

Memorandum of Understanding between

M / S. TMI Systems

And

B M S COLLEGE OF ENGINEERING (BMSCE)

This Memorandum of Understanding (MOU), is made on this the 14th day of September, 2013 by and amongst M/s TMI Systems, having its office at #1027, 4th 'M' Block, Dr. Rajkumar Road, Rajajinagar, Bangalore - 560 010, hereinafter referred to as Organization and B M S COLLEGE OF ENGINEERING, an educational institution having its office at Bull Temple Road, Bangalore - 560019, hereinafter referred to as BMSCE.

1. Introduction

TMI Systems is a professionally managed by Mr. Suresh Rangan(Proprietor), based in Bangalore, TMI Systems works closely with the Educational Institutions undertaking Research and Development (R&D) activities.

TMI Systems has in its fold a group of experts who have a rich experience in the field of Biomedical Instrumentation. The team has a combined experience of over 17 years in the area of T&M, Biomedical Application.

The company, launched in 1995, has a team of entrepreneurs with a vision to provide leadership and technical management expertise not only to the Biomedical companies but also to the aspiring young graduates and post graduates entering into the fields of Biomedical Research activities.

BMSCE, started in 1946, is one of the first private sector initiatives in technical education in India. Though a private engineering college, it is partially funded by the government of Karnataka. It has the largest student population of engineering colleges in Karnataka, drawing students from other states of India and from abroad. The Institute has the services of competent and qualified faculty.

Whereas the parties have decided to enter into a strategic alliance on terms mutually beneficial to them.

2. Objectives of Cooperation

The main objective of this MOU is to provide a platform to build a strong and on-going relationship between TMI Systems and BMSCE. The primary goals are –

- 2.1 To develop and foster strategic linkages with Dept. of Instrumentation Technology, BMSCE and the technical team of TMI Systems.
- 2.2 To assist the students and enhance their knowledge about the latest technologies in which Research is involved.
- 2.3 To understand the needs and expectations of both the institute and the organization and to identify the measures required to meet requirement therein.
