CONFLICT OF INTEREST DECLARATION FORM

Nokia Solutions and Networks' ("Company") Code of Conduct and the Global Employment Guideline define the rules and guiding principles for ethical behavior that all Nokia Solutions and Networks employees are expected to follow. One of the principles is related to "Conflict of Interest". It is the policy of Nokia Solutions and Networks to address how conflicts of interest involving employees of the Company should be identified, disclosed and managed. This form is designed to identify and disclose known conflicts of interest in an effort to properly manage them.

A "conflict of interest" exists when:

(a) an individual's personal or familial interests interfere, or appear to interfere, with the individual's independent judgment on behalf of Nokia Solutions and Networks; or

(b) a relationship is not in the best interests of Nokia Solutions and Networks, or has an appearance of not being so.

A conflict of interest can arise when an employee has interests that may impair the individual's ability to carry out responsibilities and duties to the Company objectively. Conflicts of interest may also arise when an employee receives an improper personal benefit as a result of his/her position in the Company, such as self-dealing or taking advantage of a corporate opportunity for personal gain or benefit.

In some cases the external activities of an employee, such as consulting, outside employment, public service, pro bono work, or serving as an officer of an external entity, even without compensation, can result in actual or apparent conflict of interest regarding the employee's commitment of time to his/her employment with Nokia Solutions and Networks.

CONFLICT OF INTEREST DECLARATION FORM

Nokia Solutions and Networks' ("Company") Code of Conduct and the Global Employment Guideline define the rules and guiding principles for ethical behavior that all Nokia Solutions and Networks employees are expected to follow. One of the principles is related to "Conflict of Interest". It is the policy of Nokia Solutions and Networks to address how conflicts of interest involving employees of the Company should be identified, disclosed and managed. This form is designed to identify and disclose known conflicts of interest in an effort to properly manage them.

This is the only acknowledgement mail which the organization agreed to send after many requests. And they stated that the certificate will be provided only after the completion of the project (within 3 weeks)

The project was planned for three months, and I have completed 8 weeks of internship in this organization till now.
