Report on
One Day Visit of Mayasandra Govt. High School Students
To
BMS College of Engineering

The above mentioned program has been organized under the SSR activity of DST FIST Program on 18th September 2024 at BMS College of Engineering by the Department of Electrical & Electronics Engineering, Department of Physics and Department of Chemistry in collaboration with Astronomical Society, Chirantana, Rotaract club and Department of Physical Education and Sports Science of BMSCE.

30 Children, mainly from 9th and 10th standard with two teachers from Mayasandra Govt. High School have visited the BMSCE campus on 18th September 2024. The main intention was to give an exposure to the rural school children about an Engineering College. Transport was arranged from BMSCE to pick the students from Maysandra Govt. High School and drop them back. They arrived at BMSCE campus at 9.30 AM. Breakfast was arranged in the college canteen. Program stared with an inauguration program followed by a workshop on telescope building by astronomical club, a quiz event by Chirantana and sports activity in the indoor stadium. Lunch was arranged in College canteen. Post lunch children were taken to computer lab to give an exposure to MS Word and paint. The last activity was lab visit to various labs of BMSCE like Physics, Chemistry, Robotics, 3-D Printing, and Microscopy. At the end a small gift was handed over to each student as a token of love from BMSCE. Around 5.30 PM the school children were sent back to Mayasandra through college bus.

Inauguration
