

WIR LERNEN DEUTSCH

BY:M KOMALA (VIII SEM TCE)

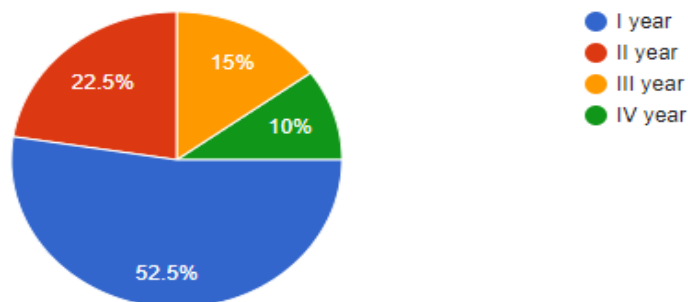

Wir lernen Deutsch(which means we are learning German) was a 2 week online programme on basic German which was conducted by the literary club of the department of Electronics and telecommunication Engineering during the month of June 2021.

Learning a new language gets boring sometimes .The main aim of this course was to learn basic German with the help of few fun filled activities, audios and videos which made learning a new language easier.

We had a total of 12 sessions in this course. We had online registrations for this course which got a huge amount of response from the juniors of our department. A total of 40 responses were recorded.

Year of study

40 responses

The course syllabus was framed taking into consideration of the syllabus that would be covered in an A1 level German certification.

We had followed the “Netzwerk Kursbuch” for guidance which is a standard textbook which is recommended by the European Language Council (ELC).

We began our first session with our beloved HOD ma’am Dr.B Kanmani giving a small welcome speech to everyone who had taken the initiative of learning this language.

The course structure covered the basics of the 4 important modules that is reading, listening, writing and speaking which includes basic grammar

as well. We even made the best use of apps like vocabulix , duolingo etc which further helped in enhancing the pronunciation skills.

The candidates were asked to practice the covered topics everyday for atleast 15-20 mins which they followed very sincerely.

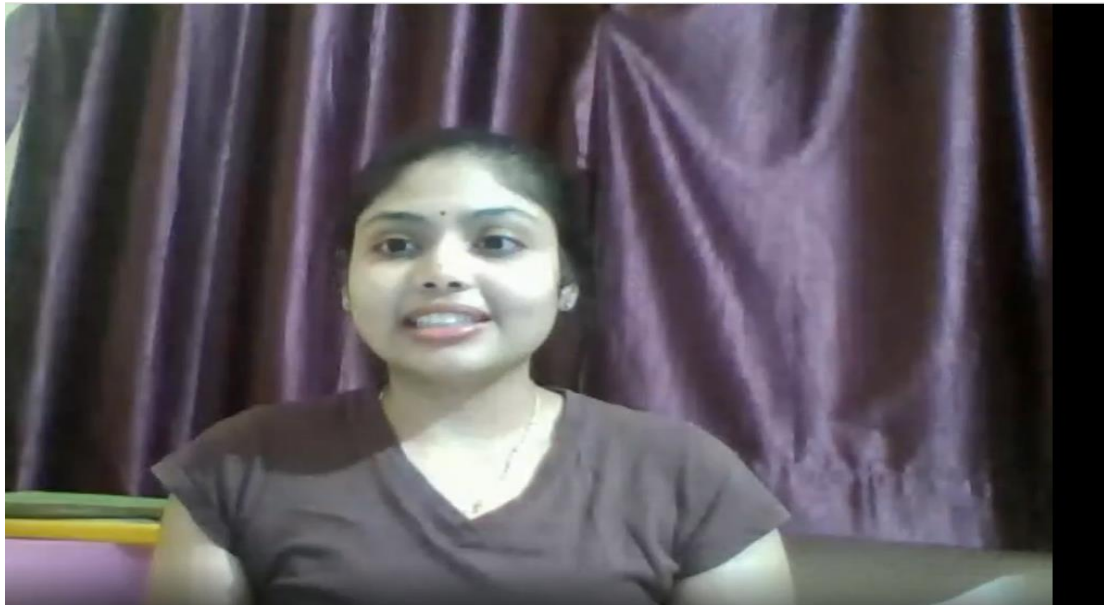

We had a lot of fun during this learning process the students never got bored of the sessions and sometimes the sessions even lasted for 2 hours.

The course had to end with an course end assessment which had modules such as self introduction, letter writing, form filling and basic question and answering framing for the spontaneously given theme.

This assessment went for almost 1 hour and a total of 10 candidates cleared the assessment with bright colors. At the end of this course the candidates were able to introduce themselves in German, frame basic sentences in German, had a good grip upon basic grammer.

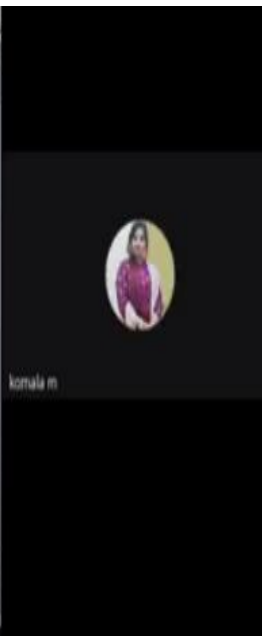

Lastly, a big thanks to our HOD ma'am Dr.B Kanmani, our faculty coordinator Dr. Balachandra K and whole of our Electronics and telecommunication family for helping out this programme to become a great success.

GLIMPSES OF OUR 2 WEEK ONLINE PROGRAMME ON GERMAN
