

B.M.S. COLLEGE OF ENGINEERING, BENGALURU

Autonomous Institute, Affiliated to VTU
Department of Chemical Engineering

AICHE CORE COMMITTEE MEMBERS (2026-2027)

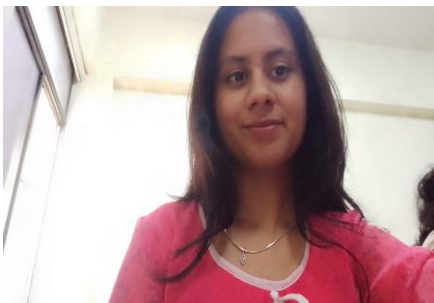

S.I. NO.	Office Bearer	Bio-Sketch
1.	 Umang Sultania President 1BM23CH063	Umang is a driven chemical engineering student interested in sustainable technologies, process engineering, and research. She enjoys multidisciplinary projects and exploring how engineering can be used to solve real-world problems. She values leadership roles that encourage learning and growth. Outside academics, she enjoys reading, swimming, and networking.
2.	 R Amirtha Vice President 1BM23CH042	A student with a keen interest in research and clean energy tech. Actively engages in technical and extracurricular activities, and has a knack for conceptualizing ideas. Beyond academics, is endlessly fascinated by space and mythology, and enjoys movies, and music.

3.		Nishan Kumar P Treasurer 1BM23CH032	Passionate UnderGrad Chemical Engineering Student who is interested in doing his higher studies/specialization in 'Propulsion Tech'. He is also interested in learning new things and finding knowledge like it is a precious item for my brain. Also who likes to pursue his creative side as Video Editor and Graphic Designer in this creative world. He is a person of curiosity and finds adaptability as a strength.
4.		Aboobaker Ansaf International Liaison 1BM23CH002	Ansaf is a Chemical Engineering student interested in core chemical engineering principles, particularly process and nuclear engineering, along with industrial applications. He is involved in research and enjoys both practical and analytical engineering work. Curious by nature, he enjoys exploring new ideas, adventures and trekking.
5.		Namitha R Junior Representative 1BM24CH041	Namitha is a chemical engineering undergrad approaching chemical engineering with an open mind and a sharp instinct for what excites her. She is also a professional dancer who

			believes that science and art sharpen each other. She also enjoys socialising, music and capturing stories in everyday things through a camera lens.
6.		Sumedh A J Chem-E-Car Head 1BM23CH058	I'm a Chemical Engg Grad who enjoys exploring curious and unconventional ideas, and I'm always open to learning something new or improving an existing concept. I like looking at things from different perspectives and finding ways to enhance them creatively and practically. Whether it's a project, a discussion, or a problem to solve, I enjoy contributing fresh ideas and building on them to make them better.
7.		Druvi Katariya K-12 Outreach Head 1BM24CH016	I am an undergraduate Chemical Engineering student with a passion for learning and development. Equipped with strong basics and a desire to use my knowledge and experience in a meaningful way. Interested in interdisciplinary projects in Chemical

			Engineering and Material Science.
8.		Karthik H B Event Coordinator Head 1BM24CH027	A Chemical Engineering student Interested in process engineering, industrial work and sports. He is an active cricket player, artist, athletic player and some psychology mind. He likes organising events and maintaining the whole program.
9.		Nakshatra B Nambiar Graphic Designing Head 1BM24CH040	Nakshatra is a sophomore who enjoys artistry related hobbies varying from traditional to digital art. She enjoys socialising both professionally and casually.
10.		Gauthami R.k Content Writing Head 1BM24CH018	I am a Chemical Engineering student with a strong interest in AI integration, content writing, and innovation-driven projects. I enjoy creating engaging content, exploring new technologies, and actively participating in sports like football. I am passionate about learning, teamwork, and

			contributing creatively to both technical and extracurricular activities.
11.		Hemanth Sunkara R&D Head 1BM24CH023	He is an Active undergraduate researcher in the field of functional materials science, with a strong interest in interdisciplinary technologies such as fuel cells and energy storage. He aspires to pursue higher studies and contribute to advanced research in the field of sustainable energy materials. Outside academics and research, he unwinds by pursuing his passion for motorcycling and playing the guitar.
