### WORKSHOP REPORT

On 11<sup>th</sup> October 2019, a workshop was organized for PG-CSE students on "Biomedical Signal Acquisition and Analysis", Speaker: Dr. Vijayalakshmi .K, Professor & Head, Department of Medical Electronics, BMSCE, Bangalore-19 who briefed our students the major scope of doing interdisciplinary project work.

The following were covered:

- Introduction to signals
- Biomedical Signals like ECG, EEG, EOG and EMG (1D images)
- 2D and 3D images
- Signal acquisition system, role of transducers, amplifiers, filtering
- Demonstration of ECG signal was also shown

The students have formed teams to do collaborative work along with Biomedical students, where the finalization of the topic would be done on or before 23<sup>rd</sup> October 2019.

### One day Workshop on NeuroImaging and Brain Computer Interface Workshop 9th Sept 2019

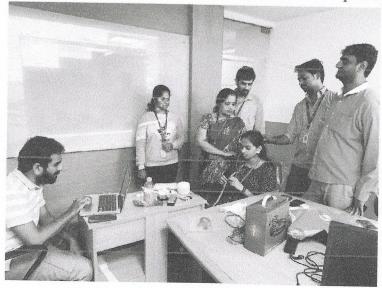

The workshop was conducted by Vittal Koran and Anantha Padmanabhan who are researchers at NIMHANS for PG students of BMSPI.

The first session covered was basics of Neuroimaging and its modalities by Vittal and Ananth. The following modalities were covered

- Magnetic resonance imaging
- Functional Magnetic resonance imaging
  - Image Construction
  - Coregistration
  - Normalization
  - Slice timing and Head motion Correction
  - Spatial and temporal Smoothing
  - o Analysis

The hands on using Statistical Parameter mapping (SPM) was also covered. The Brain computer interface importance and significance was discussed followed by various modalities of BCI acquisition.

EEG (Electroencephalogram) is most commonly used BCI signal. The hands-on session on BCI using Open BCI and emotive was conducted for the participants. The open BCI software GUI was used to acquire and do the analysis for a subject which gave signal and the activities were reflected on the acquired signal.

Dear Madam.

I'm summarising the departmental induction programme conducted to the first year Medical Electronics students on

Two alumni of the ML department, Shruthi Grama and Dheeraj B. N, delivered a very interesting and informative talk to the students on the 16th of August. Ms. Shruthi gave us an idea about profile building and our higher studies. Mr. Dheeraj explained about our career options and the jobs we'll be exposed to as ML graduates. Their talk gave the students an insight into the course and motivated all of us to work hard and strive for excellence in this field.

On the 17th of August, Professor Bhanu Prashanth of the Medical Electronics department gave a talk on how the students can make the best of this programme. He explained numerous things pertaining to the department and the course and made the potential of this field crystal clear to the students.

All in all, the departmental induction programme was a huge success among the students and has inspired everyone

and
Electronics & Communication
Engineering

In Association with FET, M.J.P Rohilkhand University, Bareilly, U.P, India

### ABOUT THE SYMPOSIUM

Infrared (IR) thermal imaging is a very rapidly evolving field in science as well as industry owing to the enormous progress made in the last two decades in microsystem technologies of IR detector design, electronics, computer science and medicine. Thermography nowadays is applied in research and development as well as in a variety of different fields in industry such as non-destructive testing, condition monitoring, and predictive maintenance, reducing energy costs of processes and buildings etc.

### Objectives:

- To provide a forum for sharing the scientific principles and technical challenges of using digital infrared thermography in various domains
- To provide a platform for presenting the applications of infrared thermography and collaborative research opportunities in this area

### Schedule

Session1: Technical Sessions
 Dr.John Philip Ph.D,
 Professor, Homi-Bhabha National Institute
 SO/H, Head, Corrosion Science & Technology
 Division, Head, SMARTS,
 Metallurgy and Materials Group,
 Indira Gandhi Centre for Atomic Research,
 Kalpakkam- 603 102, T.N., india

Dr. Mohamed Yacin Sikkandar, Associate Professor, College of Applied Medical Sciences, Majmaah University, Saudi Arabia

Session2: Infrared Devices and their Applications by Fluke Technologies

Session3: Poster Presentations

### REGISTRATION FEE – 150/-Important Dates:

Last date for receiving applications: 15th June 2019

No TA / DA or accommodation will be given to the participants.

The registration fee can be paid either by DD or Cash to the coordinator.
