taking charge of my own life and assuming responsibility for my own success.

Through my history of confronting and overcoming personal and academic challenges, I have developed a tenacity that equips me to contribute effectively to any professional community. As a future young professional, I have held various leadership roles in different college clubs, including organizing the esteemed college fest, Utsav-Envisage 2022.

My personal and academic background, coupled with my diverse experiences and unyielding drive, position me as an individual who can contribute significantly to any professional community. My unwavering determination, forged through overcoming numerous obstacles, fuels my passion for success. With a clear vision of building a data-driven startup, I am committed to continuous growth and the pursuit of excellence.

---

I am Neha K, a motivated and ambitious student pursuing a degree in Information Science at BMS College of Engineering. With a passion for technology, I have gained valuable industry experience through my internship at Math Works.

Currently pursuing my studies in the esteemed Information Science program at BMS College of Engineering, I have consistently showcased proficiency in computer science, mathematics, and information technology. My educational background has provided me with a solid foundation in various areas of information science, including programming languages, data structures, algorithms, and web development.

I have gained expertise in a range of programming languages such as C++, Python, JavaScript, and Java, equipping me to develop efficient and robust software solutions. Apart from my academic pursuits, I am deeply interested in exploring the latest advancements in technology, particularly in full stack development, data analytics, artificial intelligence, and machine learning.

I actively engage in extracurricular activities, such as workshops, hackathons, and coding competitions, to enhance my practical skills and foster effective teamwork. Ultimately, I am enthusiastic about the opportunities that lie ahead, including my role as an Associate at Math Works, where I aspire to leverage my skills and knowledge in deep learning, full stack development, and other areas of expertise to tackle real-world challenges and contribute to technological advancements.

## **ABOUT ME**

---

I am a dedicated and enthusiastic student currently pursuing a degree in Information Science at BMS College of Engineering. With a passion for technology and its potential to transform lives, I am driven to acquire knowledge and skills in this dynamic field.

### Education:

I am currently enrolled in the Information Science program at BMS College of Engineering, a renowned institution known for its excellence in technical education. Throughout my academic journey, I have consistently demonstrated a strong aptitude for subjects related to computer science, mathematics, and information technology.

### Skills:

My educational background has equipped me with a solid foundation in various areas of information science. I have gained proficiency in programming languages such as Java, Python, and C++, allowing me to develop efficient and robust software solutions. Additionally, I have acquired knowledge in data structures, algorithms, database management systems, and web development.

### Passions and Interests:

Beyond my academic pursuits, I have a genuine passion for exploring the latest advancements in technology. I am constantly seeking opportunities to expand my knowledge and stay up-to-date with emerging trends in the field of information science. I am particularly interested in data analytics, artificial intelligence, and machine learning, as they offer immense potential to revolutionize industries and create positive impacts on society.

## **ABOUT ME**

---

Hello !, I am Jahnavi L , a soon-to-be graduate from BMS College of Engineering, pursuing a degree in Information Science and Engineering. Through my engineering education, I have developed a robust skill set in various technical areas. I am proficient in Concepts of Object Oriented Programming, Web Technologies, Machine Learning and Deep Learning frameworks, Networking, Database Management, Data Structures and Linux programming , allowing me to analyze complex problems and develop innovative solutions.

Attended webinars and workshops during the technical fest called ‘PHASE SHIFT’, gaining exposure to emerging technologies and industry trends. Enjoyed the cultural events, concerts, and DJ night in our annual cultural fest called ‘UTSAV’, embracing the vibrant atmosphere and diverse performances. Participated in the Global Citizenship Conference organized by the Melton Foundation, engaging in intercultural dialogue and discussing global issues surrounding technology, sustainability, and social innovation.

Actively participated in social initiatives: Donated blood, contributing to the welfare of patients in need. Collected funds for cancer patients through the "Give for GOOD" program, raising awareness about cancer and supporting individuals battling the disease. Volunteered for a mega health camp during the COVID-19 pandemic, assisting in a vaccination drive and ensuring the well-being of the community. Participated in a plantation drive, contributing to environmental sustainability and raising awareness about the importance of green spaces. Took part in a women's walkathon, advocating for gender equality and empowering women. Volunteered for a blood donation camp, facilitating life-saving blood donations and supporting healthcare initiatives.

To summarize, my journey as an engineering student has been an incredible adventure, filled with valuable experiences, personal growth, and meaningful connections. I am excited about the endless possibilities that lie ahead as I prepare to embark on the next chapter of my life.

## **ABOUT ME**

---

Hello! I am Shivani A, a student from the Information Science and Engineering department at BMS College of Engineering. My passion lies in exploring new technologies and honing my development skills. My journey so far includes internships at renowned organizations such as Dell Technologies, IISc, and my current role as an EDG intern at Math Works.

I have had the opportunity of being a member of the Student Core Committee during Phase Shift 2021. This incredible experience provided me with an opportunity to further refine my organizational and planning abilities while assuming leadership roles in the Admin, Hospitality, and Event committees. I have also worked as a Senior Coordinator of Admin for Utsav-Envisage 2022, and as a mentor for Phase Shift 2022. My interest extends to organizing other significant events in college, including the 75th Alumni Day and the Ek Bharath Shresth Bharath initiative. Not only have

I actively participated in the Alumni Association, but I have also been actively involved in College clubs such as Codelocked and FAC, giving me the opportunity to truly explore and discover my interests

## **ABOUT ME**

---

Greetings! My name is Shree Charan M L, a student from the class of 2023 in the Department of Information Science and Engineering (ISE) at BMS College of Engineering (BMSCE).

I am currently working as an associate in the Engineering Development Group (EDG) at MathWorks, where I have gained valuable experience through both summer and winter internships.

My passion lies in software development, and I have had the privilege of leading the information and development teams during Phase Shift 2021, Utsav-Envisage 2022, and Phase Shift 2022. Additionally, I have been an active member of various clubs such as the ISE Student Club, IEEE PES, and Pentagram, enriching my extracurricular journey.

I've been a part of the student core committee of the ISE Student Club and Phase Shift 2022 and led the sponsorship, marketing, information, and development teams during the same.

## **ABOUT ME**

---

I'm Swetha Swaminathan and I am graduating from BMS, ISE. Being in ISE dept,I have become more technically sound and I have honed my skills in machine learning and python.

I have a huge fondness and passion towards computer science as a subject and look forward to learning more about it everyday.

My goals are to become an application oriented professional, by which I can effectively utilize my engineering skills and competence, for the development of new technologies and thus attain professional excellency by applying my knowledge to real-life problems, reaching out to those in need.

## **ABOUT ME**

---

I am Ishita Rawat, an Information Science and Engineering graduate from the class of 2023 at BMS College of Engineering, Bengaluru.

I am a creative and a self-motivated student. With a natural affinity for problem-solving and a deep-seated love for technology, I've spent my years at BMSCE nurturing this dream. In August 2023, I am thrilled to embark on my career as a Technical Analyst with Oracle, marking the start of an exciting new chapter in my life. As I transition into the professional world, I am eager to maintain my connection with BMSCE.

I firmly believe in giving back to the community that helped shape me, and I am keen on assisting my juniors and the college in any capacity possible. BMSCE holds a special place in my heart.

The college has been a catalyst for my transformation, imparting me with invaluable life skills and knowledge to face the real world confidently. The memories, experiences, and lessons learned here will remain with me as I continue on my professional journey.

## **ABOUT ME**

---

Saranya S is a self-motivated and hardworking individual currently pursuing a B.E. in Information Science and Engineering at BMS College of Engineering.

With a strong academic record, including a CGPA of 8, Saranya brings a solid foundation in programming languages like C++ and Python, as well as expertise in web development using HTML and CSS. Demonstrating versatility, Saranya has undertaken various projects, ranging from creating college websites and movie ticket booking systems to implementing machine learning algorithms for COVID-19 prediction and building applications for food ordering and facial recognition.

Alongside academics, Saranya has actively volunteered with organizations like Youth4Jobs and ITeach, showcasing a commitment to social causes. With excellent proficiency in English and Kannada, as well as native fluency in Tamizh, Saranya is a well-rounded individual with a passion for chess, digital art, sketching, and reading novels.

## **ABOUT ME**

---

Hello! My name is Yogesh, and I am about to finish my Bachelor of Engineering degree in Information Science and Engineering from BMS College of Engineering in a couple of days. I belong to a nuclear family, consisting of my father, mother, and sister. Both of my parents are government employees, and my sister is currently pursuing her MTech degree from IIT-KPG.

My key strengths lie in being hardworking and proficient in time management. I believe in putting in dedicated efforts to achieve my goals and ensuring efficient use of my time. However, I do have a couple of weaknesses that I am working on. Overthinking can sometimes hinder my decision-making process, as I tend to dwell excessively on every possible outcome, causing delays and occasionally leading to missed opportunities.

Additionally, my shyness occasionally holds me back from fully expressing myself and engaging confidently in social situations. This can limit my ability to form connections and contribute effectively in group settings. I am actively working on overcoming these weaknesses to enhance my personal and professional growth. During my free time, I enjoy watching movies and series as well as reading news articles to stay updated. In the long term, my goal is to develop strong technical skills that will place me in a favorable position at a reputed company.

I am excited about the opportunities that lie ahead and look forward to applying my knowledge and skills in the real world.

## **ABOUT ME**

---

As an Information Science Engineering graduate, I am equipped with a diverse skill set and a deep understanding of software development, algorithms, and data structures.

With a solid foundation in programming languages such as Java, Python, and C++, I have gained hands-on experience in developing robust and scalable applications. My education has also honed my expertise in areas such as machine learning, artificial intelligence, and data analysis, enabling me to derive meaningful insights from complex datasets.

I am adept at working with various frameworks and technologies, including web development, database management, and cloud computing. Alongside technical proficiency, I possess strong problem-solving abilities and a keen eye for detail, allowing me to identify and rectify issues efficiently. Additionally, I am a strong advocate for collaboration and teamwork, and I thrive in fast-paced and dynamic environments. With a passion for innovation and a commitment to staying updated with the latest industry trends, I am excited to contribute my skills and knowledge to drive technological advancements and create transformative solutions in the field of computer science.

## **ABOUT ME**

---

I am Hiral Honnoorali, a dedicated and ambitious student currently pursuing a degree in Information Science and Engineering at BMS College of Engineering.

With a strong passion for technology and a drive to make a positive impact on society, I am eager to utilize my skills and knowledge to transform the world we live in. My academic pursuits, I have a diverse range of hobbies that enrich my life. I am an avid sports enthusiast, actively participating in games such as Cricket. I also find solace in listening to music, which inspires me and fuels my creativity. Furthermore, I have a spirit of adventure and love to explore new cultures and perspectives through travel.

Confidence is one of my defining traits. I approach challenges with an optimistic mindset, firmly believing in my ability to overcome obstacles and drive meaningful change. Being kindhearted and compassionate, I take pride in extending a helping hand to those in need. By fostering a culture of support and care, I am committed to building stronger and more connected communities.

Ultimately, my goal is to leverage technology to create a positive impact on society. I envision a future where key issues are addressed creatively, improving the lives of individuals and communities alike. By choosing a career that empowers me to provide practical and significant technological solutions, I am determined to make a real difference. I strive to positively transform lives by applying my expertise, skills, and unwavering passion

## **ABOUT ME**

---

I am an accomplished fourth year student at B.M.S. College of Engineering. I am known as a smart and cheerful girl with a remarkable vision and a passionate strive and determination to rise through the ranks and outperform my peers. I have an extremely sharp and technical mind that is able to grasp the slightest of details that might give me an edge or compensate for a weakness. I have a strong command over the English language helping me communicate easily helping me form a connect/bond.

I have represented my state in volleyball and have been captain of the school volleyball team showcasing my various skills mentioned above. I also have a strong leadership ability which helps me to bring out not just the best in myself but also in every member of the team helping the team move forward together as a single unit.

All in all, I have been classified by my peers as a complete person anybody would love working with or having under their wing.

## **ABOUT ME**

---

My name is Pranjal Pandey(USN-1BM19IS114) and I am pursuing my undergrad in B.E from Information Science and Engineering. I participated in various events during my undergraduate years. Some of them include - Green Sunday organized by Adanya Chetana where I planted 20 trees during the course of the event. I also participated in school on wheels where I was involved in renovating the interiors of BMTC by colourful and informative paintings. I

also attended the EV workshop during the phaseshift 2022 which highlighted the importance of electric vehicles and its importance to the environment. I also raised money in the Give For Good cancer awareness program, organized by Rotaract Club of BMSCE. I made several projects during my course including 'Hate speech Flagging And Detection using NLP'. I also wrote two research papers namely- 'Renewable Resources in Green Computing' and 'Hate Speech Detection using NLP'.

I was also involved in sports during my undergrad where I participated in the Inter year cricket tournament in 4th year which was organized by the sports department of BMSCE. I was also part of BMS-EDC(Entrepreneurship Development Cell) during the first year of my college. I have been placed in Eli Lilly where I was offered a full time role.

## **ABOUT ME**

---

I am Palak Gupta, an aspiring engineer. I have cultivated a strong foundation in the field, continuously honing my skills and expanding my knowledge to achieve my career objectives. I hold a Bachelor's degree in Engineering from BMS College of Engineering with a specialization in information science.

Throughout my academic journey, I have acquired a comprehensive understanding of engineering principles, including theoretical concepts and practical applications. This educational background has equipped me with a solid foundation to excel in the engineering field. In addition to my formal education, I am a firm believer in lifelong learning.

I actively seek opportunities to enhance my knowledge and skills through various learning experiences. Whether it be attending workshops, participating in online courses, or engaging in industry-related events. My engineering journey has enabled me to develop a diverse set of technical skills, which includes, but is not limited to, a strong understanding of programming languages, including C++, Python enabling me to develop software solutions for engineering applications. Familiarity with project management methodologies, enabling effective coordination, and execution of engineering projects.

Excellent problem-solving and analytical abilities, allowing me to identify and resolve complex engineering challenges efficiently. I intend to acquire relevant certifications to validate my expertise and demonstrate my commitment to professional growth. I am confident in my ability to make significant contributions to the engineering industry while striving for personal and professional excellence.

---

I'm Sandesh V, a dedicated and aspiring student at BMS College of Engineering working towards a degree in Information Science and Engineering. My ambition is to make use of my knowledge of technology and zeal for it to contribute to a better society. I absolutely think that with the proper use of technology, we can achieve enormous advancements and transform the world. I'm passionate about an array of interests beyond my education that makes me cheerful.

By taking part in arts and crafts activities, I am able to exhibit my creativity and give life to my ideas. Either listening to music or reading inspirational literature may be enjoyable and inspiring activities. I love to travel since it helps me to discover new cultures and places. I'm also really interested in staying updated with technology because it offers so many opportunities. Overall, my interests generally show my passion for creativity and adventure.

My confidence, optimism, and helping attitude distinguish me. I believe in my abilities to overcome obstacles and positively affect people. Being compassionate and assisting people in need makes me proud. Through mutual assistance, I hope to foster a helpful and empathetic community

## **ABOUT ME**

---

Greetings! I am Sanjana M Jannu, a dedicated, outcome-oriented enthusiast pursuing a degree in Information Science Engineering from BMS College of Engineering in Bangalore. As a committed student with the university seat number 1BM19IS142, I have demonstrated a strong interest for technical subjects and a passion for innovation.

I am pleased to share that I have recently secured a placement at GSK (GlaxoSmithKline), a prominent multinational organization that aligns with my professional aspirations. In addition to my academic pursuits, I am a proficient classical singer and pianist. Furthermore, I also know to play veena, showcasing my versatility in traditional Indian instruments. Alongside my artistic abilities, I have cultivated a solid foundation in technical skills. With knowledge of programming languages such as C, Python, and C++, I aim to upskill myself to meet the current technological demands. I have a keen interest in emerging technologies such as data science and UI/UX development, and I am excited about their potential to revolutionize the industry.

In addition to my academic pursuits, I actively participate in various co-curricular activities that align with my commitment to environmental sustainability and community engagement. I have been an enthusiastic participant in initiatives such as the "Go Green Ganesha" campaign, where we promote eco-friendly alternatives for the traditional festival by using clay idols and natural materials. Engaging in tree plantation drives has also been a significant part of my involvement, contributing to a greener and more sustainable environment. Looking to the future,

I am enthusiastic about exploring opportunities that merge my technical prowess with my passion for music. I aspire to leverage my skills to contribute to innovative projects that combine technology, fostering unique experiences and creative solutions. Through continuous learning and professional growth, I aim to make a significant impact in the realm of technology.

## **ABOUT ME**

---

I am an energetic and passionate learner specializing in Data Science and Artificial Intelligence. With a strong foundation in concepts such as Deep Learning, Machine Learning, NLP, and Transfer Learning, I am eager to contribute my skills and knowledge to the field.

I am proficient in Python and its related libraries and frameworks including TensorFlow, Django, and Flask. Additionally, I have programming expertise in Java, C/C++, JavaScript, and React. I am currently pursuing my Bachelor's degree in Information Science and Engineering at B. M. S. College of Engineering, and I am set to graduate in July 2023. Throughout my academic journey, I have consistently demonstrated a keen interest in advanced technologies, particularly in the realm of Data Science and AI.

I actively seek opportunities to apply my knowledge and expertise in real-world scenarios. I have gained practical experience through my internship roles. As a Data Scientist Intern at Sival DevOps Software Pvt Ltd, I have been instrumental in building AI-based solutions for the Smart City Project. Additionally, I have had the privilege to collaborate with prestigious institutions such as the Indian Institute of Science (IISc) and Amazon. At IISc, I contributed to a Research Project focused on Plasma Arc detection and analysis, where I showcased my ability to work on complex scientific challenges. I also participated in a project at Amazon, where I explored Zero-Shot Transfer Learning in Natural Language Processing.

I am fueled by my passion for continuous learning, and I am excited to contribute my skills and make meaningful contributions to innovative projects and organizations in the field of Data Science and AI

## **ABOUT ME**

---

My four years in college studying Information Science have been an extraordinary journey. It's been a roller coaster ride, filled with ambition, cherished friendships, and unexpected life experiences that have shaped me in profound ways. I've learned the importance of dreaming big and setting ambitious goals, and I've embraced challenges and sought opportunities for growth. Along this exhilarating journey, I've had the privilege of making lifelong friendships, creating a sense of family within my college community. Mentoring, teaching, and connecting with my juniors have been incredibly rewarding, reminding me of the value of giving back and the power of collaboration.

College life itself has been a whirlwind of emotions, teaching me resilience and adaptability as I navigated demanding coursework and balanced extracurricular activities. Through unexpected detours and moments of uncertainty, I've learned the importance of flexibility and embracing change. Above all, college has taught me the significance of maintaining a positive outlook on life. Some highlights of my college experience include: Finding my mentor Dr. Srinivasan Lakshmi narayanan who shaped me, Participating in various programming competitions and winning some of them, web development head for Utsav and Phase Shift, completed an internship in American Express and secured a PPO, privileged enough to work alongside other students on an IISc based R&D internship, created a web application for the 1st year course registration as a contract from the college, mentoring my juniors and treating them as my kids, the unforgettable trips and nights with my college friends and strangers, and most importantly understanding life.

## **ABOUT ME**

---

I am a passionate and highly skilled computer science student with a deep understanding of technical concepts and coding skills.

Throughout my educational journey, I have acquired a diverse range of certifications in various technologies, showcasing my commitment to continuous learning and professional development. With a solid foundation in computer science principles, I possess the ability to tackle complex problems and develop innovative solutions.

My expertise extends to multiple programming languages, databases, and software development methodologies, enabling me to create robust and efficient applications. I am driven by a strong desire to apply my knowledge and skills to real-world challenges, seeking opportunities to contribute to meaningful projects and make a tangible impact in the world of technology.

With my strong problem-solving abilities, adaptability, and dedication, I am confident in my ability to excel and thrive in any professional setting, making valuable contributions to the field of computer science.

## **ABOUT ME**

---

Hello! I'm Gowri Chandran, a BMS College of Engineering graduate who is currently pursuing a degree in Information Science and Engineering. I have acquired a strong skill set in a variety of technical fields thanks to my engineering degree. I've developed my abilities in a variety of programming languages, including Python, Java, and C++, as well as web technologies like HTML, CSS, JavaScript, and PHP. With a strong eye for problem-solving and a desire for lifelong learning, I'm excited to share my technical knowledge and work with others to take on difficult tasks in the constantly developing sector of IT. Besides having the necessary technical skills, I am a proactive learner who is very motivated. I look for chances to further my education outside of the classroom by taking part in code competitions, going to industry conferences, and connecting with online coding communities.

In addition to my technical proficiency, I have a passion for problem-solving and a sincere interest in comprehending users' demands and developing creative solutions. To improve my skill set and stay ahead in this quickly evolving sector, I am always investigating cutting-edge technologies like cloud computing, artificial intelligence, and cybersecurity. I want to contribute to the creation of technology that improves lives and changes the world by fusing my technical proficiency with my desire for social impact.

In conclusion, my experience as an engineering student has been an amazing adventure, full of worthwhile events, personal development, and significant connections. I am eager to start the new chapter of my life because of the limitless opportunities that lay ahead.

## **ABOUT ME**

---

I am Harshith A, an aspiring engineer. I have cultivated a strong foundation in the field, continuously honing my skills and expanding my knowledge to achieve my career objectives.

I hold a Bachelor's degree in Engineering from BMS College of Engineering with a specialization in information science. Throughout my academic journey, I have acquired a comprehensive understanding of engineering principles, including theoretical concepts and practical applications. This educational background has equipped me with a solid foundation to excel in the engineering field. In addition to my formal education, I am a firm believer in lifelong learning.

I actively seek opportunities to enhance my knowledge and skills through various learning experiences. Whether it be attending workshops, participating in online courses, or engaging in industry-related events. My engineering journey has enabled me to develop a diverse set of technical skills, which includes, but is not limited to Strong understanding of programming languages, including C++, Python enabling me to develop software solutions for engineering applications.

Familiarity with project management methodologies, enabling effective coordination, and execution of engineering projects. Excellent problem-solving and analytical abilities, allowing me to identify and resolve complex engineering challenges efficiently. I intend to **obtain** relevant certifications to **prove** my expertise **And show** my commitment to professional **development. i** am confident **i can do this Make** a significant **contribution** to the engineering industry while striving for personal **goals** and professional excellence.

## **ABOUT ME**

---

I am Aditya Rajeev Kulkarni, a graduate in Information Science and Engineering. I was thrilled to be here in BMS College of Engineering and share my passion for this dynamic and ever-evolving field. Throughout my academic journey, I have immersed myself in the study of Information Science and Engineering, exploring the intersection of technology, data, and human interactions. This multidisciplinary field has equipped me with a diverse skill set, enabling me to tackle complex challenges and contribute to the advancement of society.

My educational background has provided me with a solid foundation in areas such as computer science, data analysis, information systems, and software development. I have gained hands-on experience working with programming languages, database management, machine learning, and artificial intelligence techniques. These technical skills, combined with my strong analytical and problem-solving abilities, have empowered me to create innovative solutions for real-world problems. Moreover, my studies have emphasized the importance of understanding the human aspect of technology. I have developed a keen interest in user experience design, human-computer interaction, and the ethical implications of technology in society. I believe that technology should be built with a human-centric approach, ensuring that it enhances people's lives, fosters inclusivity, and addresses societal challenges. Beyond my academic pursuits, I have actively engaged in projects and internships that have allowed me to apply my knowledge in practical settings.

These experiences have honed my ability to collaborate effectively with diverse teams, communicate complex concepts to both technical and non-technical audiences, and manage projects to meet deadlines and deliver quality results. As a graduate in Information Science and Engineering, I am excited to embark on a career that enables me to leverage technology to solve problems, drive innovation, and make a positive impact. I am eager to explore opportunities where I can contribute my expertise in data analysis, software development, and information systems to create meaningful solutions in fields such as healthcare, finance, education, or any industry where data-driven insights and technological advancements are crucial.

## **ABOUT ME**

---

From a small town called Vitla, I embarked on a journey fueled by ambition and determination. I always dreamt of becoming an engineer, and with unwavering pride, I took the first step towards my goal by enrolling at BMS College of Engineering.

My confidence, enthusiasm, and friendly nature have been my constant companions on this path of discovery and growth. The world of web development and cloud concepts captivates me like no other, and I eagerly dive into new challenges to expand my skills in these fields. Curiosity drives me to explore the latest technologies, constantly seeking to deepen my knowledge and improve my craft. But life is more than just books and screens.

My true passion lies in traveling and trekking, an adventure-seeking spirit that finds its truest form when shared with friends. Together, we traverse breathtaking landscapes and create memories that will last a lifetime. My journey from that small town and education at the central government residential system called Jawahar Navodaya Vidyalaya, Dakshina Kannada has shaped me into a well-rounded individual, hungry for knowledge and eager to embrace every opportunity that comes my way.

With each step forward, I strive to be a positive force in the world, making a mark as an engineer and as a person who values exploration, friendship, and the pursuit of dreams.

## **ABOUT ME**

---

My name is Aditya VSM, and I am a passionate individual with a zest for life. I come from the picturesque village of Talya in Chitradurga district. Nestled amidst nature's beauty, Talya has instilled in me a deep appreciation for the wonders of the natural world and a sense of community. Despite the challenges of living in a remote area, I have embraced the values of resilience and resourcefulness that are inherent in the village lifestyle.

After completing my early education in Holalkere, I made a significant move to a different city, Shimoga, for my 12th class, seeking new educational opportunities and experiences. This transition allowed me to broaden my horizons and adapt to different environments. Inspired by the possibilities that education opened up for me, I decided to pursue engineering and subsequently moved to Bangalore, a vibrant city known for its technological advancements and diverse culture.

This move further expanded my worldview and exposed me to a melting pot of ideas and perspectives. During my engineering degree, I actively pursued my interests by engaging in internships with startups. These experiences provided me with invaluable practical knowledge and a glimpse into the world of entrepreneurship. Working with startups allowed me to contribute my skills, learn from dynamic environments, and witness the transformative power of innovation. These internships nurtured my entrepreneurial spirit, further fueling my passion for engineering and the potential it holds for creating positive change. I am thrilled to share that I have been placed in HPE (Hewlett Packard Enterprise), and I am eagerly looking forward to embarking on a promising career with this esteemed organization. I am excited about the opportunities that lie ahead and the chance to contribute my skills and knowledge to the growth and success of HPE. Through continuous learning, dedication, and hard work, I am determined to excel in my chosen field and make a meaningful difference.

With enthusiasm and perseverance, I embrace the challenges and possibilities of the future, knowing that it holds the potential for a remarkable journey.

## **ABOUT ME**

---

Niranjan Umapati Hegde as a student of Information Science and Engineering, stands on the precipice of an exciting new chapter in my life. Beyond my academic pursuits, I am a person brimming with curiosity, fueled by a relentless desire to explore the depths of knowledge and unravel the intricacies of the world around me.

I find solace and exhilaration in the art of problem-solving, relishing the intellectual challenges that come my way. In the realm of AI, ML, and Data Modeling, I have discovered not only a professional passion but also a personal fascination that drives me to delve deeper, to push boundaries, and to continuously learn and grow. The intersection of technology and human ingenuity captivates me, and I am driven by a profound belief in the power of data to unlock transformative insights and shape a better future. But beyond my academic pursuits and professional ambitions, I am a person who values empathy, collaboration, and making a positive impact on the lives of others.

I believe in the potential of technology to bridge gaps, to foster inclusivity, and to create a more equitable society. With an open heart and an unwavering dedication to personal and professional growth, I am poised to embrace new opportunities, forge meaningful connections, and leave an indelible mark not only in the world of AI, ML, and Data Modeling but also as a compassionate and driven individual.

## **ABOUT ME**

---

Hello! I am Greeshma S Y, a soon-to-be graduate from BMS College of Engineering, pursuing a degree in Information Science and Engineering. Through my engineering education, I have developed a robust skill set in various technical areas. I have honed my skills in languages such as Python, Java, and C++, as well as web technologies including HTML, CSS, JavaScript, and PHP. With a keen eye for problem solving and a drive for continuous learning, I am eager to contribute my technical expertise and collaborate with others to tackle challenging projects in the ever-evolving field of IT.

In my free time, I actively engage in activities that contribute to my personal and professional growth. I pursue technical hobbies such as working on coding projects, exploring new technologies, and expanding my knowledge through online courses and tutorials. Additionally, I enjoy maintaining a well rounded lifestyle by participating in physical activities for fitness and relaxation, and exploring arts and culture.

This balance between technical pursuits and diverse interests helps me stay motivated, continuously learn, and bring fresh perspectives to my work in the IT field. To summarize, my journey as an engineering student has been an incredible adventure, filled with valuable experiences, personal growth, and meaningful connections. I am excited about the endless possibilities that lie ahead as I prepare to embark on the next chapter of my life.

## **ABOUT ME**

---

I am a dedicated and motivated individual currently pursuing my engineering degree. Engineering has always fascinated me due to its blend of science, problem-solving, and innovation. Throughout my academic journey, I have had the opportunity to explore various disciplines within engineering. While I initially had a broad interest in the field, I eventually found my passion lies in web development and networking.

This specialization aligns with my strengths and interests. I have actively participated in practical projects and group assignments, which have honed my technical skills, teamwork abilities, and time management. Beyond academics, I believe in the importance of a well-rounded education. I have been involved in various extracurricular activities that have helped me develop leadership qualities, communication skills, and a holistic perspective.

As I approach the final year of my engineering degree, I am eager to apply the knowledge and skills I have acquired to make a positive impact in the professional world. I aspire to work in a dynamic environment where I can contribute to innovative projects and collaborate with a diverse team.

Ultimately, I aim to be at the forefront of technological advancements and contribute to the development of solutions that address global challenges.

## **ABOUT ME**

---

My name is Thousif Pasha, currently in 8th semester. I am from Kolar, Karnataka. Before coming to BMSCE I had no thoughts of joining Engineering and after joining I thought of leaving engineering, a big thanks to Dr. Shambhavi ma'am because of her only I changed my decision to stay in this course.

Firstly, I can say that ISE department is the best department anyone can get in BMSCE. They encourage you from each and every corner. The faculty here are student friendly and helped me to build my soft skills. Till now I have been a part of 13 trophies for BMS in Kho-Kho game, it requires very hard work to win game in Kho-Kho because the stamina that you want to play this game is huge. I used to manage all the academic works, Sports, Club activities, Cultural etc., I have represented as the student coordinator of Chiranthana kannada sangha of our college, maintaining good score in academics and engaging in various other activities.

I have friends from various branches only because the department who let me to participate in the activities that I liked. The infrastructure here is so good and the library facility also very good. A very big thanks to our HOD's Dr. Dakshayini ma'am and Dr. Jayarekha ma'am and all other faculties. I would like to thank Dr. Shivarama Reddy sir for giving an opportunity to represent BMS in VTU level sports. Sports is the thing which has brought discipline, time management, dedication, hard work, patience, sacrifice, perseverance in me. I thank Chand Basha, Varun N, Manojgowda, Vineetha, Meghana and my sports and Chiranthana friends.

A special thanks to Neha, the person who taught so many things in my life. One cannot forget BMSCE for the opportunity it has provided to each and every student. Four years of engineering life will teach us how to survive in our whole life. Finally, I thank everyone for everything. Thank you.

---

I am Kartik V Gaonkar (1BM19IS068) .I come from Kumta, a beautiful town in Uttarakannada, where I find joy and excitement in playing cricket and badminton. These sports keep me physically active and provide a platform to connect with others.

In my leisure time, I immerse myself in the world of music, appreciating its diverse genres and artists, which brings me a sense of relaxation and inspiration. Having pursued engineering at BMS College of Engineering, I had the opportunity to explore my passion for technology. Among the various aspects that fascinated me, SQL, Machine Learning, and Deep Learning stood out. SQL intrigued me with its ability to efficiently manage and manipulate vast amounts of data.

Meanwhile, the realm of Machine Learning and Deep Learning fascinated me with their potential to uncover patterns, extract meaningful insights, and make accurate predictions. The convergence of my hobbies and technological interests has ignited a deep curiosity to further explore and contribute to the ever-evolving world of technology. I am motivated to leverage my skills and knowledge to develop innovative solutions, utilizing the power of SQL, Machine Learning, and Deep Learning.

I am excited about the possibilities that lie ahead and the impact that technology can have on our lives.

## **ABOUT ME**

---

I am Kushal L, a graduate of Information Science and Engineering from the batch of 2023 at BMS College of Engineering. My academic journey in this college has been nothing short of remarkable. These past four years have been filled with unforgettable experiences that have shaped me into the person I am today. F

rom the moment I stepped onto campus, I eagerly embraced the vibrant college life that awaited me. One of the highlights of my college experience has been my active participation in fests and events. It was a joy to be part of the organizing committees for Phase shift and Utsav on multiple occasions.

Through these roles, I had the opportunity to showcase my talents and contribute to the success of these incredible events. More importantly, I had the pleasure of meeting and interacting with a diverse range of individuals, each bringing their unique perspectives and experiences to the table. In January 2023, I embarked on an exciting internship journey at HPE (Hewlett Packard Enterprise). The internship has provided me with a platform to apply the knowledge I've gained during my academic journey to real-world projects.

I look forward to a successful career at the organization. In summary, my time as a student at BMS College of Engineering has been marked by unforgettable moments, personal growth, and exciting opportunities. From my active involvement in college events to my internship at HPE, I have nurtured a strong sense of dedication towards my academic and professional development.

As I embark on my future career, I am grateful for the experiences and skills gained during these transformative years.

## **ABOUT ME**

---

Hi! My name is Prashanth Jaganathan, and I am currently pursuing my BE in Information Science at BMS College of Engineering in Bangalore. I am a self-motivated and passionate learner, always seeking opportunities to expand my knowledge and understanding of the world. I thrive in team environments, where I can learn from the diverse perspectives of my peers.

Collaborating with others not only enhances my own growth but also allows me to contribute to the collective success of the team. I believe that working together and learning from one another is crucial for personal and professional development.

Making a positive difference in people's lives is something that truly drives me. I am a cheerful and enthusiastic individual, always looking for ways to bring joy and inspiration to those around me. Whether it's through my academic pursuits or personal interactions, I strive to create a meaningful impact and leave a lasting impression. In my free time, I indulge in various activities that fuel my adventurous spirit.

Playing sports not only keeps me physically fit but also teaches me valuable lessons in teamwork, discipline, and resilience. I also find solace in the world of books, constantly seeking knowledge and insights that further enhance my understanding of the world.

## **ABOUT ME**

---

Hi I am Rayyan, a passionate software developer currently studying in 4th year of Information science engineering at BMS College of Engineering. I am a dedicated individual who has gained valuable experience and knowledge through my internship at BMC Software. During my time there, I actively participated in various events, including the Phase Shift events. In particular, I had the privilege of being part of the Phase Shift 2022 core committee, where I contributed to the sponsorship team. My passion lies in the field of machine learning and deep learning. I have pursued my interest by completing relevant courses in these domains.

These courses have equipped me with a solid understanding of the principles and techniques involved in machine learning and deep learning, allowing me to apply them effectively in real-world scenarios. Throughout my experiences, I have developed excellent problem-solving skills, critical thinking abilities, and a collaborative mindset. I am eager to leverage my knowledge and skills to contribute to innovative projects in the machine learning and deep learning domain.

In my current role at Sabre Corporation, I have gained valuable experience in software development and have further honed my skills in areas such as coding, testing, and debugging. I am a proactive team member, always seeking opportunities to learn and contribute to the success of the projects I am involved in. Overall, with my experience as a Software Development Engineer at Sabre Corporation, my background in machine learning and deep learning, and my previous involvement in events and committees at BMC Software, I am well-equipped to make a positive impact and contribute to the advancement of cutting-edge technologies in the industry.

## **ABOUT ME**

---

As a final year student in Information Science, my name is Rakshitha B R, and I personify the virtues of hard work and dedication. I believe that challenges are not obstacles but opportunities to showcase my resilience and commitment.

When faced with pressure and adversity, I embrace the moment and give my utmost best to achieve favorable outcomes. Whether it's collaborating with a team, mediating conflicts, or spearheading projects, I possess a natural talent for fostering a harmonious and productive environment.

Throughout my academic journey in Information Science, I have acquired a comprehensive understanding of the subject matter, honing my skills in areas such as programming, database management, and software development. I have a passion for staying updated with the latest advancements in technology, and I actively seek opportunities to learn and expand my knowledge.

As I prepare to embark on the next chapter of my professional life, I am filled with a sense of excitement and eagerness to contribute my skills and expertise to the ever-evolving field of Information Science. With a steadfast commitment to continuous growth and an unwavering dedication to excellence, I am poised to make a significant impact in the industry and embrace the challenges and opportunities that lie ahead.

## **ABOUT ME**

---

As I near the culmination of my journey as a final year student in Information Science, my name is Rashi, and I embrace the belief that life thrives through the accumulation of small efforts and meaningful gestures. Through college academics, internships and hands-on projects, I have gained practical experience in implementing cutting-edge technologies and collaborating with multidisciplinary teams to develop innovative solutions.

With a firm foundation in Information Science, I am poised to contribute my expertise to the rapidly advancing digital landscape and make a meaningful impact in the world of technology. Amidst the rigors of academia, I have discovered a profound passion for the art of cooking, which not only nourishes the body but also ignites my creativity. Beyond the realm of culinary pursuits, I eagerly stay abreast of the latest trends in pop culture, finding joy in the diverse expressions of art and entertainment.

In the midst of the bustling world, I hold a special place for moments of solitude, recognizing their inherent value in fostering self-care and introspection. As I approach the threshold of the professional realm, my unwavering aspiration is to become a strong, independent woman who embodies resilience and empowerment. Regardless of the challenges that may lie ahead, I firmly cling to hope, viewing each obstacle as an opportunity for growth.

With unwavering determination and an indomitable spirit, I am ready to embark on new horizons, eager to leave an indelible mark in the field of Information Science and beyond.

## **ABOUT ME**

---

As a final year student in Information Science and Engineering, my name is Preethi V Hiremath, and I have dedicated myself to honing my skills in this dynamic field. Throughout my academic journey, I have delved into the intricacies of software development, web design, and data analysis, striving to stay at the forefront of technological advancements.

To gain practical experience and industry exposure, I embarked on an exciting internship journey as a front-end developer and Node.js back-end developer at startups. These opportunities allowed me to apply my theoretical knowledge and delve into real-world projects. As a front-end developer, I had the incredible opportunity to create visually appealing and user-friendly interfaces. I dived into the world of HTML, CSS, and JavaScript, crafting responsive and interactive web applications.

Utilizing front-end frameworks such as Reacts, I developed robust and engaging user interfaces that brought ideas to life. Simultaneously, my internship as a Node.js back-end developer provided me with a deeper understanding of server-side web development. Working with Node.js, a powerful JavaScript runtime, I built scalable and efficient back-end systems. I became proficient in creating APIs, handling data persistence with databases like MongoDB, and implementing security measures to safeguard sensitive information.

When I'm not immersed in coding or expanding my knowledge through coursework, I find solace in the enchanting world of literature. Books have become my sanctuary, offering me a gateway to explore different perspectives, cultures, and ideas or catch up on latest series and movies. However, beyond the realm of academia and entertainment, one of my most cherished dreams awaits me – to travel the world. With each country I visit, I aspire to immerse in the wonders of each country, and embark on fascinating adventures that life has to offer.

## **ABOUT ME**

---

I'm Kaustubh Upadhyaya, hailing from the serene city of Gokarna. My life is an exciting blend of diverse interests and passions. I find immense pleasure and fulfillment in powerlifting, swimming, cricket and embarking on thrilling bike rides.

These hobbies not only keep me physically active but also provide an avenue to connect with others who share the same passion and provide me with a sense of freedom and adventure. When it comes to teamwork, I have a unique approach—I thrive as an independent thinker. I believe in charting my own path and taking charge of my own destiny. When it comes to my professional pursuits, I'm deeply passionate about the realms of machine learning, deep learning, and artificial intelligence.

The potential of these fields to unravel complex patterns, extract valuable insights, and make accurate predictions has always captivated my interest. I'm committed to honing my skills and knowledge in these areas to develop innovative solutions that can make a meaningful impact. Ultimately, my goal is simple yet profound: to strive for personal happiness and the happiness of my loved ones.

While I may engage in fewer interactions than most, it's not due to introversion or shyness but rather a conscious choice not to pursue superficial connections. With a blend of independence, expertise, and a thirst for knowledge, I'm excited to embark on an extraordinary journey that leaves a lasting mark on the ever-evolving journey of life.

## **ABOUT ME**

---

I am Koustubh B S, an Information Science and Engineering graduate from the class of 2023 at BMS College of Engineering, Bengaluru. With a natural affinity for problem-solving and a deep-seated love for technology, I've spent my years at BMSCE nurturing a dream of becoming an accomplished Site Reliability Engineer. I

in pursuit of this dream, I plan to further refine my skills with a master's degree abroad, equipping myself with the advanced knowledge needed in the rapidly evolving tech world. During my time at BMSCE, I was keen to make my mark and seized the opportunity to lead, serving as the Class Representative for three semesters and the Placement Coordinator for five. These roles allowed me to foster connections within the ISE department, essentially creating a vibrant network of colleagues and friends.

This experience has not only endowed me with exceptional interpersonal skills but also made me a recognizable face in the department. Living in Bengaluru, I make the most of the city's thriving tech ecosystem. I actively participate in Hacker Houses and Technical Meetups, where I get to interact with fellow tech enthusiasts and professionals. These gatherings have helped me stay abreast of the latest technological trends and innovations. In August 2023, I am thrilled to embark on my career as a Technical Associate Analyst with Oracle, marking the start of an exciting new chapter in my life. As I transition into the professional world, I am eager to maintain my connection with BMSCE. I firmly believe in giving back to the community that helped shape me, and I am keen on assisting my juniors and the college in any capacity possible. BMSCE holds a special place in my heart.

The college has been a catalyst for my transformation, imparting me with invaluable life skills and knowledge to face the real world confidently. The memories, experiences, and lessons learned here will remain with me as I continue on my professional journey.

## **ABOUT ME**

---

I am Sanjana N, a graduate of Information Science and Engineering from the batch of 2023 at BMS College of Engineering. My academic journey in this college has been nothing short remarkable. These past four years have been filled with unforgettable experiences that have shaped me into the person I am today. From the moment I stepped onto campus, I eagerly embraced the vibrant college life that awaited me.

One of the highlights of my college experience has been my active participation in extracurricular clubs and sports. It was a joy to be part of the organizing committee for Mountaineering club and organizing treks to teachers and students. It has played a major role in shaping my strong personality. Playing sports in college and representing BMSCE on various grounds have given me immense pride. Truly grateful for all the facilities and the support given by the department of sports, it has definitely helped me be the person i am today physically and mentally stronger to do much bigger things in the future.

Through these roles, I had the opportunity to meet a diverse range of talented people, each bringing their unique perspectives and experiences to the table and have taught me some minute aspects of being a strong individual in real life other than academics. I sincerely thank my teachers, friends and fellow classmates for adding major value to my life in terms of my personality development. In summary, my time as a student at BMS College of Engineering has been marked by unforgettable moments, personal growth, and exciting opportunities. From my active involvement in college events to meet such amazing people, I have nurtured a good sense of dedication towards my academic, professional and personal development.

As I embark on my future career, I am grateful for the experiences and skills gained during these transformative years.

## **ABOUT ME**

---

Hello! My name is Aditya Chakravarthi, and I am currently in my 8th semester of Engineering at BMS College of Engineering. It is a pleasure to introduce myself and share a glimpse of who I am and what motivates me. I am an enthusiastic and confident individual, always ready to take on new challenges and explore the possibilities that come my way. I firmly believe that a positive attitude can go a long way in shaping one's experiences and outcomes. Optimism has been my guiding force, allowing me to see the silver lining in every situation.

One of my strengths lies in my ability to connect with others and build strong relationships. I enjoy collaborating with diverse groups of people, valuing their unique perspectives and contributions. Working in a team allows me to leverage the strengths of others and achieve collective success. I am a good listener and communicator, always open to feedback and willing to adapt to the needs of the team.

Outside of academics, I have a variety of interests that bring joy and balance to my life. I am an avid sports enthusiast and actively participate in various physical activities. Sports not only keep me physically fit but also teach me valuable life lessons such as teamwork, discipline, and perseverance. Additionally, I am passionate about music and love exploring different genres. Playing an instrument and listening to music helps me relax and find inspiration.

In conclusion, I am Aditya Chakravarthi, an enthusiastic, confident, and optimistic individual pursuing engineering at BMS College of Engineering. While I may consider myself "dumb," I believe that intelligence encompasses more than just academic prowess. I am eager to learn and grow, embracing challenges with a positive attitude. I value collaboration and seek opportunities to connect with others, recognizing the power of teamwork. With an open mind and a determined spirit, I am excited to embark on the journey ahead, knowing that every experience will contribute to my personal and professional development.

## **ABOUT ME**

---

Greetings! My name is Aditya Kumar, and I am currently in my 8th semester of Engineering at BMS College of Engineering. It brings me great joy to introduce myself and offer you a glimpse into my personality and aspirations. First and foremost, I consider myself a genuinely happy person. I believe that happiness is a choice, and I actively choose to approach life with a positive mindset. Regardless of the challenges I may face, I strive to find the silver lining and maintain an optimistic outlook. This positivity not only fuels my own well-being but also allows me to spread happiness to those around me.

I am also an introvert by nature. While I may not be the most outgoing or talkative person in a crowd, I find solace and energy in quieter settings. Being an introvert doesn't mean I lack social skills or dislike interactions; rather, I thrive in deep, meaningful conversations with a few close friends. I value the power of introspection and enjoy spending time in self-reflection, which allows me to better understand myself and the world around me. When it comes to academics, I am a firm believer in the value of hard work and dedication. I have consistently demonstrated a strong work ethic throughout my engineering journey. I understand that success is not achieved overnight but through consistent effort and perseverance. I approach my studies with discipline and a desire to learn, always seeking to improve my understanding of the subjects I am passionate about.

In conclusion, I am Aditya Kumar, a happy, introverted, and hardworking individual pursuing my engineering degree at BMS College of Engineering. I choose to approach life with a positive mindset, valuing the power of introspection and meaningful connections. I am dedicated to my academic pursuits, always striving to learn and grow. Collaboration is important to me, and I appreciate the strengths and perspectives of others. I find solace in books and nature, seeking balance and well-being in my personal life. With a strong work ethic and a commitment to personal growth, I eagerly embrace the opportunities and challenges that lie ahead on my journey of self-discovery and professional success.

Hello! My name is Chandan S Nadig, and I am currently in my 8th semester of Engineering at BMS College of Engineering. It is a pleasure to introduce myself and share a glimpse of who I am and what motivates me. From an early age, I have been driven by a strong sense of motivation and a desire to achieve greatness in all aspects of my life. I firmly believe that one's attitude towards life shapes their destiny, and I choose to approach every situation with a positive outlook. This optimism not only helps me overcome challenges but also enables me to inspire those around me to see the brighter side of things.

Sports and physical fitness are also integral parts of my life. I believe in the importance of maintaining a healthy body to support a healthy mind. Regular exercise and participation in sports not only keep me physically fit but also enhance my focus, discipline, and resilience. In conclusion, I am Chandan S Nadig, a motivated, confident, and optimistic individual pursuing engineering at BMS College of Engineering. My passion for learning, problem-solving, and personal growth drives me to excel academically and professionally.

I thrive in collaborative environments and actively seek opportunities to make a positive impact on the world around me. With a positive outlook and a determined mindset, I am excited to embrace the challenges and opportunities that lie ahead, as I continue my journey towards becoming a successful engineer and a well-rounded individual.

## **ABOUT ME**

---

My name is Abhijeet Shukla, and I am currently pursuing my bachelor's degree in Information Science and Engineering from BMS College of Engineering in Bangalore. I have always been passionate about technology and its ability to shape our lives and society. Throughout my academic journey, I have gained a strong foundation in various aspects of information science, including programming, database management, network security, and data analytics. I am a dedicated and diligent student, always seeking opportunities to expand my knowledge and skills.

I believe in the power of collaboration and have actively participated in group projects and workshops, enhancing my ability to work effectively in a team. Apart from my academic pursuits, I am also involved in extracurricular activities, such as organizing tech events and volunteering for community service initiatives. I am eager to leverage my education, skills, and passion to contribute to the ever-evolving field of information science and make a positive impact on society. In addition to my academic pursuits, I have also developed a keen interest in exploring emerging technologies and their potential applications. I constantly strive to stay updated with the latest industry trends and advancements in information science. This curiosity has led me to engage in self-learning and personal projects, where I have honed my skills in areas such as artificial intelligence, machine learning, and cloud computing. I believe that a combination of theoretical knowledge and hands-on experience is crucial for a well-rounded education. Furthermore, I am a strong believer in the importance of continuous learning and professional development. I actively seek out opportunities to attend workshops, seminars, and conferences to expand my knowledge and network with experts in the field. Apart from my technical skills, I possess excellent communication and interpersonal skills, which enable me to effectively convey complex ideas and collaborate with individuals from diverse backgrounds. I have had the opportunity to work on multidisciplinary projects that required effective teamwork and coordination, and I take pride in my ability to adapt and thrive in such environments. As I approach the end of my bachelor's degree, I am excited about the prospects of applying my skills and knowledge in the professional world. I am eager to contribute to innovative projects, tackle complex problems, and make a meaningful impact.

## **ABOUT ME**

Highly rambunctious and have the personality of a dry cement wall. Keen interest in debates and a member of the debate club driven by my passion to argue with parents.

About as committed in life as software engineers are to their jobs. If I had to sum up the last 4 years, it'd be a rollercoaster - a malfunctioning one at that. If engineering taught me one thing, it is that I should've achieved more in life to fill this paragraph with something more insightful.

At the persuasion of my proctor, I should also mention that I have a few accomplishments such as successfully carrying out internships at Bosch Global Software Technologies and AT&T, while also being a part of a research project at IISc.

My next biggest accomplishment happens to be securing this degree, which at the time of writing this, is still uncertain, so there's that.

**NAME : SHREYAS G**  
**USN : 1BM19IS154**

**B.M.S, COLLEGE OF ENGINEERING**

## **ABOUT ME**

---

I consider myself a fun-loving and hardworking person who enjoys bringing a touch of joy to every situation. With a zest for life, I find great pleasure in reading books and immersing myself in captivating stories that transport me to different worlds.

Sports like badminton and basketball are my go-to activities, where I find solace and an opportunity to challenge myself. Additionally, organizing events is something I genuinely enjoy, as it allows me to create memorable experiences for others. I had the honor of serving as the president of the debate club, where I fostered meaningful discussions and encouraged diverse perspectives.

Music is my source of inspiration and relaxation, and laughter is a language I fluently speak.

So, if you ever need a companion to share a good laugh or create moments of lightheartedness, I'm here with an open heart and a ready smile.

## **ABOUT ME**

---

My name is Venkatesh C and I will be graduating from BMS College of Engineering with a B.E. degree very soon. I am a very quiet person. I am selectively extroverted.

I am also very athletic and I enjoy playing and watching sports. I got placed in EY india through the college placement system. My strengths are Teamwork, Resilience and Troubleshooting. However, my shyness occasionally holds me back from fully expressing myself and engaging confidently in social situations. I have a passion for sports, with golf taking center stage.

I find solace and fulfilment in the serene environment of the golf course, honing my skills and immersing myself in the intricacies of the game. During my free time, I enjoy playing and watching sports that include sports like Football, Golf Badminton, Cricket etc. In the long term, my goal is to develop strong technical skills that will place me in a favorable position at a reputed company.

I am excited about the opportunities that lie ahead and look forward to applying my knowledge and skills in the real world.

Roshan Warriar, hailing from Trivandrum, Kerala, has made significant strides in his academic and professional journey since relocating to Bangalore seven years ago. Currently pursuing his Bachelor's degree in Engineering at B. M. S. College of Engineering, specializing in Information Science,

Roshan has also immersed himself in the dynamic field of Data Science and Machine Learning, which has become his primary area of interest. Alongside his studies, Roshan excels as a Causal AI Engineer at Datma, where he utilizes his skills and knowledge to contribute to cutting-edge projects. Outside of his academic and professional pursuits,

Roshan cultivates various hobbies that showcase his diverse range of interests and talents. He finds enjoyment in playing competitive video games, building mechanical keyboards, engaging in skateboarding adventures, and honing his video editing and design skills. Roshan's multifaceted nature is further reflected in his active participation as a member of the Utsav Design Team during the College Cultural Festival and his previous role as the house sports captain during his schooling years. With a wealth of experiences and a dedication to his chosen fields,

Roshan Warriar continues to carve a remarkable path towards excellence in both academia and the professional realm.

## **ABOUT ME**

---

My name is Sughosh Durg, and I am currently pursuing a Bachelor's degree in Engineering with a specialization in Information Science at B.M.S. College of Engineeri.

I had the incredible opportunity to intern at Eli Lilly and Company, where I worked as a data engineer. It was during this internship that I discovered my strong interest in problem-solving and building projects that have a wide reach.

Currently, I am employed as a data engineer at Eli Lilly, where I continue to harness my skills and contribute to data-driven initiatives within the organization. Outside of my professional life, I find great pleasure in engaging in various activities. Gaming is one of my favorite pastimes, as it allows me to explore different worlds and challenge my strategic thinking. I also enjoy indulging in movies, as they transport me to different narratives and inspire my creativity.

Additionally, cricket holds a special place in my heart, and I eagerly follow the sport whenever I have the chance. Overall, I am a dedicated individual with a passion for problem-solving, utilizing data, and creating projects that make a difference. With my diverse interests and commitment to excellence, I am excited to continue making a positive impact in the realm of technology.

Hello, my name is Sushanth, and I'm a passionate individual with a background in Information Science and Engineering. As a graduate in this field, I possess a deep understanding of technology and its applications in various domains.

One of my interests lies in the world of bikes. I find the mechanics and engineering behind motorcycles fascinating, and I enjoy staying up-to-date with the latest advancements in this industry. Exploring different models and taking exhilarating rides is an exciting way for me to unwind and experience a sense of freedom.

Moreover, I am intrigued by the intersection of business and technology. Understanding how technology can transform and optimize various aspects of the business world excites me. I enjoy exploring innovative ideas and solutions that have the potential to enhance operational efficiency, drive growth, and create positive impacts on organizations and society as a whole.

Overall, I am a curious and driven individual, constantly seeking opportunities to expand my knowledge and make a meaningful impact through my interest in bikes, and my passion for exploring the business and technology landscape.

---

My name is Shreya, and I am a dedicated individual with a degree in Information Science and Engineering. I have a strong affinity for technology and its applications in various fields. Being Jain is an integral part of my identity, and I find solace and inspiration in practicing the principles of Jainism.

The teachings of non-violence, truth, and compassion have shaped my perspective and influence the way I approach life and interact with others. Coding is one of my greatest passions. I find immense joy and satisfaction in crafting elegant and efficient solutions through programming. The ability to bring ideas to life through code is both empowering and exhilarating for me.

I am constantly honing my coding skills and exploring new technologies to stay at the forefront of this rapidly evolving field. Beyond academics and technology, I am a firm believer in leading an active lifestyle. Engaging in physical activities such as sports, yoga, or hiking not only keeps me fit but also helps me maintain a balanced and focused mindset. It allows me to channel my energy effectively and enhances my overall well-being. Driven by my passion, I am always seeking new challenges and opportunities to make a positive impact. I am a curious learner, constantly expanding my knowledge and embracing new experiences.

With a strong foundation in information science and engineering, coupled with my commitment and enthusiasm, I am eager to contribute to the ever-evolving world of technology and make a meaningful difference in the lives of others.

## **ABOUT ME**

---

I am Amisha, a native of Udupi-Kundapura, a beautiful city located in Karnataka, India. From a young age, I have been captivated by the world of technology, and my passion for software coding runs deep. I am dedicated to honing my skills in this field and keeping up with the latest advancements, always striving to solve complex problems and create innovative solutions.

Currently, I am working as an intern at SIXT, a prestigious organisation renowned for its expertise in technology. This opportunity has granted me the privilege of working alongside highly talented individuals, gaining invaluable hands-on experience, and expanding my industry knowledge.

I consider myself fortunate to learn and grow every day, continuously pushing myself to reach new heights in my career. While my determination to excel in my professional endeavours is unwavering, I also ensure that I make time for my favourite cultural activities during my leisure hours. This balance between my passion for coding and the joy I find in dancing, engaging in cultural events, and playing chess energises and motivates me, enabling me to achieve greater heights in both areas.

I approach the journey ahead with excitement, eager to learn and embrace new opportunities that come my way. My commitment to continuous growth and my relentless pursuit of excellence drive me to make a significant impact in the field of software development and beyond.

---

Ananya Hebbar, a radiant soul born and raised in the picturesque town of Kundapur, nestled in the heart of Udupi. I am an avid adventurer, finding solace in the embrace of nature through trekking, while also expressing my creativity through coding and photography.

During my academic journey, I have actively engaged in various extracurricular activities. As a member of the organizing committee in the ISE student club, I contributed my creativity and dedication to create unforgettable experiences for my peers. Additionally, as part of the Chirantana Kannada Club at BMSCE, I had the privilege of hosting college-level programs as an anchor, guiding audiences through captivating events. One of my most cherished experiences was organizing a robotics workshop during Phase shift 2022, where I fostered a spirit of innovation among fellow students.

As a placement coordinator, I facilitated valuable career opportunities for my peers, witnessing their dreams turn into reality. My academic journey has kindled a strong passion for technology and coding, which I constantly nurture through relentless learning and exploration. This passion was recognized when I was selected for the esteemed CTY program by HPE, where I spent four months as a project intern, working with diverse tech stacks.

Now, I am thrilled to embark on an exciting new chapter as a full-time employee at Oracle. I am eager to contribute my skills and knowledge to make a meaningful impact in the world of technology. I am excited about the journey ahead, eager to learn, and open to new opportunities that come my way.

## **ABOUT ME**

---

I am Asritam Aniruddh Bharadwaj currently pursuing final year B.E in field of Information Science .As an information science student , I possess a deep understanding of the intricate relationship between technology, data, and information management.

Equipped with a strong foundation in computer science, data analysis, and information systems, I am well-versed in the principles and methodologies that drive the effective organization and utilization of information in diverse contexts. With expertise in database management, data mining, and information retrieval, I am skilled at extracting valuable insights from large datasets and transforming them into actionable knowledge.

My comprehensive knowledge of programming languages, such as Python and SQL, enables me to develop robust software applications and implement innovative solutions to optimize information workflows. Additionally, my experience in information architecture and user experience design equips me with the ability to create intuitive interfaces and user-centered systems. Through my analytical mindset and problem-solving abilities, I am adept at identifying information needs, designing efficient information systems, and implementing data-driven strategies to enhance decision-making processes.

As an information science graduate, I am driven to leverage technology and information management principles to drive meaningful advancements in various industries and contribute to the evolution of the digital age.

## **ABOUT ME**

---

Greetings!! I am Vineetha K and I am currently a fourth year Engineering student pursuing a Bachelor's of Engineering in the course Information Science & Engineering. While pursuing my college education, I have embarked on a journey of personal growth and exploration. Throughout my college years, I engaged in numerous projects that allowed me to apply my academic knowledge in practical settings. These projects helped me develop critical thinking, problem-solving, and teamwork skills, which have proven invaluable in my post-college endeavors.

Apart from academics, I actively participated in sports, particularly kho-kho and table tennis. Through my dedication and perseverance, I not only honed my athletic abilities but also cultivated leadership skills. Leading my team and coordinating strategies during matches taught me the importance of effective communication, adaptability, and decision-making under pressure. One aspect that has remained constant in my life is my passion for learning and self-development. I have always sought opportunities to acquire new skills and knowledge, be it through online courses, workshops, or engaging with experts in various fields.

In conclusion, my college years were a transformative period in my life, marked by academic achievements, involvement in projects, sports, personal growth, and invaluable life lessons. The experiences I gained, the friendships I formed, and the support of my family have shaped me into the person I am today, ready to face new challenges with enthusiasm and determination.

## **ABOUT ME**

---

Meet Me, a remarkable individual whose zest for life knows no bounds. At the youthful age of 21 years, I already embarked on a fulfilling journey of self-discovery and exploration. Hailing from an unknown location,

Tanvi's vibrant personality shines through her various passions and experiences. Education has played a pivotal role in shaping my intellectual prowess and curiosity.

Having pursued her studies at BMSCE (B.M.S. College of Engineering), I have honed my analytical and critical thinking skills, laying a strong foundation for future endeavors. My dedication to academic excellence and thirst for knowledge have helped her flourish both inside and outside the classroom. One of my defining qualities is kindness, which radiates through my interactions with others. She possesses a compassionate nature, always willing to lend a helping hand to those in need.

Whether it's offering words of encouragement, volunteering for community service projects, or simply being a supportive friend, Tanvi's genuine care for others creates a positive impact on those around her.

## **ABOUT ME**

---

Embarking on a transformative journey over the past four enriching years, I have emerged as a dynamic engineering graduate, ready to make a significant impact in the world. Fueled by an insatiable passion for knowledge and a relentless pursuit of excellence, my academic achievements and practical experiences have shaped me into a well-rounded professional poised to tackle complex engineering challenges.

The courses which were offered have provided me with a solid understanding of fundamental engineering principles. I have also actively participated in practical projects, engaging in team-based assignments that have sharpened my problem-solving abilities and fostered effective collaboration.

With a strong academic background, practical experience, and a passion for engineering, I am now seeking an opportunity to apply my skills and contribute to a dynamic organization. I am eager to collaborate with a team of like-minded professionals to solve complex problems, innovate new solutions, and make a positive impact on the world through engineering excellence.

If given the chance, I am confident that my dedication, technical proficiency, and strong work ethic will allow me to excel and contribute to the success of any engineering endeavor.

## **ABOUT ME**

---

I'm Paavani Ramakrishna, a confident and resilient soon-to-be graduate from BMS College of Engineering, specializing in Information Science. This esteemed institution has played an instrumental role in shaping my academic and personal growth, providing me with a solid foundation in technology and a passion for continuous learning.

During my college years, I had the privilege of being a part of the college volleyball team, where I immersed myself in the spirit of teamwork, discipline, and perseverance. Competing in various tournaments, I not only honed my athletic skills but also developed qualities that extend far beyond the court - qualities that have shaped me into the person I am today. Beyond my academic and athletic pursuits, I carry myself with confidence in all aspects of my life. I firmly believe in my abilities and talents, which allows me to approach new experiences and opportunities with a positive mindset.

This unwavering self-assurance enables me to take calculated risks, step outside my comfort zone, and continuously push the boundaries of what I can achieve. As I reflect on my college journey, I cannot overlook the immense challenges and struggles I faced during the unprecedented times of the pandemic. The pandemic brought about a whirlwind of uncertainties, affecting not only the academic realm but also my personal life. Navigating through the uncharted territories of isolation, anxiety, and constant change required an unwavering resilience. However, I confronted these difficulties head-on, refusing to let them define me or hinder my progress.

I approach the future with an unwavering resolve, confident in my ability to adapt, innovate, and contribute meaningfully in an ever-changing world.

## **ABOUT ME**

---

As a student of Information Science and Engineering, I stand on the precipice of an exciting new chapter in my life. Beyond my academic pursuits, I am a person brimming with curiosity, fueled by a relentless desire to explore the depths of knowledge and unravel the intricacies of the world around me.

I find solace and exhilaration in the art of problem-solving, relishing the intellectual challenges that come my way. In the realm of AI, ML, and Data Modeling, I have discovered not only a professional passion but also a personal fascination that drives me to delve deeper, to push boundaries, and to continuously learn and grow.

The intersection of technology and human ingenuity captivates me, and I am driven by a profound belief in the power of data to unlock transformative insights and shape a better future. But beyond my academic pursuits and professional ambitions, I am a person who values empathy, collaboration, and making a positive impact on the lives of others.

I believe in the potential of technology to bridge gaps, to foster inclusivity, and to create a more equitable society. With an open heart and an unwavering dedication to personal and professional growth, I am poised to embrace new opportunities, forge meaningful connections, and leave an indelible mark not only in the world of AI, ML, and Data Modeling but also as a compassionate and driven individual.

## **ABOUT ME**

---

My name is Tushar Ramesh Chopra, and I am currently pursuing my undergraduate degree in Information Science Engineering at BMS College of Engineering. Throughout my academic journey, I have demonstrated a keen interest in the field of information technology, particularly focusing on Deep Learning, Web Deployment using Python, and Artificial Intelligence. During my time as a student, I have actively engaged in projects that span various domains, including Deep Learning and Web Deployment.

These experiences have not only equipped me with practical skills but also nurtured my ability to apply theoretical concepts to realworld scenarios. By working on these projects, I have gained a comprehensive understanding of these domains and have honed my problem-solving abilities.

My passion lies in exploring the intricacies of Deep Learning, AI, and Computer Networks. I consistently strive to stay updated with the latest advancements and emerging technologies within these fields. By immersing myself in research, attending seminars, and participating in relevant workshops, I ensure that my knowledge remains current and relevant.

To achieve my goals, I am committed to continuous learning and growth. I actively seek out opportunities to expand my knowledge, enhance my skill set, and collaborate with like minded individuals. By combining my technical acumen with a business-oriented mindset, I am confident in my ability to contribute to the industry and make a meaningful impact.

## **ABOUT ME**

---

My name is Nikhil V Wadhwa, and I am a dedicated student enrolled in the UG program at BMS College of Engineering. With a strong passion for technology, I have actively pursued projects in the deep learning domain, showcasing my proficiency in this field.

My primary areas of interest within the IT industry revolve around the realms of Deep Learning, Artificial Intelligence, and Computer Networks. Driven by an entrepreneurial mindset, my aspirations extend beyond academic pursuits.

I aim to leverage modern tools and cutting-edge products to make a significant impact in large markets. With a focus on innovation and a keen eye for emerging trends, I am committed to transforming ideas into successful ventures. Through my experiences and education, I am continuously developing a robust skill set to navigate the dynamic landscape of the IT industry. I am enthusiastic about utilizing my expertise in deep learning, AI, and computer networks to create groundbreaking solutions that address complex challenges.

By blending my technical acumen, business acuity, and a forward-thinking approach, I strive to establish myself as an accomplished entrepreneur. I am eager to embark on a path that will not only foster personal growth but also positively impact society through transformative technology solutions.

## **ABOUT ME**

---

I am Mithun BM, a highly motivated individual with a Bachelor's degree in Information Science Engineering. Currently, I am immersed in the exciting journey of learning as a dedicated student. My educational background has equipped me with a solid foundation in understanding and harnessing the power of information technology. One of my greatest strengths lies in my ability to solve complex problems.

I am naturally inclined towards analytical thinking and thrive in situations that require innovative solutions. I take immense pride in my knack for identifying obstacles and devising strategies to overcome them. Whether it's troubleshooting a technical issue or streamlining a process, I find great satisfaction in untangling intricacies and delivering effective results. Aside from my passion for problem-solving, I possess a strong drive to create impactful projects that cater to the needs of a large audience. Building solutions that positively influence the lives of numerous individuals is a deeply fulfilling experience for me. From designing user-friendly applications to developing efficient software systems, I constantly strive to push the boundaries of what can be achieved.

In conclusion, I am Mithun BM, a dedicated student, problem-solver, and aspiring creator. My education, coupled with my enthusiasm for building projects that make a difference, fuels my pursuit of excellence. Balancing my academic endeavors with diverse hobbies like gaming, origami, chalk carving, watching movies, and cricket helps me maintain a well-rounded and fulfilled life. I am excited about the opportunities that lie ahead and look forward to utilizing my skills and passions to contribute meaningfully to the world around me.

---

My name is Darshan Hirani, and I am currently enrolled in the Information Science and Engineering program at BMS College of Engineering in Bangalore. I have always been fascinated by technology and its transformative effects on society.

Throughout my academic journey, I have acquired a solid understanding of various aspects of information science, including programming, database management, network security, and data analytics. Diligence and dedication define my approach to learning, and I continuously seek opportunities to expand my knowledge and skills in this field.

Collaboration plays a significant role in my academic pursuits, as I actively engage in group projects and workshops to enhance my teamwork and problem-solving abilities. In addition to my studies, I also participate in extracurricular activities, such as organizing tech events and volunteering for community service initiatives. By leveraging my education, skills, and passion, I aspire to contribute to the ever-evolving field of information science and create a positive impact on society.

Approaching the conclusion of my bachelor's degree, I am enthusiastic about applying my skills and knowledge in the professional world. I am eager to contribute to innovative projects, tackle complex problems, and make a meaningful impact. With a strong foundation in information science and a passion for lifelong learning, I am confident in my ability to embark on a successful and fulfilling career in this ever-evolving field.

## **ABOUT ME**

---

I am Pranav Kulkarni, a final-year undergraduate student pursuing a degree in Information Science and Engineering from BMS College of Engineering, Bangalore. I am excited to share my profile, highlighting my academic achievements, interests, and professional experiences. I am currently in the final year of my UG degree in Information Science and Engineering. I have developed a deep passion for technology and its potential to bring about positive change.

I am driven to utilize my skills and knowledge to contribute to the betterment of society. I firmly believe that with the right application of technology, we can make a significant impact on the world. I have a strong passion for sports and enjoy exploring various activities that challenge me. Basketball and football are two sports that have captured my heart, allowing me to immerse myself in the thrill of teamwork and competition. Furthermore, I love exploring new things and pushing beyond my comfort zone to expand my horizons. This curiosity has helped me discover hidden talents and develop a versatile mindset.

My ultimate goal is to leverage my knowledge, skills, and passion for technology to be a catalyst for positive change. I aspire to create meaningful and impactful solutions that address critical societal issues, improving the lives of individuals and communities. With unwavering determination, I am committed to pursuing a career that allows me to make a tangible difference in people's lives.

Thriving on challenges and continuous learning, I adapt to new technological advancements, while my involvement in extracurricular activities and community engagement has honed my leadership skills and deepened my understanding of collaboration and innovative problem-solving. Through this, I seek to contribute to a better society by utilizing my expertise and passion for technology.

## **ABOUT ME**

---

My name is Monisha S, and I was born in Bangalore. I pursued my education at BMS College of Engineering, where I obtained my degree. Currently, I am working at Mercedes Benz R&D, a renowned multinational technology company.

Throughout my academic journey, I developed a strong passion for technology and its applications. This drove me to pursue a career in the tech industry. At Mercedes Benz, I have been fortunate to work with a team of talented professionals and contribute to various projects and initiatives. In my role at Benz, I have gained valuable experience in areas such as software development, system architecture, and problem-solving. I have had the opportunity to work on cutting-edge technologies and collaborate with clients to deliver innovative solutions. It has been a rewarding experience to contribute to the development of impactful solutions that address real-world challenges.

Outside of work, I enjoy staying updated with the latest advancements in the tech industry. I am constantly exploring new technologies and tools that can enhance my skills and broaden my knowledge. I believe in lifelong learning and strive to improve myself both personally and professionally.

In my free time, I enjoy engaging in activities that help me relax and rejuvenate. I have a keen interest in music and often find solace in playing musical instruments. Additionally, I am an avid reader and love immersing myself in books that range from fiction to self-improvement. Overall, I am grateful for the opportunities I have had and the experiences I have gained so far in my career. I look forward to continuing my growth in the field of technology and making a positive impact through my work at Benz and beyond.

## **ABOUT ME**

---

I'm Chitra C, a dedicated and aspiring student at BMS College of Engineering working towards a degree in Information Science and Engineering. My ambition is to make use of my knowledge of technology and zeal for it to contribute to better society. I absolutely think that with the proper use of technology, we can achieve enormous advancements and transform the world. I'm passionate about an array of interest beyond my education that makes me cheerful.

By taking part in arts and crafts activities, I am able to exhibit my creativity and give life to my ideas. Either listening to music or reading inspirational literature may be enjoyable and inspiring activities. I love to travel since it helps me to discover new cultures and places. I'm also really interested in staying updated with technology because it offers so many opportunities. Overall, my interests generally show my passion of creativity and adventure.

I pursued diploma in computer science and engineering after finishing my tenth grade. I was an active member of extracurricular activities all the way through college. I improved my leadership abilities and encouraged teamwork among my classmates in my role as the Class Representative. My interpersonal skills have improved as a result of these experiences, which have also highlighted the value of community involvement.

My confidence, optimism, and helping attitude distinguish me. I believe in my abilities to overcome obstacles and positively affect people. Being compassionate and assisting people in need makes me proud. Through mutual assistance, I hope to foster a helpful and empathetic community.

## **ABOUT ME**

---

Hello, my name is Khushi, and I am currently pursuing a degree in Information Science Engineering at BMS College Of Engineering.

With a calm and focused mind, I approach challenges and opportunities with a determined and positive attitude. I possess strong leadership qualities, which have allowed me to effectively collaborate with others and take charge when necessary.

Alongside my academic pursuits, I am deeply passionate about dance, music, and traveling. These hobbies have helped me develop a well-rounded perspective and a keen appreciation for different cultures and art forms. In terms of technical knowledge, I have a solid foundation in Python, C++, and data visualization. This expertise enables me to analyze and interpret complex information, making data-driven decisions to solve problems effectively.

With my unwavering dedication and enthusiasm, I am ready to embark on a fulfilling career that combines my technical skills and creative interests.

## **ABOUT ME**

---

My name is Nihith, and I am currently pursuing a degree in Information Science at BMS College of Engineering.

With a calm and composed mindset, I possess strong leadership qualities that have allowed me to excel in various aspects of my life. Apart from my academic pursuits, I have a deep passion for music and traveling, which fuel my creativity and broaden my horizons.

In terms of technical skills, I have a solid foundation in programming languages such as Python, C++, and Java. These skills have enabled me to develop innovative solutions and tackle complex problems in the field of engineering. I thrive in challenging environments that require logical thinking and problem solving abilities. T

hroughout my academic journey, I have actively participated in various leadership roles, both in my college and within extracurricular activities. These experiences have honed my organizational skills, teamwork, and effective communication, enabling me to successfully collaborate with diverse teams to achieve common goals.

## **ABOUT ME**

---

I'm Umashree, a dedicated and aspiring student at BMS College of Engineering working towards a degree in Information Science and Engineering.

My ambition is to make use of my knowledge of technology and zeal for it to contribute to a better society. I absolutely think that with the proper use of technology, we can achieve enormous advancements and transform the world. I'm passionate about an array of interests beyond my education that makes me cheerful. By taking part in arts and crafts activities, I can exhibit my creativity and give life to my ideas.

Either listening to music or reading inspirational literature may be enjoyable and inspiring activities. I love to travel since it helps me to discover new cultures and places. I'm also really interested in staying updated with technology because it offers so many opportunities. Overall, my interests generally show my passion for creativity and adventure.

I pursued a PU in Electronics stream after finishing my tenth grade. My interpersonal skills have improved because of these experiences, which have also highlighted the value of community involvement. I am a hardworking, honest individual. I am a good timekeeper, always willing to learn new skills. I am friendly, helpful, and polite, and have a good sense of humor. I can work independently in busy environments and also within a team setting. My confidence, optimism, and helping attitude distinguish me.

I believe in my abilities to overcome obstacles and positively affect people. Being compassionate and assisting people in need makes me proud. Through mutual assistance, I hope to foster a helpful and empathetic community.

## **ABOUT ME**

---

Hello, my name is Vidhit Kotak, and I am currently in my 8th semester of Engineering at BMS College of Engineering. Throughout my academic journey, I have developed a strong passion for cybersecurity, which has led me to explore various aspects of this dynamic field. I

consider myself a diligent and smart working individual who approaches tasks with meticulous attention to detail. I believe that success lies in not only working hard but also working smartly to achieve desired goals. This mindset has allowed me to excel in my academic pursuits and handle challenging projects effectively.

As I progress in my academic journey, my ultimate goal is to build a career in the field of cybersecurity. I am fascinated by the ever-evolving nature of cybersecurity challenges and the critical role it plays in safeguarding digital infrastructure.

I am constantly seeking opportunities to enhance my knowledge and skills in this domain, and I am open to exploring various areas within cybersecurity, such as network security, ethical hacking, and data privacy.

In conclusion, I am Vidhit Kotak, a dedicated and enthusiastic individual pursuing my engineering degree at BMS College of Engineering. With a strong inclination towards cybersecurity, a love for sports like football and basketball, and a passion for online gaming, I strive to excel academically while nurturing my diverse interests. I look forward to the exciting opportunities and challenges that lie ahead, and I am committed to making a meaningful contribution to the world of cybersecurity.

## **ABOUT ME**

---

I, Paar muhilan, an optimistic and hardworking individual with a deep passion for technology. Their enthusiasm for all things tech-related is contagious, as they constantly strive to stay up-to-date with the latest advancements and trends in the digital world.

Alongside their tech endeavours, [Your Name] possesses an unwavering love for cricket, finding joy and excitement in the exhilarating game. Additionally, they have a knack for the keyboard, whether it's typing away on their computer or playing melodious tunes on a musical keyboard. With a combination of optimism, dedication, and an insatiable curiosity for technology. I embark on a journey to make a meaningful impact in the world.

Your Name] is not only an optimistic and hardworking individual, but also a highly motivated and driven person. They approach every challenge with determination and a strong work ethic, consistently pushing themselves to achieve their goals. Their passion for technology fuels their desire to learn and grow, constantly seeking new opportunities to expand their knowledge and skills. When they're not immersed in the world of technology, [Your Name] finds solace in the realm of cricket. The thrill of the game and the camaraderie it fosters bring them immense joy and fulfilment.

Moreover, their love for the keyboard extends beyond the realm of technology, as they find great pleasure in expressing themselves through music. Whether they are creating melodies or typing away at a project, [Your Name] combines their diverse interests with a zest for life, making them a dynamic and engaging individual.

## **ABOUT ME**

---

My name is Kshitij Malik, and I am a Cybersecurity Analyst hailing from the vibrant city of Mumbai. With a strong passion for technology and a keen interest in fields like Cybersecurity, forensics, offensive security, AI, and Web Design, I am constantly immersed in the ever-evolving world of digital protection. I thrive on the challenges and complexities presented by these domains, always seeking to expand my knowledge and stay at the forefront of technological advancements.

Together, my professional interests and personal hobbies make me a well-rounded individual who is dedicated to making a positive impact in the cybersecurity field. With a deep appreciation for my hometown of Mumbai, its bustling environment has shaped my work ethic and instilled in me a drive for continuous improvement. I am excited to face new challenges, learn from every experience, and contribute meaningfully to the ever-changing world of technology and digital security.

Outside of my professional pursuits, I engage in a diverse range of hobbies that fuel my creativity and provide a balance to my life. Whether it's playing poker and honing my strategic thinking skills, participating in sports like football and basketball to stay physically active, or expressing myself through DJing, music, and painting, I find joy and fulfillment in these outlets. Each of these activities allows me to explore different aspects of my personality, keeping me motivated and inspired.

## **ABOUT ME**

---

My name is Srinivas B A born and brought up in Bangalore. I am currently pursuing BE degree in BMS College of Engineering. My current CGPA is 7.6. I did my diploma in RJS(Reddy Jana Sangha) Polytechnic College, Koramangala and scored 81% and completed my 10th with 86.24%.

I have developed various ways of approaching problems from different angles and finding innovative solutions. One of my skills is practical based approach and its good for understanding the concept clear. Beyond academics I am deeply passionate about the field of Cyber Security, constantly exploring ways to work my skills in enhancing digital safety and protect against latest emerging threats.

Other than that I love gaming and its fun and needs a bit of strategic thinking to play. I think that by using learned skills and qualifications and passion to make positive impact in society. I have a strong passion for the field of cybersecurity. Training through 2 month Internship from “1Stopai”, gaining practical knowledge related to common web attacks and pen testing. Apart from this passing Certified Ethical Hacker v11(CEH) from EC-Council and gaining practical skillset and insights about pen testing and Ethical Hacking. I also participated in various social causes such as plugging, Book Drive, Remote teaching etc.

With strong commitment to Cybersecurity, a passion for education, and a drive to make a difference I am eager to contribute my skills and knowledge to create safer and more connected to digital world.

## **ABOUT ME**

---

Hello! I'm a last semester student pursuing a degree in Information Science and Engineering. With a strong foundation in various programming languages such as C++, Python, and web development technologies like HTML, CSS, and JavaScript, I'm equipped with a versatile skill set. I also have hands-on experience in DevOps, deep learning, machine learning, big data, cloud computing, and databases like SQL and MySQL.

In one of my notable projects, I developed an online shopping system using PHP and SQL for backend, along with HTML, CSS, and JavaScript for the frontend. This comprehensive e-commerce platform showcased features such as product catalog management, user authentication, shopping cart functionality, and efficient order management.

Another impactful project I worked on was the creation of a mood-based recommendation system called "Moodkit." Using Python (Flask), HTML, and CSS, I developed a web application that detected facial emotions and recommended songs and movies based on the user's mood. This involved implementing features like emotion detection, sentiment analysis, and mood visualization, providing a personalized and engaging user experience.

With a passion for emerging technologies, a drive to collaborate with diverse teams, and a commitment to continuous learning, I'm always eager to contribute my skills to innovative projects. If you're seeking a dedicated professional with expertise in various domains of information science and engineering, I'd be delighted to connect and explore how I can add value to your organization. Let's embark on an incredible journey together!

## **ABOUT ME**

---

I am Tejaswini V, a determined and highly skilled individual with a passion for technology and continuous learning. Known for my positive outlook and optimistic demeanor, I believe in fostering a supportive and inclusive work environment. My technical expertise encompasses programming languages such as C, C++, Java, Python and GO. I also have a solid understanding on data structures and algorithms, operating systems and networking along with database management systems like SQL, Postures, and MongoDB. The concept of Cloud Computing has always captivated my interest, leading me to gain hands-on experience with AWS and GCP platforms.

As an ambient, I have the ability to thrive in both social interactions, where I enjoy meeting new people, and in solitary moments, where I appreciate and value my alone time. I am a good listener, valuing the input of others and fostering effective collaboration. My problem-solving skills and attention to detail enable me to analyze complex issues and develop innovative solutions. I am consistent in delivering high-quality work and maintain a strong work ethic. In terms of achievements, I have interned at Hewlett Packard Enterprise as a CTY project intern in 2022 and R&D intern in 2023, gaining valuable industry experience.

I prioritize personal growth and well-being. I am fully committed to making a positive difference in the technology industry and other areas, thanks to my upbeat attitude, exceptional technical and interpersonal abilities, and my dedication to personal and professional development. I tackle every opportunity with excitement, eagerly seeking collaboration with skilled individuals and striving to contribute to the achievements of any team or organization I join.
