Report

The Department of Biotechnology conducted a session on "Entrepreneurial opportunities" on May 24th 2023 for 6th semester BE Biotechnology students. The resource person was Ms. Jahnavi Rao who is the Co-Founder of Reti Ecotech, Bangalore. Ms. Jahnavi Rao is Alumnus of Biotechnology. The session emphasized identifying opportunities to start new enterprises or start up with innovative ideas. Ms. Jahnavi also emphasized the importance of biotechnological techniques to develop sustainable solutions. The students were made aware of different challenges encountered in developing new product and marketing it. Dr. Praphulla and Dr. Saisha V, from the Department of Biotechnology, coordinated the session.
