## EVENT REPORT

[illegible]

in Singapore, NHS in the UK, and India to translate deep learning algorithms to simplify clinical diagnosis and management of ophthalmic diseases. He co-invented 'Digital-Staining,' a group of 2D and 3D AI algorithms for medical image recognition that was the of Abyss Processing, a deep-tech startup that spun off from the National University of Singapore. The AI technologies he developed are currently used by several internationally renowned academic research groups and clinical communities. He also serves as a reviewer in several tier 1 biomedical engineering journals.

### **Judges:**

1. Mrs. Sumati Mishra  
Head of Department: Electronics  
Neurome Technologies Pvt. Ltd.
2. Mr. Shubham Anand  
Associate Director- Research  
Synaptic

### **Rules for the Event:**

The participants were each given a total of 15 minutes to present their ideas/prototypes. Out of these, 12 minutes were allotted for the teams to present, and the remaining 3 minutes were allotted to the judges for a question and answer session. All the participants in the team were requested to be present and keep their cameras on at all times.

### **List of Participants**

1. Team Name: Funtastic Five

5. Team Name: Maya Manthra

Members:

- Tharani

6. Team Name: Medwingers

College: Hindusthan College of Engineering and Technology

City: Coimbatore

Members:

- Sobika
- Bharat
- Varshini
- Vishva
- Dhanish

7. Team Name: Roshni A. Ramesan

College: BMS College of Engineering

City: Bengaluru

Members:

- Roshni A. Ramesan

8. Team Name: Biotrio

College: BMS College of Engineering

City: Bengaluru

Members:

- Aditi Prasad
- Vaishnavi A.
- Sruthi SS Kumar

9. Team Name: Biomed Blasters

College: KPR Institute of Engineering and Technology

City: Coimbatore

Members:

- Sriya B.

- Ridhima
- Samvruth

14. Team name: 4 A.M.

College: BMS College of Engineering

City: Bengaluru

Members:

- Shashank C

15. Team name: Blaze

College: ACS college of engineering

City: Bengaluru

Members:

- Chandana H
- Likitha M
- Sahaj Patil

16. Team name: Smart Trickers

College: Hindustan College of Engineering

City: Coimbatore

Members:

- Steve Gladwin W.
- Kishore A B

17. Team name: Revolution

College: BMS College of Engineering

City: Bengaluru

Members:

- Anusha L.
- Nidhi R. Singh
- Vaibhavi R
- Vasudha N.

- Team Name: The Healers
- Topic: Design and Development of Phono Electroencephalogram
- College: BMS College of Engineering
- Members: Shreya S. Makam, Samskruthi R.S., Shria Patil, Monica B.M.

### **3. Third Place:**

- Team Name: Blaze
- Topic: Arduino based Detection of Kyphosis
- College: ACS College of Engineering
- Members: Chandana H., Likitha M., Sahaj Patil

### **Student Volunteers:**

#### **Coordinators:**

1. Ranjini Ravi Iyer  
4th Semester  
Department of Information Science and Engineering
2. Mohit Jain  
2nd Semester  
Department of Information Science and Engineering

#### **Volunteers:**

1. Apoorva M.S.  
4th Semester  
Department of Medical Electronics Engineering  
USN: 1BM20MD005
2. Ashwathi S.

B.M.S COLLEGE OF ENGINEERING

# CAMPUS TO CORPORATE TRANSFORMATION

*by*

**Vijaylakshmi R**

*Senior Software Engineer at BGSW  
(Bosch Global Software Technologies)*

"It is smart to learn from one's own experience, but it is much  
wiser to learn from the experiences of others."

**22 April, 2022**

**11:30 am - 12:30 pm**

**Venue: CR-602**

**Contact**

🌐 **Vaishnavi Rangaraj**

☎ **+91 8762660692**

**About Vijayalakshmi R (photo attached in mail):**

- Working currently as Senior software engineer at BGSW (Bosch Global Software Technologies), Koramangala, Healthcare Department.
- Completed schooling from Cambridge Public School, HSR and PUC from Christ Junior College, Hosur Road.
- Graduated with BE (Gold Medalist – CGPA 9.33) from BMSCE-Medical electronics in 2017, got placed in Bosch Healthcare solutions from college placements as Associate Software Engineer and have been working here since then.
- Technologies working on MIoT (Medical Internet of things), AWS Cloud development, Angular, Java, Python, Android and iOS development, AI and ML.
- Using the above technologies working on development of cutting-edge healthcare products like digital pathology solution and non-invasive hemoglobin monitoring solution.
- In 4.5+ yrs of Bosch I have got early promotions, various recognitions and awards like Rockstar, Bronze, Silver awards.
- Participated as representative of Bosch and won in various national level and industry level competitions like Philips innovation award, AIMA Young manager award.
- Been coordinator for BMSCE Phase Shift 2015 (First time Phase Shift was launched), Organizing member of Associate Engagement Committee at Bosch
- Contact: <https://www.linkedin.com/in/vijayalakshmi-r-347744123>

**Abstract:**

**Topic: Campus to Corporate (C2C) Transformation**

Now I am in college...but what next? How do I prepare myself for the industry? What is the industry required skills? How will the transition be from student to employee? Etc Etc

These are some of the questions which run in student's mind when they are aspiring to get placed and are about to start the new journey in the corporate world.

If you are one of those then we have a right stage set up for you.

The session will throw light on the journey from Campus to Corporate. We will have lots of discussions, some pro-tips about the skills required for the industry and what to expect from corporate.

Yes...Yes...Not to miss the open forum to ask questions and get clarifications.

The main aim of this session would be to guide you through campus to corporate by building oneself for the industry.

As they say "Its wise to learn from experience, its wiser to learn from experiences of others"

So here we are with our Alumni addressing the gathering to share her insights and experience.

Looking forward for an interactive session on 4<sup>th</sup> April 2022.

# **Report of Workshop on** **Neural Networks Algorithm for Biomedical** **Applications**

Held during 18<sup>th</sup>-19<sup>th</sup> March, 2019

**SPONSORED BY**

**TEQUIP-III**

**ORGANIZED BY**

Electrical & Electronics Engineering  
and  
Department of Medical Electronics  
*in association with*  
FET, MJP. Rohilkhand University Bareilly U.P.  
under Twinning

## **OBJECTIVES**

- To highlight the importance of modelling and enhancing the knowledge in solving engineering problems using modelling methods
- To familiarize the participants with the latest modelling tools and techniques
- Use of open-source algorithms for research, teaching and industrial usage pertaining to various areas.

## **LECTURE SESSIONS**

Aiming to provide an intense training on Neural Networks at an undergraduate level, a two-day workshop on 'Neural Networks Algorithm for Biomedical Applications' was held at BMS College of Engineering, Bangalore.

The workshop was designed for students as well as teachers, with a view to make the participants gain in-depth knowledge of Machine Learning, and had eight lecture sessions altogether. Mr. Supreeth Y.S, Co Founder and CEO at Tequed Labs, along with his team, were the resource persons of the workshop.

Mr. Supreeth delivered the inaugural lecture by giving a brief introduction on Artificial intelligence, Machine Learning and their pertinence in today's world.

- Human Detection using Machine learning.
- Creating Machine learning models and working on various data sets.

→ **Session-4**

**3.30pm - 4.30pm**

- Natural Language processing and Sentimental Analysis.

**CONCLUSION**

The Neural Network workshop was beneficial to all the students and teachers who attended, as the topics were well elucidated by Mr. Supreeth and his team. The feedback received reflected that they were also equipped with a deep understanding of the topics covered.

**CONVENERS**

Dr. Vijayalakshmi K, Assoc. Professor, Dept of ML Engg.  
Dr. R. S. Geetha, Assoc. Professor, Dept of E & E Engg.

APPLICATION FORM

TEQIP

Towards Education Quality Improvement Programme Phase-III

sponsored

Two days hands-on workshop on

"Neural Networks Algorithm for bio-medical applications"

(18<sup>th</sup> and 19<sup>th</sup> March, 2019)

1. Name : .....

2. Designation : .....

3. Institution : .....

4. Address for communication : .....

.....

.....

5. Contact No : .....

6. E-mail ID : .....

7. Educational qualifications : .....

8. Area of specialization/interest : .....

9. Years of experience : .....

Teaching : ..... Industry : .....

10. DD Details : .....

DECLARATION

The information furnished above is true to the best of my knowledge. I agree to abide by the rules and regulations governing the course. If selected, I shall attend the course for the entire duration. I will submit the registration fee on or before 15-03-2019.

Place: ..... Signature of the applicant

Date: .....

TEQIP sponsored two days hands-on workshop  
on

Neural Networks Algorithm for  
bio-medical applications  
(18<sup>th</sup> and 19<sup>th</sup> March, 2019)

Organized by

Department of  
Medical Electronics

and

Electrical & Electronics Engineering

in association with

FET, MJP. Rohilkhand University Bareilly  
U.P.  
under Twinning

7

**BMSCE  
IEEE**

BMSCE IEEE SB and the  
Department of Medical Electronics  
Engineering presents

# INDUSTRIAL VISIT

To Centre for Nano and Material  
Sciences (CNMS) at Jain University, Bangalore

Chief Coordinator

Dr. Joshi Manisha S

Faculty Coordinator

Dr. Jisha P

Dr. K R Niranjan

Centre for Nano and Material Science (CNMS) is a new research centre established in 2012 by Jain University. The centre presently has oriented its research in chemistry focussing on Catalysis, Electrochemistry, Neurochemistry and Engine Materials. It offers a critical mass of world class researches with unique capabilities and expertise in Nano structured assemblies, electrochemical phenomena, catalyst materials integral to energy conversion and storage sensing technologies, together with clinical characteristics of anti-neuro-inflammatory potentials. The aim of the visit to the CNMS is to help our UG and PG students in exploring and learning more about biomaterials, their synthesis, characterization and processing of nanomaterials in real time.

*Exclusively for the students of  
Medical Electronics Engineering!*

**Date: 22<sup>nd</sup> March 2022**

**Reporting Time: 8 AM**

**CONTACT US:**

Dr. Jisha: 89513 52753

Dr. Niranjan: 99026 88944

**Venue: 6<sup>th</sup> floor,  
Dept. of Medical Electronics  
Engineering, Platinum Jubilee Block**

**B.M.S. College of Engineering, Bangalore - 560019**  
**Department of Medical Electronics Engineering**  
**Organizes**

**EVENT: INDUSTRIAL VISIT**

**REF: BMSCE/UG/PG/ML/BIP/2022/IV-2**

**Event: "Industrial Visit to Centre for Nano and Material Sciences (CNMS),  
Jain University, Bengaluru.**

**In collaboration with  
IEEE BMSCE chapter  
Scheduled on**

**Date: 22 - 03 - 2022**

**Time: 9.30AM-4.30PM**

  
**Faculty Coordinator**

**Dr.Jisha.P**

**Dr.Niranjana.K.R**

**Medical Electronics Engineering**

**HOD**

  
**23/3/2022**

**Director, CNMS**

**Jain University**

**CENTRE FOR NANO AND MATERIAL SCIENCES**

**JAIN UNIVERSITY**

**Jain Global Campus, Jakkasandra Post,  
Kanakapura Taluk, Ramnagara District - 562112**

(Autonomous under VTU)

## INDUSTRIAL VISIT REPORT

V Semester  
(2021-2022)

Name	USN	Signature
Ume Hani Jawad	1BM19ML055	<i>Ume Hani Jawad</i>
Vaishnavi Rangaraj	1BM19ML056	<i>Vaishnavi Rangaraj</i>
Chief Coordinator		<i>Dr Joshi Manisha S</i>
Faculty Coordinator		<i>Dr Jisha P</i>
		<i>Dr K. R Niranjana</i>

- Synthetic organic chemistry lab - The main equipment and studies done in this lab revolved around Carbins, TLC chamber, GCMS.
- Applied electrochemistry lab - This lab specialized in energy storage devices. The studies on energy storage devices involved computer technologies and wearable sensors. Demonstration of data collection and analysis was given.
- Sustainable energy materials and processes lab - Focuses on sustainable materials. The highlight of this lab was the water purifying plastic membrane. Their main area of research was on waste particle purification.
- Bio-organic and clinical chemistry lab - Synthesis of nanomaterials (MOFS). A brief overview about the analysis on separation of biological entities (like cancer cells) from bloodstreams using nanotechnology was given. They are also working on a drug delivery system. The operation of the BET surface analysis equipment was demonstrated and explained.
- Photo and electrocatalysis lab - This lab specialized in 2D materials and dye degradation studies. They work with photoactive materials, sensors and solar cells. Three different types of membranes are used for water purification studies - electro nanofiber membrane, nanofiber and flat sheet membranes.

The morning session and the visit to the laboratories ended with a quick group photo session.

The industrial visit helped the students in understanding the science and the technology behind the design, fabrication and application of nanomaterials. All the UG and PG students had the opportunity to interact with subject matter experts.

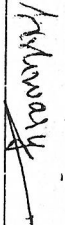

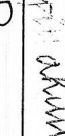

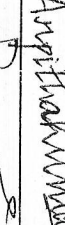

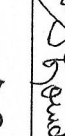

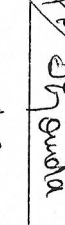

The industrial visit was a welcome experience for all the students and every student looks forward to the next industrial visit.
