THE INSTITUTE

B.M.S. College of Engineering established in the year 1946 was the first private Engineering College in the country. The College owes its existence to the foresight and vision of its founders, Late Sri.B.M.Sreenivasaiah and his illustrious son Late Sri.B.S.Narayan. The College is strategically located in the heart of the Bangalore city. The College is approved by AICTE and permanently affiliated to VTU and also approved as QIP Centre of AICTE. The College offers 13 UG, 15 PG and 14 PhD degree programmes. More than 350 research scholars are pursuing their PhD Degree. 103 PhDs and 16 MSc have been produced so far. The college is aided by Government of Karnataka and also offers self-financing programmes. A recipient of World Bank Assistance under TEQIP I & TEQIP II and presently listed under TEQIP III. BMSCE is the only College in India adopted by the Melton Foundation, USA. The College is autonomous (since 2008-09) and has been effectively practicing Outcomes Based Education (OBE). Curriculum design & development, Pedagogy and Assessment are given highest priority. The college maintains high academic quality standards; the certification by the NAAC, NBA (Tier-I Format) and NIRF Ranking is testimony of the same. The college has one of the largest student populations amongst engineering colleges in Karnataka. Currently more than 5000 students (India and abroad) are pursuing their higher studies in the College. The College continues to be the most preferred destination not only for the students of the state but also from various parts of the country. The quality educational practices supplemented with academic ambience, state of the art infrastructure, pedagogy, academic innovations, research, incubation, training opportunities and entrepreneurship is enabling the institute to produce graduates who are industry ready. BMSCE boasts of a strong alumni base of over 40,000 most of them occupying coveted positions in India and abroad. The institution offers highly qualified, committed and experienced faculty. The College has been ranked amongst the best engineering Institutes in the country by various credible ranking agencies and media houses.

VISION

Promoting the prosperity of mankind by augmenting human resource capital through quality technical education & training.

The founders have envisaged the vision of providing skilled and competent workforce to society by imparting quality education and training. The founders strongly believed that creation of skilled technical manpower would promote towards nation building. This vision is relevant even today looking at the young demographic nature of India and the challenges they encounter to meet the changing global market needs. The vision of every BMSCE is to nurture excellence and its mission to instil in students the desire and ability to make excellence a way of life.

For realization of the vision, emphasis is laid on creating an environment that promotes excellence. This takes the form of various initiatives to energize the different factors that impact the quality of education. Through Student-centred learning processes the institution puts the authentic knowledge needs on priority. Teaching Learning-Practices (T-L-P) are streamlined for the improvement of academic performance and holistic development of the students. The employability factor is one of the prime considerations in the design and development of outcome based curriculum. The labs are also regularly upgraded in order to stay advanced. The institution has a well-laid strategic plan. The implementation of the vision and plan is executed with the support and with the involvement of all the stake holders. The BOG approves the Vision & Mission, Short Term and Long Term goals and the Budget based on the Strategic Plan. The BOG ensures that all decisions on the matters such as admission quality, new programmes, infrastructure, Teaching Learning Process and Placements are arrived based on the vision of the Institution.

MISSION

Management provides clear vision and mission to the institution. The management firmly believes that a strong vision and mission statements will help stakeholders to attain their respective goals. The mission is achieved basically through the process of education, training and research. The following measures are implemented to accomplish the institutional mission:

Curriculum Design: Involvement of all stakeholders to ensure that the curriculum is robust and relevant. Practicing Outcome based education (OBE)

Adopting Innovative Processes in Teaching and Learning: Encouraging innovation in Teaching and Learning and best practices in TLP

Industry-Institute-Interaction: Collaborative efforts with the industry personnel for enhancing the learning levels of the students through Industry Supported labs and other activities.

Research & Development: Promoting Research, Innovation & entrepreneurship through dedicated R&D cell, centers of excellence and incubation. Initiatives in Sensitizing/Promoting Research Climate in the institution

Modern Tool Usage: Use of technology (MOOCs and Blended MOOCs) for enhancing the learnability coefficient (self-pace) of the students, recording of live lectures and social learning platforms like WIKSATE. E-learning solution for automatic recording and distribution of class room lectures and flipped class model.

Governance: Active participation of BOG members in all the institutional development activities. Has a good governance document in place.

Strategic Planning: strategic plan Long Term and Short Term Goals are in Place. The management periodically reviews the status of its implementation.

Effective & Sound Financial Management: Budgetary provisions for the departments are made based on the requirements/inputs provided by the Department

Quality Assurance: Academic Audits at the departmental/Institution levels for monitoring the continuous improvement are in vogue. Internal Quality Assurance Cell (IQAC) has been constituted to monitor/maintain quality in all its processes. Effective Student Feedback system on faculty and the institutional facilities is in place. Departmental Advisory Board (DAB) created for advising in academic matters. Rubrics to assess the level of student projects are available

Alumni Network: Committed alumni association having a wide global network sponsors/ conducts Workshops in Current Trends/Technology for enhancing the skills & personality development among the students.

ACADEMIC PROGRAMS

BMSCE offers courses both in conventional and emerging areas. The institution believes that choosing the right courses will help our students get the career edge and the extra push that is so highly needed in a competitive job market, eventually leading to professional success.

Undergraduate Courses

MBA	Master of Business Administration

PRINCIPAL'S MESSAGE

BMSCE relentlessly strives in its endeavor to provide quality education to its students. Today, education means much more than acquiring knowledge. Education coupled with sound co-curricular and extra-curricular engagement creates an amiable environment in the all-round development of the students. Involvement of a student in co-curricular and extra-curricular activities plays an integral role in the collegiate experience.

Apart from sports and cultural activities, volunteer and service related activities are provided platform through NSS and NCC units. The Department of Physical Education and Sports Science and the cultural forum provide opportunity to students to get involved in culturally enriching activities and to grow in their area of expertise. At BMSCE, the students are provided with quality sports and recreation facilities. The students have opportunities to par-take in number of sports and cultural activities organized by the college.

It a pleasure to know that the Department of Physical Education in bringing out its annual magazine PULSE 2022. I take this opportunity to congratulate the Physical Education Director, members of the Cultural Forum, NSS & NCC Units, the editorial board of the magazine. I also wish to extend my wholehearted support and wishes for the success all their endeavors.

Dr. S. MURALIDHARA

PRINCIPAL

PHYSICAL EDUCATION DIRECTOR'S MESSAGE

BMSCE offers a wide range of sporting, recreational and cultural activities. Physical education improves cognitive performance and academic achievement. Even at the low 'dosages' reported, physical education is associated with improved mental health, dietary choices, and academic achievement." Educating the Student Body makes recommendations about approaches for strengthening and improving programs and policies for physical activity and physical education in the college environment. Physical education and cultural activities play a critical role in the healthy development of youth. We aim to expose students to a wide range of physical and cultural activities. Our team players receive relentless support in order to balance their dual careers. They have been participating in various state and national level competitions and have brought many laurels to the institution. We have a well-equipped indoor facility which provides a wide range of sporting facilities including 2 gyms to aid players to train and hence perform better. It is my pleasure to say that BMSCE stands in top among 203 engineering colleges in VTU sports and Cultural activities.

Dr. M. SHIVARAMA REDDY

DIRECTOR, PHYSICAL EDUCATION

DEPARTMENT OF PHYSICAL EDUCATION AND SPORTS SCIENCE

BMS College of Engineering has made a name for itself in several sports & cultural activities – All the indoor & outdoor activities i.e., Archery, Badminton, Baseball, Basketball, Chess, Cricket, Football, Handball, Hockey, Judo, Kabaddi, Kho-Kho, Netball, Powerlifting, Swimming, Tennis, Table Tennis, Volleyball, Softball, Yoga, Wrestling and Weight Lifting. The department is very supportive and encouraging to all the students of the college at all times. We have been ranked top in VTU Sports & Cultural activities. We are indeed grateful towards the management for providing the students with a good Indoor, Outdoor and well equipped gym facilities. The Majestic Indoor Stadium we see today is the result of the Physical Education Director's vision and hard work. It was in the year 2000 that he prepared the project for the construction of the Indoor Stadium and submitted the same to MHRD, New Delhi. This was approved by the ministry and the matching grant was received and the Indoor Stadium was completed in 2004. Now, the multipurpose Indoor you see is the result of the constant support from the BMS Management. The Outdoor facilities include Handball, Kho-Kho, Kabaddi, Throwball, Volleyball and a multipurpose ground which is well maintained by the sports department.

We conduct State Level Memorial Tournament - KREEDOTSAV & UTSAV National Level Inter Collegiate Techno - Cultural Festival on a yearly basis with the support of the management. We are happy to say that we have been Champions of the tournament in most of the years & our utsav fest has been ranked first in Karnataka in the top ten listed by Deccan Herald. The Staff and management are very supportive towards all the students who take part in sports and cultural activities for the college teams. There are incentives provided to college team students who achieve well in VTU sports & cultural games/events. This support is basically because the BMS family firmly believes in the overall development of an individual. The Students are very active, interested and dedicated and they make use all the facilities provided by the management through the Department of Physical Education and Sports Science. They have left no stones unturned to bring laurels to the college.

We the Department of Physical Education and Sports Science are ever grateful towards our Management, Staff and Students.

INTRODUCTION

Department of Physical Education & Sports Science serves as a vital and integral part of the student life in campus. The mission of the department is to provide a broad spectrum of sports, recreation and leisure activities for students, staff and faculty, as well as members of the local community. The primary direction is to provide services and programs that stimulate growth, development and retention of students in a contemporary and safe environment that develops fitness and wellness, social interaction and leadership opportunities.

VISION

To engage in relentless pursuit of excellence in promotion and development of Physical Education, sporting and extra-curricular activities through an innovative approach in teaching, coaching, research and outreach activities and to evolve a holistic approach to the all-round betterment of human resources through a harmonious blend of body, mind and spirit.

SCHOLARSHIP AND AWARD

The Management provides cash incentives for outstanding sports students in their final year on a regular basis.

- * National Players - 10,000/-
- * University Players - 5,000/-

The Management also provides cash incentives for the students for the highest achievement in VTU Tournaments.

- * Winners - 3,000/-
- * Runners - 2,000/-
- * 2nd Runner Up - 1,000/-

Students are awarded with pure silver medals from VTU for their achievement in the Inter collegiate level competition.

- * 1st Place - 25 grams
- * 2nd Place - 20 grams
- * 3rd place - 18 grams

Attendance will be provided to participate in all sports & cultural activities through the Principal as per the college norms.

Providing uniform/colors & TA/DA for all the college team players to participate in the VTU Inter Collegiate competitions.

KREEDOTSAV - 2023

Kreedotsav is one of the most prestigious state level Inter Collegiate Tournament organized by Department of Physical Education and Sports Science Of B.M.S. College Of Engineering. This year Kreedotsav - 23 was organized from 18th - 22nd of December 2023.

RENDEZVOUS

SHIVANI SHANTAGIRI

Firstly, I would like to express my sincere appreciation to the Sports Department for their outstanding support and encouragement. As a player, I've seen significant growth and enthusiasm within our sports community. Representing BMS has been a privilege, helping us grow academically, socially, and holistically. We've achieved notable success in competitions and increased participation across various sports. The dedication and enthusiasm of the staff have positively impacted our sporting experiences. Hosting the "Kreedotsav" tournament in such a grand manner shows the department's commitment.

From day one, ^{Shivani} the department has been supportive and approachable, helping us build teams and ensuring we practiced regularly. Special thanks to Shivaram Reddy Sir, Nagaraja Sir and Shivakumarswamy Sir for their constant encouragement and kindness. The helper staff also deserve recognition for their support. Overall, the Sports Department has created an environment where passion meets skill, helping athletes reach their full potential.

During my four years at BMSCE, I actively participated in sports, deeply engaging with the vibrant athletic community. My time as a dedicated member of the kabaddi team was particularly formative, as it involved rigorous training, strategic gameplay, and a competitive spirit that ignited my passion for the sport. From player to Captain the journey was so hard and immense. I thank everyone in the department of sports, Civil department, my coach, seniors & friends. The challenges of intense matches and tournaments not only strengthened my physical abilities but also fostered close-knit relationships with my teammates.

Mahesh

Chiranjeevi

It's worth remembering every day what it was like to be part of the BMSCE Sports department. Being physically active is an integral part of my daily life, and BMSCE created a well-suited environment for staying active and enjoying it at the same time. I was part of the Table Tennis team and had a great time learning, winning, losing, and making a lot of memories. Shoutout to my awesome team who have always been there for me and the team. I can say with immense pleasure that the bond we had with the team and the sports department, from participating in the VTU tournament to organizing the KREEDOTSAV tournaments, was incredible. I wouldn't miss a single chance to recreate those times, even for just a day.

RENDEZVOUS

M C ARYA

During my four years at BMSCE, I immersed myself in sports, which was a cornerstone of my college experience. Starting as a volleyball player and later becoming captain, I embraced the challenges and triumphs of the game. Leading the team and serving as the sports coordinator were highlights of my journey, allowing me to foster teamwork and drive our collective success. The rigorous training, strategic matches, and role as captain was so Challenging. I Thank Dr. Shivarama Reddy sir, Nagaraj sir & Shivakumar sir for their support. I also thank my coach, seniors and fellow teammates.

As a student coordinator for the BMSCE Sports Club and an active player of kho kho, throwball, and ball badminton, my journey in sports has been incredibly rewarding. Engaging in these sports has not only enhanced my physical abilities but also imparted essential life skills such as teamwork, leadership, and resilience.

Overall, my experiences in sports at BMSCE have been profoundly impactful, shaping me into a more disciplined, confident, and dynamic individual. I am grateful for the opportunities and support provided by the sports department and look forward to continuing my journey in the world of sports.

Manjunath B L

Sushma

"I would like to extend my heartfelt gratitude to the sports department and all the faculties who supported and encouraged me throughout my three years of playing Kho Kho at the college. Those three years taught me valuable lessons that went beyond academics, such as teamwork, leadership, perseverance, and sportsmanship. Although we faced losses and setbacks, we never gave up, and that's what matters most - the unwavering sports spirit that united us as a team and drove us to push beyond our limits. My journey not only made me a better player but also earned me recognition and a sense of pride and gained a reputation as a dedicated and passionate athlete. I am incredibly proud to have represented my college in the entire BMS college and the experience has left an indelible mark on my life."

RENDEZVOUS

V Moksha Jain

Joining the chess club in 2021, BMSCE became more than just textbooks. It was about strategizing, outwitting opponents, and honing my skills with amazing teammates. Huge thanks to the sports department for backing us and providing resources for tournaments! But BMSCE chess wasn't just about trophies. The true win was the fantastic team. We were friends who pushed each other to improve. From pre-tournament pep talks to post-game analysis, and the camaraderie on long journeys, these are the memories I treasure most. Looking back, BMSCE chess undeniably helped me grow as both a player and a person.

Sports played a big part in my life, and my time at BMSCE was amazing because of it. Sports at BMSCE helped me relax and gave me a lot of confidence since our seniors had set a high standard. My four years of engineering were great, thanks to the sports department. I'm really grateful to the volleyball and basketball teams for teaching me discipline, handling pressure, and helping me make lifelong friends. BMSCE's strong sports reputation often made our opponents nervous, which made matches easier for us. I'm truly thankful for these experiences.

Apart from everything in BMSCE, the only thing I admire everyday is about the games I have played . You know all of my crazy good memories are from college ground while playing ,practicing, rather than any fest or in classes! My college days wouldn't have been the same if I had not been involved in sports. "Every game played, every victory celebrated and every defeat endured has shaped my life"
Thank you BMSCE,
Thank you department of physical education for their immense support,
Thank you to all my teammates without whom it would've never happened...
Forever grateful...!

RENDEZVOUS

Niharika Jain P N

One of the Unbelievable and Unexpected Journey of my life is four years of Engineering in BMSCE. Sports shaped me as different Human being and gave me a chance to explore myself in unique way. Starting with Handball it took me to Taekwondo ,Judo, wrestling,volleyball,throwball,kabbadi,Throwball and towards never end for Learning.Today It's not the four walls of classroom that I am missing but the practice sessions and the sports Journey.I am very thankful to Dr. M Shivram Reddy sir,to sports department and to all coaches for the way they guided, supported ,encouraged and pushed me to find out better version of myself

Education is about more than academics; it's about the complete growth of a person, and BMSCE has demonstrated this for years. Learning goes beyond the classroom, as shown by the BMSCE Sports Department. They have worked hard to build a strong sports culture and maintain the college's reputation. I owe much to the faculty and staff for their dedication, who support and guide each team towards success. They focus on helping students build self-confidence and personal growth rather than just aiming for results. I am especially thankful to my brother Anirudh, for always believing in me through both good and tough times. Representing the college in VTU and VTU at the South Zone Nationals was an incredible experience. I sincerely appreciate everyone who has helped create these memorable moments.
