This Memorandum of Understanding (MoU), is made on this the Twentieth day of December two thousand and thirteen (20th Dec. 2013) by and amongst KPIT Technologies Limited, hereinafter referred to as KPIT having its Registered office at Pune and the Department of Electronics and Communication Engineering (ECE), B M S College of Engineering, an educational institution having its office at Bull Temple Road, Bangalore - 560019, hereinafter referred to as BMSCE.

1. Introduction

KPIT Technologies Ltd is a global IT consulting and product engineering partner focused on co-innovating domain intensive technology solutions for corporations specializing in automotive & transportation, manufacturing and energy & utilities.

Being leader in technology solutions and services, KPIT currently partner with 200+ global corporations including Original Equipment Manufacturers (OEMs), and Tier 1 companies. Their Information Technology solutions help customers run their businesses more efficiently, while their Product Engineering solutions enable customers to build products that are energy efficient, safer and yield more comfort for their end-customers. KPIT partner with customers to co-create transformational value that provides sustainable competitive advantage to their businesses. KPIT has a highly focused approach with which it could pioneer innovative solutions and file 50 patents in the automotive domain.

KPIT with their 8800+ strong team working at the forefront of technologies has helped global corporations become efficient, integrated and innovative enterprises.

Key Differentiators

Innovation - The world is evolving and so are business needs. KPIT understand the dynamic environment their customers face. KPIT innovate so that they are able to globalize and integrate effortlessly to build a smart and sustainable future.

Sustainability - KPIT believe that recognition of the interdependence with the ecosystem is the first step towards creating a sustainable world. KPIT foresee an increased effort for the entire Ecosystem coming together to create a common force to deliver excellence in all endeavors.

Focus on Industries – KPIT's familiarity and deep focus in Automotive, Energy & Utilities, Industrial Equipments and Semiconductor industries has enabled them to become specialized providers for their customers. KPIT provide relevant and proven solutions that are often based on intellectual property (IP) created by them and thus, deliver predictable high business value.

Quality Focus – KPIT's customers are committed to providing the highest quality in every aspect of their business operations. KPIT understand the evolving priorities of their customers and have processes that are built to deliver high productivity and right-first-time deliveries that are on schedule, every time.

BMSCE, started in 1946, is one of the first private sector initiatives in technical education in India. Though a private engineering college, it is partially funded by the government of Karnataka. As on date, BMSCE offers 13 UG and 14 PG programmes. Fourteen of its departments are recognized as Research Centres and hence are in a position to offer Ph.D/M.Sc degrees. It has the largest student population of engineering colleges in Karnataka, drawing students from other states of India and from abroad. As on date, about 4600 students are on rolls of the various programmes. The Institute has the services of competent and qualified faculty and is accredited with 'A' grade by NAAC.

Whereas the parties have decided to enter into a strategic alliance on terms mutually beneficial to them.
