Nettur Technical Training Foundation (NTTF) INDUSTRIAL VISIT

Date of Visit: March 11, 2025 On March 11, 2025, a group of 34 students from the BMS College of Engineering (BMSCE), Bangalore, embarked on an educational visit to the Nettur Technical Training Foundation (NTTF) in Bangalore. This visit aimed to provide students with practical insights into technical education and vocational training. It offers them an opportunity to observe state-of-the-art workshops, cutting-edge machinery, and hands-on learning methodologies. Students can interact with skilled trainers, understand industry-oriented curriculum structures, and witness how theoretical concepts are applied in real-world manufacturing and engineering environments.

We are grateful to **Mr. Ananad.B, Vice President, N.T.T.F, Peenya Campus** for giving us permission for this Industrial Visit, as well as the dedicated its employees for their patience with us. We are thankful to the Principal, BMS College of Engineering, Bengaluru, for all encouragement and guidance provided in undertaking the industrial visit. We are also thankful to the Head of Department, Department of Industrial Engineering and Management, for actively encouraging, guiding and facilitating the Industrial Visit. We also wish to thanks vice Principal BMSCE for all the facilities provided for undertaking the Industrial Visit.

CIM TOOLS INDUSTRIAL VISIT

An Industrial Visit was undertaken for the V Semester Students of Department of Industrial Engineering and Management on 23rd August 2025 to CIM TOOL India Ltd. KIADB Industrial Area. Devanahalli. Bangalore 562110. Accompanied them were faculties Mr. Mayur Appaiah. and technical staff Mr. Suresh. About 34 students took part in the visit. The team reached the CIM TOOL India Ltd. KIADB Industrial Area. Devanahalli at about 11:00 am. After the Security Clearances, the team was grouped into subgroups and introduced to the company representatives who were about to guide the team. CIM Tools was founded in 1997 by Mr. Srikanth G.S, Mr. Umesh A.S and Mr. V P Deshpande, who are all first-generation entrepreneurs and is based out of Bengaluru. It is a leading aerospace machining company in India supplying to major Aerospace OEMs and Prime.
