Brief summary of the Programme:

41 students from Fifth semester of Medical Electronics Engineering department visited InnAccel on the 22nd of November, 2022. Dr. Jisha P, Dr Vani and Mr. Panduranga Kulkarni accompanied the students for the visit. Students were introduced to the medical equipment designed by the InnAccel team, like SAANS which is an external breathing support for neonates, they focused on its working and the building blocks of the product which is successfully helping the neonates. Students also interacted with the Design Head, the Testing Engineer and BMSCE seniors who have been interning there to get a deeper understanding. They gave a brief explanation about the projects that they're working on. On a whole, it was a very informative and interactive visit.

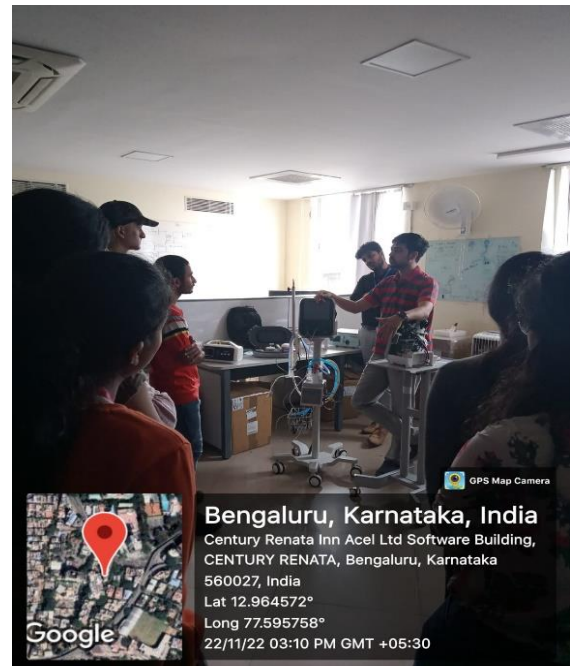

Outcomes:

This industrial visit educated participants about the importance of healthcare monitoring devices and the importance of external breathing support in the field of healthcare.
